

**Logic and Accuracy Test
Information Packet
2010 General Election**

**Boulder County Clerk & Recorder
Elections Division**

Rule 11. Rules Concerning Voting Systems

11.1 Definitions

- 11.1.1 “Central Count” shall mean a ballot counting process whereby cumulative voting totals are tabulated for multiple precincts and multiple ballot styles at a single location.
- 11.1.2 “Election Setup Records” shall mean the electronic records generated by election tabulation software during election setup to create and define ballots, tabulation instruction, and other functions related to the election.
- 11.1.3 “Electronic Ballot” shall mean a ballot that is presented to the voter in a non-paper form such as on a touch screen or through audio feedback. After a voter casts an electronic ballot, the voter’s choices may be:
- Marked and printed on a paper ballot for subsequent counting by a paper ballot scanning device; or
 - Digitally recorded and counted by the touch screen device, commonly referred to as a Direct Record Electronic (DRE) device.
- 11.1.4 “Election Software” shall mean the software to be installed or residing on election equipment firmware or on election management computers that control election setup vote recording, vote tabulation and reporting.
- 11.1.5 “Electronic Voting Device” shall mean a device by which votes are recorded electronically, including a touch screen system.
- 11.1.6 “Electronic Vote-Tabulating Equipment” or “Electronic Vote-Counting Equipment” shall mean any apparatus that examines and records votes automatically and tabulates the result, including but not limited to optical scanning equipment. The term includes any apparatus that counts votes electronically and tabulates the results simultaneously on a paper tape within the apparatus, that uses an electronic device to store the tabulation results, and that has the capability to transmit the votes into a central processing unit for purposed of a printout and an official count.
- 11.1.7 “Electromechanical Voting System” shall mean a system in which an elector votes using a device for marking a paper ballot using ink or another visible substance and the votes are counted with electronic vote-tabulating equipment, or a system in which votes are directly recorded electronically within the equipment on paper tape and are recorded simultaneously on an electronic device that permits tabulation at a counting center.
- 11.1.8 “Firmware” shall mean computer programs, stored on read-only memory devices or other electronic circuitry in voting devices, WHICH control the basic operation and functioning of those devices.
- 11.1.9 “Logic and Accuracy Test (LAT)” shall mean a step by step documented review of a voting device’s ability, prior to use in any election, to produce accurate results on voter choices for the candidates and ballot issues in an election. The Logic and Accuracy test shall fulfill the requirements OF the Public Test as identified in section 1-7-509(2), C.R.S.
- 11.1.10 “Precinct Count” shall mean a ballot counting process whereby voting totals are tabulated for single/multiple precincts OR single/multiple ballot styles at individual polling place locations.

11.5.3 Logic and Accuracy Test

The designated election official shall conduct a Logic and Accuracy Test according to the following requirements.

- 11.5.3.1 The designated election official shall create a Testing Board consisting of at least two persons, one from each major political party.
- 11.5.3.2 Prior to the commencement of voting, the designated election official shall conduct the public Logic and Accuracy Test.
- 11.5.3.3 The Logic and Accuracy test shall be open to representatives of the press and the public to the extent allowable and pursuant to section 1-7-509(2)(b), C.R.S. The designated election official may limit the number of representatives from each group to accommodate for space limitations and other considerations.
- 11.5.3.4 Testing Board Test Ballots – In preparation for the Logic and Accuracy Test, the designated election official shall provide to each member of the Testing Board, at least twenty-five (25) ballots that are clearly marked as test ballots to be used for the Logic and Accuracy Test.
- 11.5.3.5 The members of the Testing Board shall secretly vote their position and retain a record of the tally of their test votes. The test ballots shall have a known predetermined outcome by the members of the Testing Board's secret vote and tally. Of the twenty-five test ballots, two shall be tested as audio ballots where applicable.
- 11.5.3.6 County Test-Ballots – In preparation for the Logic and Accuracy Test, the designated election official shall prepare a sufficient number of test ballots that represent every precinct which shall include every ballot style, allow for a sufficient number of ballots to mark every vote position for every candidate on every race including write-in candidates, allow for situations where a race may permit an elector to vote for two or more positions, and include overvotes and undervotes for each race.
- 11.5.3.7 The test ballots shall be tested on each type of voting device utilized in a given election and each method of counting. The tests shall include testing of mail-in ballot counting methods, election day counting methods, provisional ballot counting methods, early voting counting methods and audio ballots, if applicable.
- 11.5.3.8 Conducting the Test
 - 11.5.3.8.1 The designated election official and Testing Board shall observe the tabulation of all test ballots by means of the voting device and compare the tabulation with the previously retained records of the test vote count. The cause of any discrepancies shall be corrected prior to the start of vote tabulation.
 - 11.5.3.8.2 Prior to the start of testing, all devices used will have the public counter reset to zero, and presented to the testing board for

verification. For any device capable of producing the trusted build hash value (MD5 or SHA-1) of the firmware or software, the Election Official shall verify and document the accuracy of the value to be included with the records for the device.

