SPECIFICATIONS

Purpose

To advance [Boulder County's 2020 Transportation Master Plan \(TMP\)](#), Boulder County is issuing this RFP to complete additional research, outreach and planning to create a locally developed Coordinated Human Services Transportation Plan (CHSTP). This CHSTP will be developed through a process that includes representatives of public, private, and non-profit transportation and human services providers and participation by members of the public. This CHSTP will address social equity concerns, funding challenges and opportunities, and an assessment of organizational and partnership capacity to make transportation more accessible to mobility-challenged and vulnerable populations.

Project Overview:

This project will create Boulder County's first Coordinated Human Services Transportation Plan (CHSTP), which will include a 5-year strategic plan in alignment with the Transportation Master Plan and other guiding Boulder County Plans. The CHSTP will provide a unified, comprehensive strategy for delivery of transportation programming that identifies the transportation needs of individuals with disabilities, older adults, youth, and individuals and families with limited incomes.

Background

In accordance with federal requirements for a coordinated public transit human services transportation plan, Denver Regional Council of Governments (DRCOG) prepared the [Transit Element of the 2040 Metro Vision Regional Transportation Plan](#) in 2018. Boulder County's TMP was adopted by the Board of Boulder County Commissioners in February 2020. The TMP provides a blueprint for Boulder County's transportation system for the next 25 years. Boulder County's CHSTP should be consistent with both the DRCOG 2035 Metro Vision Regional Transportation Plan and the Boulder County TMP.

Since 2009, Boulder County has operated grant-funded programs Mobility for All and Youth Transportation to support a full range of multimodal transportation strategies to expand personal mobility, improve job and educational access, and increase transportation options for individuals with disabilities, older adults, youth, and individuals and families with limited incomes. These programs are primarily addressed in Strategy 4 – Increase Accessibility of the Boulder County TMP.

Mobility for All is a mobility management program with the goal of promoting and expanding accessible, affordable, and equitable multimodal transportation options for all community members through transportation assistance, education & outreach, cross-sector collaboration, and inclusive planning practices. Mobility management is a human-centered approach to designing and delivering transportation services that starts and ends with the customer. It begins with a community vision in which the entire transportation network—public transit, private operators, cycling and walking, volunteer drivers, and others—works together with customers, planners, and stakeholders to deliver the transportation options that best meet the community's needs.

Youth Transportation (YT) Program is currently a Safe Routes to School program that has flourished because collaborative partnerships with both St. Vrain Valley School District, Boulder Valley School District, and numerous other local and regional community, statewide, and national partners. In 2020-2021, YT program is interested in transitioning to a broader role of community-based planning and partnership capacity building to align more closely with the updated TMP. The CHSTP will provide the framework for YT to prioritize a work plan centered on engagement, equity, evaluation, education, encouragement, and engineering as key components to implement and/or supports of a wider variety of safe routes initiatives.

Project Objectives:

- Prepare Boulder County's First Coordinated Human Services Transportation Plan, which will strategically align with the TMP and other guiding Boulder County Plans and Denver Regional Council of Government Coordinated Transit Plan and Colorado Department of Transportation Goals
- Create a 5-year strategic plan and alignment with Boulder County TMP Objectives and Increase Accessibility Recommendations
- Prepare planning-level cost estimates for TMP Increase Accessibility Implementation Actions and recommendations derived from public engagement process
- Propose potential funding sources and requirements to access local, regional, state, and federal funding sources
- Conduct an inclusive and robust public and stakeholder engagement process
- Identify coordination strategies that will meet transportation needs of vulnerable and underserved populations in Boulder County to access the pillars of family and individual stability: adequate food and nutrition, education, employment income stability, environmental health, health and well-being, housing stability, and safety.

Project Tasks and Deliverables:

Please note that after the selection of the consultant, the scope of work will be finalized with input from the selected firm. The final scope of work is expected to include the following tasks to be completed by a consultant.

Task 1: Project Management and Coordination

Consultant will be responsible for working with staff to develop and implement a project schedule that includes milestones, deliverables, coordination activities, etc. The consultant should plan to participate in planning and coordination meetings with Boulder County and its partners on a regular basis throughout the project. Invoices should be submitted no more often than once a month, and all final invoices must be submitted by 60 days after project completion.

