

Reason for Project:

- Improve intersection safety
- Improve intersection operations and reduce congestion
- Increase access and mobility for all users

Proposed Improvements:

- Widening of Isabelle Road from 109th Street (Town of Erie) to 800-feet west of US-287
- New widened intersection with new traffic signals
- Lengthened turn lanes on Isabelle Road and a dual left for westbound Isabelle Road
- ADA-compliant pedestrian crossings at all four legs of intersection
- Additional street lighting to improve visibility
- Advanced warning beacons along US-287
- Realignment of Isabelle Road at 109th Street to improve sight-distance
- Buffered bike lanes across intersection for bicycle safety
- New wetlands northeast of the intersection to mitigate project impacts and improve habitat

Project Funding:

- FHWA Highway Safety Intersection Program: \$2.6 Million
- CDOT: \$290,000
- Town of Erie: \$300,000
- Boulder County Countywide Transportation Sales Tax (Remaining Costs): \$750,000