11.5.3.8.3 An appropriate number of voting devices will be available and the testing board may witness the necessary programming and/or downloading of memory devices necessary to test the specific precincts.

11.5.3.8.4 The Testing Board and designated election official or his or her designated deputized clerks, as necessary, shall count the test ballots as follows:

(a) Mail-in Ballots:

- (1) All county test ballots shall be counted on at least one, but not more than three, mail-in ballot vote counting devices and have the predetermined total verified to the machine total.
- (2) All Testing Board Member test ballots shall be counted individually with reports generated to verify the machine count to the predetermined hand tally.

(b) Precinct Count Ballots (Optical Scan and DRE):

- (1) The Testing Board shall randomly select 20% but not more than 10 ballots representing unique precincts from the Testing Board's test ballots.
- (2) In the event a selected precinct contains a combination of DRE and Optical Scan voting devices, the Testing Board shall decide on the percentage of ballots to be counted on each type of device used for that precinct.
- (3) The precinct specific county test ballots will be added to the testing board test ballots to be counted on the specific precinct device. The testing board shall manually verify the ballots to be counted prior to any machine count.
- (4) The Testing Board shall verify the manual count to the voting device count.

(c) Vote Center Count Ballots – Optical Scan:

- (1) All testing board test ballots shall be counted on at least one, but not more than 5 voting devices designated for Vote Center Counting and have the predetermined total verified to the machine total.
- (2) All test ballots shall be counted individually with reports generated to verify the machine count to the predetermined tally of the test ballots.

- (3) The testing board shall randomly select the machines to be tested.
 - (d) Vote Center Count Ballots – DREs:
 - (1) All testing board test ballots shall be counted on at least one, but not more than 5 DREs designated for Vote Center Counting and have the predetermined total verified to the machine total.
 - (2) All test ballots shall be counted individually with reports generated to verify the machine count to the predetermined tally of the test ballots.
 - (3) The testing board shall randomly select the machines to be tested.
 - (e) Early Voting and Provisional Ballots Counted on Optical Scan Devices:
 - (1) All test ballots shall be counted on at least one, but not more than five, optical scan devices designated for Early Voting or Provisional Ballot Counting and have the predetermined total verified to the machine total.
 - (2) All test ballots shall be counted individually with reports generated to verify the machine count to the predetermined tally of the test ballots.
 - (f) Early Voting and Provisional Ballots Counted on DREs:
 - (1) All test ballots shall be counted on at least one, but not more than five, DREs designated for Early Voting or Provisional Ballot Counting and have the predetermined total verified to the machine total.
 - (2) All Testing Board Member test ballots shall be counted individually with reports generated to verify the machine count to the predetermined tally of the Testing Board test ballots.
- 11.5.3.8.5 DREs equipped with V-VPAT devices shall be manually verified (by hand) to determine that the pre-determined total of the testing board ballots, matches the V-VPAT total, which in turn matches the machine total.
- 11.5.3.8.6 At least two of the testing board ballots shall be identified as Audio Ballots to be tested as such, and included with the count.
- 11.5.3.8.7 All test materials, when not in use, shall be kept in a metal box with individual seals for each member of the Testing Board. The designated election official may affix his or her own seal in addition to those of the Testing Board. The designated election official shall be the custodian of the box or boxes but shall not open and/or use the test materials outside of the presence of the Testing Board.

- 11.5.3.8.8 The Testing Board and the designated election official shall sign a written statement attesting to the qualification of each device that was successfully tested, the number of the seal attached to the voting device at the end of the test, any problems discovered, and provide any other documentation as necessary to provide a full and accurate account of the condition of a given device.
- 11.5.3.8.9 Upon completion of the testing, the Testing Board shall witness the resetting and sealing of each tested voting device.

