RFP # 6861-18

NON-HAZARDOUS LIQUID DISPOSAL

BACKGROUND

The Boulder County Hazardous Material Management Waste (HMM) Program was developed in 1991 to facilitate and encourage the proper disposal of household chemical wastes. It provides a safe, convenient place where citizens can dispose of used or unwanted products. These products are then reused, recycled, or disposed of in an environmentally sound manner.

The County operates the Hazardous Materials Management Facility (HMMF) at 1901 63rd Street, Boulder. The facility accepts most household hazardous wastes (HHW) from residents and CESQG businesses, including motor oil, antifreeze, and other automotive products, garden, hobby and pet products. Wastes currently not accepted include: any waste not originating from a household, radioactive materials, smoke detectors, explosive or shock sensitive material, infectious wastes, and fire extinguishers. The program also provides special one-day HHW collection events for several communities.

In 2017, the HMM program served 18,648 households at the collection facility and 1,039 households at four collection events. Each year we host a collection event in the spring for the Town of Superior and the City and County of Broomfield as well as a fall event for the City of Longmont and the City and County of Broomfield.

For several years, the program's non-hazardous liquid wastes have been collected and disposed of by Waste Management/CSI. This contractor supplies, as needed, watertight 20 cubic-yard roll-off containers to the HMMF and special events. Cubic-yard boxes or fifty-five-gallon drums can also be used to collect and transport non-hazardous liquid wastes.

At the County's request the contractor transports full roll-off containers, cubic yard boxes or drums, to an approved landfill in Colorado for solidification and permanent disposal. The landfill shall be permitted to accept non-hazardous liquid wastes. At the landfill, the non-hazardous liquid wastes are stabilized by being mixed with cement kiln dust for solidification or a similar alternative and placed in the landfill. The County's hazardous waste contractor collects all hazardous wastes collected by the HMM program.

SPECIFICATIONS

On an as-needed basis, the contractor will provide low profile watertight 20 cubic-yard roll-off containers, or at the request of the county, cubic-yard boxes, 55-gallon drums or other approved containers for the storage of non-hazardous liquid wastes collected at the HMMF located at 1901 63rd Street, Boulder. **For regular service, all empty containers will be delivered to the HMMF within forty-eight (48) hours of a request by County staff, including weekend requests received Friday through Sunday. All containers supplied will be in good working condition and clean, free from graffiti and painted a uniform color. Any leaking containers should be replaced with a good working condition container within 24-hours.** The size of roll-off boxes delivered to the Boulder County hazardous materials waste facility will not exceed 20 cubic-yards. Staff anticipates the majority of the waste will be shipped out in 20-cubic yard roll-off boxes.

Collections will take place on an as-needed basis with the contractor providing pickup services no later than two days after contact from County staff. Boulder County is currently filling one roll-off per month and occasionally twice a month in the summer months. The contractor will provide delivery, and pickup service for as many as three, 20 cubic-yard, watertight roll-off boxes for any special collection event(s) organized by the County. Transportation charges should be calculated on a round trip basis as opposed to each way. Unused roll-off boxes, taken from events, will not have additional charges assigned beyond the round-trip transportation fee.

All waste collected will be shipped to approved facilities, designated by the contractor as part of this bid process, for disposal. Should the contractor wish to add a new facility after the contract has been signed by the County, the addition of the new facility will need to be approved by the County in writing before any waste is shipped to the new facility.

Documentation will be provided to prove that all facilities to be used are in compliance with all applicable state and federal regulations. The County will have the right to audit any and all of the contractor's facilities, on written request, and at a time convenient to the contractor.

The contractor, or its subcontractor, shall transport all wastes according to all applicable Department of Transportation regulations and requirements.

The contractor will be responsible for all waste manifests, bill of lading, weight tickets and any other documentation required. The contractor shall provide the County with a copy of the waste manifest(s) at time of collection and will ensure that copies are also sent to the County by subsequent handlers of the waste (transporter, facility(s) receiving the waste, etc.).

Boulder County currently has an agreement with PaintCare for the recovery of architectural paint. The contractor must also have an agreement with PaintCare as a Hauler and service provider. The contractor will invoice PaintCare for transportation and end-of-life processing of latex paint.

The generator upon request can complete a generator non- hazardous waste profile.

Definitions:

"Drop-Off Sites" mean all permanent collection facilities and Temporary Collection Events that are owned, leased, subleased, or otherwise controlled by the service provider.

"Hauler" men independent contractor hired by PaintCare to transport Program Products from the Drop-Off Sites.
