TRAVEL SAFETY TIPS

- Car(pool): Wear seat belts, in front & back seats.
- Car(pool): NO driver texts, limit distractions.
- Bus/Van: Stand back to wait.
- Bus/Van: Sit quickly, talk quietly, follow rules.
- Bus/Van: Only cross in front, never behind.
- Bike/Skate/Scout: Wear a helmet that fits.
- Bike/Skate/Scout with traffic, not facing it.
- Bike/Skate/Scout: pass on the left & announce to/ alert others before you pass them.
- Bike/Skate/Scout using proper hand signals – be predictable to others.
- Walk against traffic, if there is no sidewalk.
- Walk with traffic, if there is a sidewalk.
- Always look LEFT, RIGHT, BACK, LEFT before crossing streets and cross at intersections, not mid-block and not in-between parked cars.

- Based on depth perception brain development, age 10+ is when it's generally safe to let youth walk/bike/skate/scoot alone, especially if they have practiced with adults first. Families decide when more independent travel for youth starts.

TRIP TRACKER (TT) PARTICIPATION BENEFITS

- Fewer cars pulling up to school property can lead to:
- Increased safety for pedestrians & drivers
- Increased physical activity
- Stress relief from extra physical activity
- Less time in car traffic lines
- Less car emissions/greenhouse gases
- Can earn Tracker Bucks!

WHY WAS THIS MAP MADE

The Trip Tracker Program goal is to reduce the number of cars driving students & staff all the way to/from school by encouraging & rewarding other travel methods, when possible. As a participating Trip Tracker School, we cannot encourage others to take alternative (green) travel methods to/from school if it is not clear how & where you can do that. This map allows for different modes of travel to be identified.