1-7-509. Electronic and electromechanical vote counting - testing of equipment required. (1) (a) An electronic or electromechanical voting system shall be tested at the conclusion of maintenance and testing. The tests shall be sufficient to determine that the voting system is properly programmed, the election is correctly defined on the voting system, and all of the voting system's input, output, and communication devices are working properly.

(b) The designated election official shall conduct at least three tests on all electronic and electromagnetic voting equipment, including a hardware test, a public logic and accuracy test conducted in accordance with subsection (2) of this section, and a postelection test or audit conducted in accordance with rules promulgated by the secretary of state. Each type of ballot, including mail-in, early voting, provisional, precinct, and audio ballots, shall be tested in accordance with rules promulgated by the secretary of state. The tests shall ensure that the equipment will correctly count the votes cast for all offices and on all ballot questions and ballot issues and that the voting system will accurately count ballots of all types.

(c) The designated election official shall select a testing board comprising at least two persons, one from each major political party, from the list provided by the major political parties pursuant to section 1-6-102.

(2) (a) A public test of voting equipment shall be conducted prior to the commencement of voting in accordance with this section by processing a preaudited group of ballots produced so as to record a predetermined number of valid votes for each candidate and on each ballot question or ballot issue. The test shall ensure that the system accurately records votes when the elector has the option of voting for more than one candidate in a race. The test shall ensure that the voting system properly rejects and does not count overvotes and undervotes.

(b) The public test shall be open to representatives of the political parties, the press, and the public, subject to the rules promulgated by the secretary of state pursuant to subsection (6) of this section. Each major political party, minor political party, ballot issue committee that has an issue on the ballot, and coordinating entity may designate one person, who shall be allowed to witness all public tests and the counting of pretest votes. If an observer or designee hinders or disturbs the test process, the designated election official may remove the person from the test area. An observer or designee who has been removed from a public test may be barred from future tests. The absence of observers or designees shall not delay or stop the public test.

(c) The testing board shall convene and designate at least one member to represent the board during the testing, sign the necessary reports, and report to the board. The programs and ballots used for testing shall be attested to and sealed by the board and retained in the custody of the designated election official. The absence of a member of the testing board shall not delay or stop the test.

(d) Upon completion of the testing conducted pursuant to this section, the testing board or its representative and the representatives of the political parties, ballot issue committees, and coordinating entities who attended the test may witness the resetting of each device that passed the test to a preelection state of readiness and the sealing of each such device in order to secure its state of readiness.

(e) The testing board or its representative shall sign a written statement indicating the devices tested, the results of the testing, the protective counter numbers of each device, if applicable, the number of the seal attached to each device upon completion of the testing, any problems reported to the designated election official as a result of the testing, and whether each device tested is satisfactory or unsatisfactory.

(3) Notice of the fact that the public test will take place shall be posted in the designated public place for posting notices in the county for at least seven days before the public test. The notice shall indicate the general time frame during which the test may take place and the manner in which members of the public may obtain specific information about the time and place of the test. Nothing in this subsection (3) shall preclude the use of additional methods of providing information about the public test to members of the public.

(4) (a) If any tested device is found to have an error in tabulation, it shall be deemed unsatisfactory. For each device deemed unsatisfactory, the testing board shall attempt to determine the cause of the error, attempt to identify and test other devices that could reasonably be expected to have the same error, and test a number of additional devices sufficient to determine that all other devices are satisfactory. The

cause of any error detected shall be corrected, and an errorless count shall be made before the voting equipment is approved. The test shall be repeated and errorless results achieved before official ballots are counted.

(b) If an error is detected in the operation or output of an electronic voting device, including an error in spelling or in the order of candidates on a ballot, the problem shall be reported to the testing board and the designated election official. The designated election official shall correct the error.

(c) A voting device deemed unsatisfactory shall be recoded, repaired, or replaced and shall be made available for retesting unless a sufficient number of tested backup devices is available to replace the unsatisfactory device. The backup device may not be used in the election unless the testing board or its representative determines that the device is satisfactory. The designated election official shall announce at the conclusion of the first testing the date, place, and time that an unsatisfactory device will be retested, or, at the option of the testing board, the designated election official shall notify by telephone each person who was present at the first testing of the date, place, and time of the retesting.