The deadlines listed throughout this RFP are estimates and can be modified based on consultant proposals, with the exception of draft recommendations for 2022+/5 Year Work Plans in Task 5, which are needed by June 30, 2021.

The Final Coordinated Human Service Transportation Plan is due by August 31, 2021 respectively, to appropriately incorporate the Task 2-5 deliverables into a cohesive strategy document to guide priorities over the next 5 years.

Scope:

- Develop a project schedule including milestones, critical path items, and community meetings.
- Attend project meetings or conference calls an average of twice per month.

Deliverables:

- Final scope of work or work plan
- Project schedule
- Meeting agendas and minutes (key decisions, action items)
- Monthly Invoices
- All project files in native format at project closeout

Task 2: Evaluate Existing Conditions by February 26, 2021

The purpose of this task is to summarize and evaluate the internal capacity based on the external and internal programs and projects working together. This task includes an in-depth funding analysis with the goal of identifying funding gaps and approaches to fill them, to include strategic alignment with local, regional, state and federal funding priorities and opportunities.

Scope:

- Evaluate and summarize existing conditions
- Review relevant local and regional plans to assess and summarize impacts on the mobility-challenged and vulnerable populations. Known plans are listed in Appendix A- Existing Studies, Data, and Plans.
- Review relevant local community plans to assess and summarize the funding implications or opportunities for Mobility for All and Youth Transportation Programs.

- Assess current funding sources to implement TMP Increase Accessibility Implementation Actions.

Deliverables:

- Technical Memorandum which describes the current state of the programs, inventory of internal and external partnerships, identifies associated costs to develop and maintain the programs, and includes relevant conclusions about strategic alignment with other Boulder County Departments.
- Based on these conclusions, identify if additional analysis needed for Task 3.

Task 3: Collect, Develop, and Analyze Data by March 31, 2021

This task serves to build upon data analysis conducted during the recent TMP update and Task 2 processes, by introducing new information and analysis to expand, deepen, and bring more specificity to the Coordinated Human Services Plan. This task may be implemented through a combination of county staff and consultant services, and, therefore, we are asking for itemized costs to help us decide, which items can fit within the budget of the consultant contract. Consultants should provide cost estimates for each line item and propose additional data analysis, if deemed necessary, to meet the objectives of the Coordinated Human Services Plan. When possible, existing data from these studies and plans should be used. Please see Appendix A - Existing Studies, Data, and Plans for recent studies/plans.

Scope:

- Collect, develop, and analyze existing and new data needed to meet the anticipated requirements of the project. Specific analyses that could be needed include:
 1. Demographics and socio-economic data, such as households with school-aged learners, and other data that could aid in the creation of a transportation equity index, (Minority Populations, Income Thresholds: 185%, 100% Federal Poverty Level (FPL), 60% Area Median Income, Family Self-Sufficiency Income Threshold)
 2. Transit propensity index with an overlay of existing transit service, schools (esp. Title I), affordable housing sites, and other anchor destinations (ex. Parks/Recreation, Food, etc.)
 3. Title VI and Limited-English Proficiency Analysis
 4. Stakeholder Survey
 5. Programmatic Asset Mapping
 6. Stakeholder Vehicle Inventory
 7. Funding Source Inventory - Local inventory of federal programs providing transportation services to transportation-disadvantaged populations based on the [Coordinating Council on Access and Mobility Federal Inventory](#)
 8. Analysis of on-demand transportation usage data (RTD Access-a-Ride, RTD FlexRide, Via Mobility Services Paratransit), including Flex Ride analysis of denials due to school travel demands during peak hours
 9. Analysis of RTD Ridership by anchor destinations
 10. Analysis of transportation-related school data, such as travel demands due to school choice and locations of Title I schools, developmental and intellectual disability transition programs data

11. Multi-year analysis of existing Safe Routes to School Parent Survey and Travel Talley Data Sets to identify trends
12. Longitudinal Employer-Household Dynamics Analysis, to include intercounty travel by income and age
13. Assessment of cross-county travel demands to include demands beyond DRCOG planning region, building of off the Travel Characteristics derived from the StreetLight data analysis, i.e., Larimer, Weld
14. Analyze data from the CDOT Statewide Transit Plan to include the results of the Older Adults and Adults with Disabilities survey and the Identified Transit Needs Section for Boulder County and surrounding counties.
15. Identify key program performance metrics, including how performance could be measured, pros/cons of using performance metrics, and implementation actions that are most likely to achieve the desired results.

