Prairie Dog Colony Extent on County Open Space: South

* Utilizing modeling techniques, Parks and Open Space has defined Non-suitable Habitat (NSH) as areas with slope >20% and riparian or wetland areas. The designation of NSH does NOT trigger any management action, but allows management to determine realistic habitable acreage on the ground. Parks and Open Space continuously update the model with improved spatial and tabular information.

Non-suitable Habitat (NSH) is not mapped on No Prairie Dog (NPD) areas.

2020 NSH breakdown:
157.58 ac HCA
239.50 ac MOA