(5) The designated election official shall keep records of all previous testing of electronic and electromechanical tabulation devices used in any election. Such records shall be available for inspection and reference during public testing by any person in attendance. The need of the testing board for access to such records during the testing shall take precedence over the need of other attendees for access so that the work of the testing board will not be hindered. Records of testing shall include, for each device, the name of the person who tested the device and the date, place, time, and results of each test. Records of testing shall be retained as part of the official records of the election in which the device is used.

(6) The secretary of state shall promulgate rules in accordance with article 4 of title 24, C.R.S., prescribing the manner of performing the logic and accuracy testing required by this section.

Boulder County Clerk & Recorder Elections Division

AGENDA LOGIC AND ACCURACY TEST (LAT) October 11th, 2010

1. Welcome Message
 - a. Name tags and affiliations
 - b. Housekeeping
 - c. Review Observer Guidelines
 - d. Review LAT Procedures Summary and Highlights
2. Sign in and storage of personal items (east wing office area)
3. Ballot packet (board members and participants)
 - a. One (1) packet of 25 ballots of unique precincts per board member
 - b. One (1) packet of 10 ballots of unique precincts per jurisdiction participating
4. Ballot processing
 - a. Voting of paper ballots (board member)
 - b. Manual Verification Worksheet (MVW) (2 person process)
5. *Electronic ballots (2 person process)
 - a. Zero Report observed
 - b. Paper ballots are used as guide for voting electronically
 - i. Vote two (2) ballots using audio equipment

NOTE: If the paper ballot shows as over-voted contest, test the over-vote, and then make the contest an under-vote by not selecting any candidate

 - c. Verifiable Ballot Option (VBO) compared against ballot
6. *Scan
 - a. Zero Report observed
 - b. Review of ballots prior to scanning process
 - i. Voter corrects ballot or MVW
 - ii. Any damaged or improperly marked ballot is reviewed and/or rejected during scanning
 - c. Resolution
 - d. Write Cast Vote Records (CVRs)
7. Tabulation of votes
 - a. Zero Report observed
 - b. Individual results report created
8. Audit and resolution of MVW and tabulation results report
 - a. Paper ballots
 - b. Electronic ballots
9. Resetting and resealing of election equipment
10. Closing of LAT process (optional attendance)
 - a. Cumulative results of LAT
 - b. Securing all documentation
11. Certification of LAT
 - a. Sign off of Statement of Qualification documentation
12. Ballot storage

*Processes may be done simultaneously

Boulder County Clerk & Recorder Elections Division

SUMMARY OF Logic and Accuracy Test (LAT) Procedures

1. Sign in and obtain a name tag (provide affiliation)
2. Complete paperwork
3. Store all personal belongings:
 - a. The following items are prohibited in the testing area:
PERSONAL BELONGINGS, CELL PHONES, CAMERAS, RECORDING DEVICES, MEMORY DEVICES, LAPTOPS, PDAS, FOOD OR BEVERAGE IS PROHIBITED IN TESTING AREA
4. Security log check in/out participants – required when leaving testing area
5. Observer guidelines
6. Information packet contains the following:
 - a. LAT Rule and Law
 - b. Agenda
 - c. Summary of LAT procedure (this document)
 - d. Voter instruction sheet
7. Common acronyms:
 - a. DRE: Direct Record Electronic
 - b. DAU: Disabled Access Unit (interchanged with DRE and eSlate)
 - c. eSlate: Product name (Hart InterCivic) for the DRE
 - d. JBC: Judges Booth Controller
 - e. MBB: Mobile Ballot Box
 - f. CVR: Cast Vote Record
 - g. MVW: Manual Verification Worksheet
 - h. V-PAT: Verifiable Paper Audit Trail
8. Purpose of LAT
 - a. The purpose of the LAT is to test the compatibility of the election ballots through the scanning and tabulation equipment to confirm that every voting position on the ballot is accurately counted where a properly marked selection is made. It also includes testing the electronic voting machines (DRE/DAU/eSlate) and the verifiable paper audit trail (V-PAT) for accuracy.
 - b. The Logic and Accuracy Test (LAT) is the second of three tests that are required during an election. The first is the Hardware Diagnostic Test, which verifies that all of the voting system's input, output and communication devices contain the proper firmware/ software releases and are in working order (CRS 1-7-509). The LAT follows hardware verification and ensures that the equipment will correctly count votes. After the election, a post-election audit will compare a manual tally of select ballots against election results in order to provide a statistical assessment that the election results are correct (SOS Rule 11.5.4).
9. Board member responsibilities include:
 - a. As member of the test board you will be participating and/or witnessing the LAT from beginning to end
 - b. The following is a summary of activities you will be a part of:
 - c. Important times:
 - i. 10 a.m.- 4:30 p.m., Monday, October 11
 - ii. 9 a.m., Tuesday, October 12
 - iii. 3 p.m., Wednesday, October 13 (LAT review, sign off and statement of qualification if not complete Tuesday)
 - d. No process shall be delayed due to the absence of a participant
10. Voting and Individual Tally explanation