Deliverables:

- Technical memo, which should include:
 - Summary of data and the results of the analysis
 - Key program performance metrics and how they can be measured
 - Maps, graphics, and other visual aids as necessary to effectively communicate the information.

Task 4: Engage Public and Community Partners by May 31, 2021

The county's desire is to develop and implement a multi-pronged, culturally responsive and inclusive engagement approach so that multilingual county residents and community stakeholders have multiple opportunities and ways to participate in the plan development. The county would like to hold community conversations and public meetings at key milestones during the planning process, when information and draft recommendations are available to present, but still preliminary so that the public feedback collected during these meetings can still influence the content of the plan.

Public engagement efforts should be focused on creating meaningful opportunities for Boulder County's hard-to-reach populations to share their concerns and ideas for building on the TMP Strategy 4: Increase Accessibility Implementation Action list to improve transportation and mobility for youth and families, individuals and families with low incomes, older adults, and individuals and families experiencing disabilities. We are looking for innovative strategies and tools to conduct effective remote/virtual public engagement. To that end, the consultant team should design and implement an effective, innovative process to solicit input in a condensed timeframe, considering the current COVID-19 conditions.

Because transportation is often a barrier to participation, efforts should be made to meet these stakeholders remotely or in places they already live or frequent. For example, the consultant team should work with human services staff from various jurisdictions, senior centers, churches, schools, and other gathering places to explore ways to gather input, such as phone or online surveys and virtual meetings.

If elements of the proposed scope of work are expected to exceed budget of \$80,000, applicants should include details about scalability and how they can support Boulder County staff in conducting portions of the inclusive engagement and outreach approach.

Scope:

- Consultant will prepare materials, attend, and present at the following meetings with the public and key stakeholder groups:
 - Public Engagement
 - Virtual Open House (2)
 - Community Conversations/Focus Groups (8)
 - Community Working Group: consisting of community members with representatives from diverse ages, backgrounds, genders, abilities, incomes and geography, as well as, consisting of multidepartment county and community partner staff members from the following organizations
 - 6-8 Meetings
 - Stakeholder Interviews
 - Executive Advisory Team: consisting of senior county staff members who can provide regular guidance prior to stakeholder, board and council engagement.
 - 2 Meetings/Communications
 - BOCC/Planning Commission/Regional Partners
 - 2 Meetings/Communications
- Note: Boulder County will be primarily responsible for public and stakeholder communication, including a website, email updates, logistics for meetings, etc.

Deliverables:

- Materials for public information and outreach sessions, including data analysis, maps, presentations, etc.
- Materials for all key stakeholder group meetings/communications, including data analysis, maps, presentations, etc.
- Conduct Community Working Group Meetings
- Attendance at public engagement meetings/interviews/sessions
- Attendance at Planning Commission/BOCC meetings
- Summary of input from the above meetings and demonstration of how input was incorporated into the draft and final plan

Task 5: Develop Recommendations and Cost Estimates for Implementation Actions by June 30, 2021

For each final recommendation, the consultant team should estimate annual programmatic costs and overlap in opportunities for Mobility for All and Youth Transportation. Draft recommendations are due by June 30, 2021. The consultant team should present these costs in ways that facilitate easy comparison among potential recommendations, for example cost per hour of service, or cost per passenger.

It is predicted that funding for many recommendations could become a barrier to final implementation. The study will identify local, regional, state and federal funding sources, to

include the CCAM Inventory, that could be used to support the recommend new services or programs. Particular attention should be given to partnership strategies to leverage funding.

Deliverables:

- Build off of TMP Implementation Actions to create planning level action plan with cost estimates, potential funding sources, and impact
- Draft report summarizing process, findings, recommendations, cost estimates, and funding, including an executive summary and an annotated bibliography. Related deliverables from previous tasks should be rolled into this final report. (Assume three total rounds of review)
- Final PowerPoint presentation(s), GIS maps, diagrams, and other graphics (Assume one round of review)
- All native files at project closeout, including GIS data, cost estimation files, etc.

