

CAREConnections

Information and Inspiration for Caregivers

A Publication of Boulder County Area Agency on Aging

The bi-monthly newsletter for family caregivers published by Boulder County Area Agency on Aging

Boulder County is home to thousands of family caregivers who provide care for older relatives, partners, friends, and other loved ones. They're on the search for information about resources and services, and for over 20 years they've turned to Care Connections for that information and support.

Care Connections reaches family caregivers:

- It's delivered to 2,160 subscribers – primarily Boulder County caregivers.
- It's online at www.BoulderCountyHelp.org, the heavily-used ADRC (Aging & Disability Resources for CO) website.
- It's distributed to 130 sites throughout Boulder County: senior centers, medical clinics, hospitals, faith communities, long-term care homes, hospices, pharmacies, banks, and more.

Now you can reach family caregivers too.

Share your business message by advertising with Care Connections.