Boulder County Clerk & Recorder Elections Division

- a. Voting - mark ballots per voter instructions (fill in box completely, no X or v)
 - i. Follow voter instructions for correcting a choice when there is intent to vote an option
 - ii. If a mistake (wrong choice, stray mark, hesitant mark) is made in a contest that you did not intend to vote or you are unable to correct your voting choice, make a written note in the contest area confirming mistake and request a replacement ballot from staff
 - iii. Ballots that are damaged or improperly marked are reviewed and/or rejected in the scanning portion of testing. Catching and correcting a mistake immediately prevents delays in testing later
 - b. The manual verification worksheet (MVW) is used to record member ballot tallies, provides the ability to record a summary of contest options voted and is used during the Results Audit portion of testing
 - i. Undervotes account for a contest for which there is no intent to vote (No choice selection). Every ballot contest you are not voting MUST have an undervote associated with it
 - ii. Overvotes account for a contest in which a choice has been made for more than one candidate in a vote for one contest
11. The buddy system:
- a. After each member has voted his/her set of ballots, he or she will team up with another participant and will complete the MVW and electronic voting portion in teams of two
 - i. Participant will not be associated with the scanning or tabulation process
 - ii. Participant must be affiliated with a separate party (bi-partisan teams)
12. Electronic voting (may be completed simultaneously with ballot scanning)
- a. Disabled Access Unit (DAU/eSlate) is an electronic voting machine that provides voting accessibility to voters who may be otherwise unable to mark a paper ballot privately and independently
 - i. DAU includes an audio ballot reader with headphones, and can accept adaptive devices for voters with mobility impairments
 - b. Today we will test the DAUs for accuracy, with at least two audio ballots voted to ensure proper recording
 - c. Members will witness the public counter is set to zero and a “zero” report will be produced prior to voting
13. Ballot scanning(may be completed simultaneously with electronic voting)
- a. The scan station is designed to capture an image of a voter’s paper ballot, process the image of that ballot using the Ballot Now Software, and capture the voter’s choices
 - i. These are called Cast Vote Records (CVRs)
 - b. Today we are testing these systems to ensure the choices are being accurately captured and recorded
 - i. We want to make sure that a choice for Candidate A is being recorded as a vote for Candidate A, and not Candidate B and that there is compatibility between the ballots (proper printing and alignment), and the equipment
 - c. Members will witness the public counter is set to zero and a “zero” report will be produced prior to scanning
 - d. The scanning station also provides for the resolution of voter intent as prescribed by the Colorado Secretary of State
 - i. Ballots that have been over voted or properly corrected will be flagged and resolved per state guidelines
 - ii. Notations of any corrections are made on the MVW for use in result auditing and discrepancy resolution