If Contractor fails to remedy to (Recipient)'s satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within [ten (10) days] after receipt by Contractor of written notice from (Recipient) setting forth the nature of said breach or default, (Recipient) shall have the right to terminate the Contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude (Recipient) from also pursuing all available remedies against Contractor and its sureties for said breach or default.

d. Waiver of Remedies for any Breach In the event that (Recipient) elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this Contract, such waiver by (Recipient) shall not limit (Recipient)'s remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

a. **e. Termination for Convenience (Professional or Transit Service Contracts)** The (Recipient), by written notice, may terminate this contract, in whole or in part, when it is in the Government's interest. If

The Contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract.

c. If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Recipient.

a. **g. Termination for Default (Transportation Services)** If the Contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension or if the Contractor fails to comply with any other provisions of this contract, the (Recipient) may terminate this contract for default. The (Recipient) shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of default. If this contract is terminated while the Contractor has possession of Recipient goods, the Contractor shall, upon direction of the (Recipient), protect and preserve the goods until surrendered to the Recipient or its agent. The Contractor and (Recipient) shall agree on payment for the preservation and protection of goods. Failure to agree on an amount will be resolved under the Dispute clause.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the (Recipient).

a. **h. Termination for Default (Construction)** If the Contractor refuses or fails to prosecute the work or any separable part, with the diligence that will insure its completion within the time specified in this contract or any extension or fails to complete the work within this time, or if the Contractor fails to comply with any other provisions of this contract, the (Recipient) may terminate this contract for default. The (Recipient) shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. This liability includes any increased costs incurred by the Recipient in completing the work. The Contractor's right to proceed shall not be terminated nor the Contractor charged with damages under this clause if- 1. the delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include: acts of God, acts of the Recipient, acts of another Contractor in the performance of a contract with the Recipient, epidemics, quarantine restrictions, strikes, freight embargoes; and

b. 2. the contractor, within [10] days from the beginning of any delay, notifies the (Recipient) in writing of the causes of delay. If in the judgment of the (Recipient), the delay is excusable, the time for completing the work shall be extended. The judgment of the (Recipient) shall be final and conclusive on the parties, but subject to appeal under the Disputes clauses.

c. If, after termination of the Contractor's right to proceed, it is determined that the Contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if the termination had been issued for the convenience of the Recipient.

i. Termination for Convenience or Default (Architect and Engineering) The (Recipient) may terminate this contract in whole or in part, for the Recipient's convenience or because of the failure of the Contractor to fulfill the contract obligations. The (Recipient) shall terminate by delivering to the Contractor a Notice of Termination specifying the nature, extent, and effective date of the termination. Upon receipt of the

notice, the Contractor shall (1) immediately discontinue all services affected (unless the notice directs otherwise), and (2) deliver to the Contracting Officer all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether completed or in process.

If the termination is for the convenience of the Recipient, the Contracting Officer shall make an equitable adjustment in the contract price but shall allow no anticipated profit on unperformed services.

If the termination is for failure of the Contractor to fulfill the contract obligations, the Recipient may complete the work by contract or otherwise and the Contractor shall be liable for any additional cost incurred by the Recipient.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Recipient.

j. Termination for Convenience of Default (Cost-Type Contracts) The (Recipient) may terminate this contract, or any portion of it, by serving a notice of termination on the Contractor. The notice shall state whether the termination is for convenience of the (Recipient) or for the default of the Contractor. If the termination is for default, the notice shall state the manner in which the contractor has failed to perform the requirements of the contract. The Contractor shall account for any property in its possession paid for from funds received from the (Recipient), or property supplied to the Contractor by the (Recipient). If the termination is for default, the (Recipient) may fix the fee, if the contract provides for a fee, to be paid the contractor in proportion to the value, if any, of work performed up to the time of termination. The Contractor shall promptly submit its termination claim to the (Recipient) and the parties shall negotiate the termination settlement to be paid the Contractor. If the termination is for the convenience of the (Recipient), the Contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination. If, after serving a notice of termination for default, the (Recipient) determines that the Contractor has an excusable reason for not performing, such as strike, fire, flood, events which are not the fault of and are beyond the control of the contractor, the (Recipient), after setting up a new work schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.
