

## Boulder County Window and Door Replacement Submittal Form

Please complete ALL the values for each window to be installed listed below.

List the materials of window frame and sash construction:  
 (Note: Unreinforced vinyl window frames or sashes are prohibited in Wildfire Zone 1. If vinyl assemblies are proposed in Wildfire Zone 1, provide the product listing documentation.)

Reserved for Boulder County Review Approval	Floor Level (basement, first, second, etc.)	Window Type (casement, slider, awning, etc.)	Proximity to Door(s)  INCHES	Window Opening Sill Height measured above finished floor  INCHES	Top of glazing measured above finished floor  INCHES	Window Size (W x H)		Egress Window?  (X) if yes	Safety Glazing  (X) if yes	Existing window opening to be enlarged or altered?  (X) if yes	Maximum U-Factor for:
Opening Location Room Name						Width  INCHES	Height  INCHES				glazed doors 0.30

- If a room has a closet that opens directly to the room, it WILL be considered a bedroom and WILL require an Emergency Escape and Rescue Opening compliant with IRC Section R311.
- New or enlarged window and door opening(s) WILL require signed and sealed engineered design by a Colorado licensed design professional with structural information.
- Cutting the existing foundation requires a signed and sealed engineered design by a Colorado licensed design professional.
- Bay or bow window units placed in an existing or new opening require a site plan.
- Safety Glazing as required per IRC Section R308 and R308.4.
- If bedroom egress is provided by an exterior door make this note in the Opening Location Room Name of the corresponding line.