Boulder County Clerk & Recorder Elections Division

- e. Prior to scanning, there will be a review of the ballots by staff to look for damaged or improperly marked ballots that would require manual review or duplication during the election cycle
 - i. Damaged Ballots: A damaged ballot is one that has been torn, bent, or otherwise mutilated or rendered unreadable, so that it cannot be processed by the optical scanner. (27.1.3)
 - 1. Damaged ballots shall include all ballots that contain a foreign substance that could potentially interfere with the optical scan machine (i.e. food, drink, etc.). (27.1.3(a))
 - 2. Damaged ballots may include ballots that are marked in a medium other than the medium indicated in the ballot instructions. (27.1.3(b))
 - ii. Improper markings: Obvious stray marks, hesitant marks, incomplete marks or parts of written notes that are within the target area of a contest option where no other choice has been made
- 14. Tabulation
 - a. The Tally station is designed to take voter choices (CVRs) from all the systems and tabulate the individual CVRs into a combined results report
 - b. Today we will confirm that it is accurately tabulating those results
- 15. Results audit
 - a. To complete the testing of election equipment the results report from Tally shall be compared to the manual verification worksheets
 - b. Any discrepancies found will be documented and researched
 - c. This will confirm that there are no issues with the election equipment and that they are qualified for election usage
- 16. Discrepancy resolution (in order of escalation)
 - a. Review for entry and recording errors
 - i. Review MVW for too few or too many votes captured
 - ii. Review ballots with MVW for incorrect recording and recount if needed
 - iii. Review Ballot Now for resolution differences (if applicable)
 - iv. Review V-Pat comparison and recount if needed (if applicable)
 - b. If error is identified as a hardware or software error on single device
 - i. Validate other tested equipment was not impacted
 - ii. Mark device unsatisfactory, replace and test alternative/new device
 - c. If error is identified on more than one device and devices are failing in similar fashion
 - i. Test multiple devices that could reasonably have same error
 - ii. Mark devices unsatisfactory, replace and test alternative/new devices
 - iii. If enough resources are not available for replacement, error shall be corrected and retesting will be completed
 - d. If error is identified as a software or ballot programming error
 - i. Alert DEO for correction
 - ii. Correct software or ballot programming error and restart testing from beginning
- 17. Cumulative results of testing
 - a. When all individual results have been audited the county shall provide a cumulative result report of testing
 - b. This will include a cumulative manual verification worksheet, and a cumulative tabulation result report
 - c. The reports will be verified for accuracy and provided to the representatives of the board for review
- 18. Resetting and resealing of equipment

Boulder County Clerk & Recorder Elections Division

- a. At the end of the LAT the test board members will witness the resetting of all equipment used in the LAT back to its original state of readiness for the election and the resealing of equipment where applicable
19. Sign off and Statement of Qualification
 - a. At the end of testing the representatives of the board will review all test result document, ensure all appropriate sign offs have occurred, and sign the Statement of Qualification officiating the successful completion of the Logic and Accuracy Test
20. All testing material will then be sealed and secured at the end of the LAT process

Voter Instructions

Boulder County General Election – November 2, 2010

How do I mark my ballot?

- Only use a **black or blue ballpoint pen** to mark your ballot. Do not use highlighter, marker, pencil or crayon.
- Completely fill in the box provided to the left of your choice on the ballot.
- It is important to follow all of the marking instructions below.

CORRECT MARK:

(Vote for one)

CHOICE A

CHOICE B

INCORRECT MARK:

(Vote for one)

CHOICE A

CHOICE B

INCORRECT MARK:

(Vote for one)

CHOICE A

CHOICE B

TO CHANGE OR CORRECT A SELECTION:

(Vote for one)

CHOICE A

~~CHOICE B~~ (Draw a line through the choice you do not want.)

How do I return my ballot?

- ___ Place only your voted ballot in the secrecy sleeve. Do not return the voter instructions (this page).
- ___ Place the secrecy sleeve (with voted ballot) in the official return envelope.
- ___ Verify your name is printed on the official return envelope.
- ___ Sign and date the "AFFIDAVIT OF VOTER" located on the backside, under the flap of the official return envelope. Review the example below. Sign your name as you would normally provide your signature. All signatures are verified.
- ___ Seal the envelope.
- ___ Affix adequate postage if you are mailing your ballot: **\$0.61**.

By law, your signature is required on the AFFIDAVIT OF VOTER (located on the backside of the official return envelope). If you do not sign the affidavit; your ballot will not be counted. →

It is illegal to vote another person's ballot and/or sign another person's ballot envelope. All signatures are verified.

Only one voter's ballot is permitted in your official return envelope. If more than one ballot is placed in your official return envelope, none of the ballots will be counted.

AFFIDAVIT OF VOTER

I state under penalty of perjury that I am an eligible elector; that my signature and name are as shown on this envelope; that I have not and will not cast any vote in this election except by the enclosed ballot, and that my ballot is enclosed in accord with the provisions of the "Uniform Election Code of 1992."

X George Washington
Voter's Signature -- (Signature Required)

TODAY'S DATE 10/20/1776

* Witness _____

* In case of applicant's disability or inability to sign personally, his/her mark shall be witnessed by another person.

\$0.61

- You may return your voted ballot by mail (affix adequate postage) or you can deliver your ballot to a designated drop-off location.
- Review designated drop-off locations on the reverse of this page.

When is my ballot due in the Clerk & Recorder's Office?

