PROPOSAL INSTRUCTIONS

1. Purpose/Background

Award for this RFP is contingent on Boulder County receiving a grant award from FEMA's Pre-Disaster Mitigation (PDM) grant program for its application "Boulder County Fire Adapted Communities."

Launched in 2014, Wildfire Partners is a nationally recognized, collaborative program to reduce wildfire risk. Homeowners, with the assistance from Wildfire Partners, work to better protect their homes by actively creating and maintaining defensible space and reducing the ignition potential of their structures. The program has been funded in the past by participating homeowners, Boulder County, a \$1.5 million grant from the Colorado State Forest Service, and a \$1.1 million grant from FEMA. In 2019, Boulder County hopes to receive a \$1.2 million PDM grant from FEMA. Boulder County is issuing this Request for Proposals to help implement Wildfire Partners.

Homeowners apply to join the program. Applications that meet all program criteria are accepted into the program if funding is available. Over 1,800 homeowners are currently in the program. Wildfire Partners offers motivated homeowners many benefits:

- A comprehensive, on-site, wildfire home assessment with a Wildfire Mitigation Specialist
- A Wildfire Partners Assessment Report that identifies the weak links in a home's defenses and specific mitigation measures to be undertaken.
- Wildfire Partners Financial Awards to subsidize the cost of hiring a Wildfire Partners Forestry Contractor
- Free access to Wildfire Partners Phone Advisors
- Follow up visits and inspections with a Wildfire Mitigation Specialist
- For homeowners who pass their inspections, a Wildfire Partners Certificate, yard sign and letter stating that they have performed mitigation

Homeowners are required to actively participate in their home assessments so that they learn the principles and science of wildfire mitigation. Homeowners provide essential input to the Wildfire Mitigation Specialists as they mark vegetation for removal as part of the program. The specialists use an iPad assessment app to gather information, take photographs and evaluate 50 mitigation related questions grouped into 10 different categories (i.e., roofs, decks, zone 1, emergency preparedness). Following the assessment, the homeowner receives a customized report containing a Mitigation Checklist with their photos of items requiring mitigation. Homeowners obtain and select bids from the Wildfire Partners Forestry Contractors (partially funded by a financial award) and the Wildfire Partners Handyman/Handywoman and Home Retrofit Contractors (not supported by a financial award) to complete the work identified on their Mitigation Checklist. Wildfire Phone Advisors, along with the Mitigation Specialists, help homeowners navigate their individual steps in the process. To learn more about Wildfire Partners, visit www.WildfirePartners.org.

From 2015 to 2018, Wildfire Partners Forestry Contractors completed 539 defensible space jobs totaling \$1.37 million with Wildfire Partners Financial Awards equaling \$745,000 and the difference paid by homeowners. In 2014, Wildfire Partners provided refunds directly to participants instead of paying for a portion of their Wildfire Partners Forestry Contractor expenses. As a result, 2014 defensible space work is not included in the above totals. In addition, some residents hire Wildfire Partners Forestry contractors to complete work that is not associated with a Wildfire Partners Financial Award, this work is also not included in these totals.

Specifications and a sample contract with a FEMA specific addendum are attached. The successful proposer shall execute the attached addendum as part of any contract with the county, and comply with all FEMA requirements set forth in that addendum.

SPECIFICATIONS

SCOPE OF WORK FOR FORESTRY CONTRACTORS

Training: All Wildfire Partners Forestry Contractors are required to participate in an annual training.

Contractors will work with two different categories of homeowners under this contract: 1) homeowners who are receiving financial assistance (a Wildfire Partners Financial Award) and 2) homeowners who are NOT receiving a financial award to help fund their defensible space work (these homeowners will be paying their entire defensible space costs). The first task for contractors is to determine each homeowner's category.

Steps for Homeowners Receiving a Wildfire Partners Financial Award

- 1. Site Visits and Providing Bids for Removal of Vegetation:** Contractors shall perform site visits with homeowners and provide them written bids. Contractor may NOT perform a site visit and provide a bid until after a homeowner has completed their home assessment and received their assessment report. All vegetation designated for removal will be clearly identified by a Wildfire Mitigation Specialist prior to the contractors visiting home sites. Contractors are not responsible for any identification or marking, and they shall not alter any vegetation identified or marked for removal. Contractors shall provide bids for the cost to remove and properly dispose of ALL identified vegetation—the entire defensible space job. They are NOT permitted to bid on select parts of the job. Contractors are encouraged to review a homeowner's assessment report during site visits before providing a bid.
- 2. Wildfire Partners Financial Award:** Contractors shall not conduct any work until they receive a homeowner's financial award via email from Boulder County. The financial award email will document the amount of funding Boulder County will provide directly to the contractor and the financial responsibility of the homeowner.