Ballots must be **received** by the Boulder County Clerk & Recorder or designated drop-off location by 7 p.m. on Election Day in order for your vote(s) to be counted. Ballots received after 7 p.m. on Election Day will not be counted. **Postmarks do not count as a received date.**

How do I know you received my ballot?

Check your voter information at www.VoteBoulder.org or call **303-413-7740** to verify your ballot was received.

What should I do if I make a mistake, damage or lose my ballot?

You may request a replacement ballot by emailing Vote@VoteBoulder.org or by calling **303-413-7740**.

Boulder County Clerk & Recorder Elections Division

Participant Logic and Accuracy Reference Sheet

The Logic and Accuracy Test follows hardware verification and ensures that the equipment will correctly count votes. The LAT includes testing the compatibility of the election ballots through the scanning and tabulation equipment and confirms that every voting position on the ballot is accurately counted for all properly voted positions. It also includes testing the electronic voting machines (DRE/DAU/eSlate) and the verifiable paper audit trail (V-PAT) for accuracy.

Common acronyms:

- DRE: Direct Record Electronic
- DAU: Disabled Access Unit (interchanged with DRE and eSlate)
- eSlate: Product name (Hart InterCivic) for the DRE
- JBC: Judges Booth Controller
- MBB: Mobile Ballot Box
- CVR: Cast Vote Record
- MVW: Manual Verification Worksheet
- V-PAT: Verifiable Paper Audit Trail

Voting your ballot:

1. Mark ballots as indicated on the voter instructions (fill in box completely with black or blue ink pen; no X or √, etc.)
2. Follow voter instructions for correcting a choice when there is intent to vote an option
3. If a mistake (wrong choice, stray mark, hesitant mark) is made in a contest that you did not intend to vote or you are unable to correct your voting choice, make a written note in the contest area confirming mistake and request a replacement ballot from staff
 - a. Ballots that are damaged or improperly marked are reviewed and/or rejected in the scanning portion of testing. Catching and correcting a mistake immediately prevents delays in testing later
4. Note on Overvotes: Keep in mind that member ballots will be used for the electronic portion of voting which does not allow for overvotes. Overvotes will be recorded as undervotes on the DAU and individual tallies will require adjustment.
5. Write-In Candidates: Target area must be marked and the last name must be included. For the Governor race, a Lieutenant Governor must be included. A list of write-in candidates are available from staff.

Manual verification worksheets (MVW): (2 person process)

1. Member 1: Count out the first 10 ballots, labeling the ballot number in the top right hand corner of the ballot (i.e. #1, #2, #3) as you count
2. Starting with ballot #1, Member 1; read aloud the ballot number recorded in the top right corner
3. Member 1: Read aloud the contest name and contest option selection made, indicating any voting marks that are outside the prescribed voting method

Boulder County Clerk & Recorder Elections Division

4. Member 2: Print member 2 name on the MVW and record the selections on the worksheet by making a slash mark for the appropriate contest option read, making note of any abnormal markings indicated
 - a. NOTE: IF A CONTEST HAS NOT BEEN VOTED, A SLASH MUST BE RECORDED IN THE UNDERVOTE CATEGORY FOR THAT BALLOT
5. When 10 ballots have been voted, member 2 confirm you have accounted for 10 choices
6. Count the next 10 ballots, labeling the ballot number in the top right hand corner of the ballot (i.e. #11, #12, #13) and repeat
7. When all ballots have been recorded, trade roles and repeat the process with a new MVW

DAU Voting

1. Zero Report generated
2. Record DAU unit number on the MVW and Mobile Ballot Box(MBB)
3. Work with partner to vote each members test ballots
4. Cast Vote Records (CVRs) recorded to MBB for each set of test ballots
5. Verify VPAT with MVW
6. MBB removed for tabulation

Scanning

1. Zero Report generated
2. Ballots reviewed per Manual Review process
3. Each member's test ballots are scanned & processed
4. Resolution of voter intent
5. CVRs recorded to MBB for each set of test ballots
6. MBB removed for tabulation

County Test Ballots

1. Voted per requirements of LAT
2. Manual verification worksheet created
3. All test ballots scanned
4. Resolution of voter intent
5. CVRs recorded to MBB
6. MBB removed for tabulation

Tabulation

1. New database created
2. Zero Report generated
3. Member MBB tabulated
4. Results report generated
5. Database Finalized

Cumulative Manual Verification and Tabulation

1. New database created
2. Zero Report generated
3. LAT MBBs cumulatively tabulated

Boulder County Clerk & Recorder Elections Division

4. Results report generated
5. Database Finalized
6. Cumulative electronic MVW completed
7. Audit of cumulative results and summary

Resetting and Resealing of equipment

1. Equipment is reset and resealed (where applicable) back to original state of readiness

Certification

1. Review tally comparison and confirm all sign off's have been completed
2. Observe the closing and resetting of equipment for the official election process
3. Document any issues with equipment
4. Sign all certification paperwork

REQUIREMENTS OF LAT

Preparation:

- 25 test ballots were provided to Test Board representatives
- All ballots were marked "TEST"
- Voting choices were made secretly and members retained the tally (Manual Verification Worksheet)
- Each voting device utilized in a given election and each method of counting is represented in testing
- Members selected each device for testing

DRE/DAU testing:

- JBC Open Polls diagnostic report was viewed by Members
- JBC zero report was viewed by Members
- Members witnessed the public counter set to zero
- Members tested two audio ballots
- Members were provided the V-PAT
- JBC Summary Report from suspending polls was viewed by Members

Scanner testing:

Test Board Members witnessed the following:

- The Scanner zero report
- The public counter set to zero
- The processing of test ballots on the Ballot Now station

Tabulation:

Test Board Members witnessed the following:

- Tabulation zero report on the Tally station
- Tabulation of CVRs from DAU and scanner testing
- Members were provided with individual results reports from Tally

Comparison:

- Members manually compared the machine results (from the Tally station) to their individual tally (Manual Verification Worksheet)
- Members verified that machine results matched individual tallies

Boulder County Clerk & Recorder Elections Division

- Members manually verified that the V-PAT to ensure it matched ballot choice and member tally (Manual Verification Worksheet)

County test ballots:

- Every precinct and ballot style has been prepared for testing
- A mark has been made for every voting position on all ballots, which includes every contest and every candidate on the ballot. Overvotes and undervotes were also included.

Storage of test material:

- Test material were contained in the testing area and secured in a locked metal cage when not in use
- Member ballots were also secured and sealed individually
- Members witnessed the sealing and unsealing of their test ballots to confirm their test materials were not opened or used outside the presence of the Testing Board

Resetting and resealing of equipment:

- Members witnessed the resetting and sealing of each tested voting device after the completion of testing

Boulder County Clerk & Recorder Elections Division

Statement of Qualification of Election Devices

I attest that, to the best of my knowledge, each election device used in the Logic and Accuracy Test (LAT) passed the requirements of the LAT and accurately tabulated all properly marked LAT ballots.

It is the determination of the Logic and Accuracy Testing Board that all devices tested are qualified to be used in the 2010 General Election on November 2, 2010.

on file at BCCR
Catherine Lo, Democratic Party
Representative, LAT Testing Board

on file at BCCR
Kenneth Ronald Laughery, Republican Party
Representative, LAT Testing Board

NOTICE OF PUBLIC LOGIC AND ACCURACY TEST

2010 GENERAL ELECTION

SEPTEMBER 30, 2010

The Boulder County Elections Division is providing notice that it will conduct a public logic and accuracy test of its voting systems and general election ballots. Testing will take place from Oct. 11-12 or until testing is complete.

Times/Dates: 10 a.m.-4:30 p.m., Oct. 11

9 a.m.-4:30 p.m., Oct. 12

Where: Clerk & Recorder's Office, Ballot Processing Center: 1750 33rd St., Boulder

Each type of ballot, including mail-in, early voting, provisional, precinct, and audio ballots, shall be tested in accordance with rules promulgated by the secretary of state. The tests shall ensure that the equipment will correctly count the votes cast for all offices and on all ballot questions and ballot issues and that the voting system will accurately count ballots of all types.

The public tests shall be open to representatives of the political parties, the press, and the public, subject to the rules promulgated by the Colorado Secretary of State. Each major political party, minor political party, ballot issue committee that has an issue on the ballot, and coordinating entity may designate one person, who shall be allowed to witness all public tests and the counting of pretest votes.

Email Vote@VoteBoulder.org or call 303-413-7740 for complete details.

The logic and accuracy test will be conducted pursuant to Colorado Revised Statute 1-7-509.

This notice is hereby given on September 30, 2010 by authorization of the Boulder County Clerk & Recorder.

Hillary Hall
Boulder County Clerk & Recorder