3. **Schedule and Complete Contract Work According to Wildfire Partner Specifications:** Contractors shall schedule and complete the defensible space work documented in their bids **after** receiving the award email. Homeowners will oversee contractors and approve work. Wildfire Partners specifications will be described during the mandatory annual training and documented in all continuing service contracts.
4. **Complete Forms (Invoicing):** Contractors shall submit invoices, not more than monthly, to Boulder County with the required information.
5. **Inspection:** Contractors will be required to return and complete, at no additional cost, any defensible space work that fails inspection.

Steps for Homeowners NOT Receiving Financial Awards

1. **Site Visits and Providing Bids for Removal of Vegetation:** Contractors shall perform site visits with homeowners and provide them written bids. Contractor may NOT perform a site visit and provide a bid until after homeowners have completed their site visits and their tree marking has been completed. All vegetation designated for removal will be clearly identified by a Wildfire Mitigation Specialist prior to the contractors visiting home sites. Contractors are not responsible for any identification or marking, and they shall not alter any vegetation identified or marked for removal.
2. **Schedule and Complete Contract Work According to Wildfire Partner Specifications:** Contractors shall be responsible for scheduling all work directly with the homeowners. Homeowners will oversee contracts and approve work.
3. **Payment and Paperwork:** Homeowners will pay contractors directly for the entire job.

MARKETING

Wildfire Partners will provide homeowners with its 2019 Forestry Contractors List when they are accepted into the program. Visit www.WildfirePartners.org (under "Our Team") to view our 2018 list. Contractors are encouraged to have a website to assist with marketing efforts. Homeowners may contact contractors directly to inquire about a contractor's services, experience and costs.

PAYING FOR AND SCHEDULING BIDS

Homeowners contact contractors directly to schedule a time to obtain a bid for a Wildfire Partners contract. Contractors shall return all calls and email inquiries within three business days. If they are too busy to respond within this deadline, they are required to update their phone and email messages to let participants know to expect a delayed response. Wildfire Partners pays contractors \$40 per bid for bids contractors do not win.

TREATMENT METHODS

Every defensible space job will be different (number of removals, the site conditions, the preferred disposal method, etc.). This RFP does not contain specifications for each contract. The following is a general description of treatment methods. All work performed is expected to be hand crew/manual treatments. Trees will be directionally felled, limbed, and bucked with chainsaws. Mechanical harvesters, skidders, and forwarders are limited by FEMA grant conditions. Slash may be hauled off-site or chipped and broadcast on-site according to program guidelines. Contract specifications for stump height, ladder fuels, equipment use, disposal of woody debris, yarding, chipping, environmental safeguards, erosion control, safety, conduct, and other items will be included in each continuing services contract and reviewed during the annual training.

PAYMENT

Contractors will typically issue multiple invoices and receive multiple payments for each defensible space job when there is a Wildfire Partners Financial Award: 1) one invoice and payment from the homeowner, and 2) one monthly invoice and payment from Boulder County (that may include several d-space jobs). Contractors shall submit invoices to Boulder County for projects with a financial award. Contractors are responsible for collecting payments from homeowners directly. Any work conducted on federal land shall be paid for by the homeowner. No work on federal land is allowed to be paid by a Wildfire Partners Financial Award.

QUANTITY OF WORK

This RFP is for a continuing services contract. As a result, select contractors are not guaranteed a minimum amount of work. Homeowners are responsible for obtaining and selecting their own bids. If they are receiving a Wildfire Partners Financial Award, they are free to select any bid they choose as long as it is from a Wildfire Partners Forestry Contractor identified through this RFP process.

In response to this RFP, contractors will be asked to indicate their preferred quantity of work: the number of defensible space contracts (assuming an average of one working field day per defensible space contract) they would like to complete during specific months of the grant.

TIMING OF WORK

Work will begin when contracts are signed and conclude February 28, 2020.
