WASTE HIERARCHY AND DEFINITIONS
--

The County prefers hazardous and non-hazardous waste management methods that are based on the following hierarchy:

1. Recycling and reuse
2. Energy recovery
3. Treatment conversion to non-hazardous or less-hazardous compounds
4. Incineration
5. Hazardous waste landfill

For the purpose of this Request for Proposal (RFP), including the above hierarchy, the following definitions will apply:

“Recycle” to process the waste so that its substance is conserved and put to beneficial use. Refining of used motor oil is an example.

“Reuse” to use the waste in a manner essentially similar to its original intended use. Repackaging of paint is an example.

“Energy Recovery” the process of extracting the energy content, or fuel value of the waste, and putting that energy to beneficial use. Burning waste as a substitute for another fuel is an example.

“Treatment” to convert a waste to non-hazardous or less-hazardous compounds so that it is rendered suitable for a permitted discharge, or for a beneficial use. Neutralization of acids is an example.

“Incineration” the process of thermally destroying the waste, including the appropriate control of combustion products and residues.

“Incinerator” a facility legally permitted to accept and incinerate hazardous wastes, operated in compliance with all Federal, State and Local regulations.

“Hazardous Waste Landfill” a facility legally permitted to accept hazardous wastes and operated in compliance with all Federal, State and Local regulations.

“Certificate of Recycling” a certificate documenting that waste materials have been accepted and re-processed (recycled) by a recycling facility.

“Certificate of Destruction” a certificate documenting that waste materials have been accepted and incinerated.

“Certificate of Disposal” a certificate documenting that waste materials have been accepted and managed at a disposal facility, such as processed by a landfill disposal facility.

BACKGROUND

The Boulder County Hazardous Materials Management (HMM) Program (formerly the Boulder County Household Hazardous Waste Program) has operated for over 20 years. It exists to facilitate and encourage the proper management of household and eligible commercial hazardous wastes.

The County operates the Hazardous Materials Management Facility (HMMF), a 6,400-square foot facility located at 1901c 63rd Street in Boulder, Colorado. The HMMF opened for residential service in April 2011. It is a large warehouse with areas for the sorting and consolidation, unknowns testing, oil and antifreeze pour-off, non-flammable storage, and a separate flammable liquid bulking and storage room. The facility also has two Safety Storage Buildings[®] on the large cement pad to the south of the facility. A 1,000-gallon oil tank and 480-gallon antifreeze tank are also located on this pad.

The program serves residents of Boulder County, City and County of Broomfield, and the Town of Erie, and businesses that are classified by the State of Colorado as “very small quantity generators” (VSQGs) of hazardous wastes. The estimated population of the HMM program service area is 423,664 with approximately 163,000 households.

The HMMF is staffed and managed by county employees and open for residential waste drop-off on Wednesdays through Saturdays, 8:30 a.m. to 4:00 p.m. (excluding county holidays). Residents and businesses can visit the facility to pick up free, reusable products during regular hours of operation. VSQG wastes are currently accepted on Tuesdays by appointment only.

The facility accepts most types of household and VSQG waste which includes (but is not limited to): paint, motor oil, antifreeze and other automotive products, pesticides and garden products, hobby and pet products, pool and spa chemicals, household cleaners, fluorescent bulbs, ballasts, flammable liquids, etc. **Reference Appendix A.** Wastes not accepted include (but are not limited to): radioactive materials including smoke detectors, explosive or shock sensitive materials, medical waste, friable asbestos and electronic wastes.

In 2019, the program served over 20,700 households at the main facility and five satellite collection events. The number of households served is projected to increase by approximately 5% each year. The budget for proper waste disposal and recycling was approximately \$170,000.

The HMMF began accepting waste from VSQGs in August 2011. The VSQG program continues to grow each year and, in 2019, the HMMF served over 300 businesses and collected over 50,000 pounds of various waste streams. The number of businesses served is projected to increase by approximately 15% each year.

Waste quantities listed in Appendix A are the wastes shipped for the HMMF, off-site collection events, and VSQG businesses. While these numbers are indicative of the services proposers are asked to provide, wastes are expected to steadily increase, and this information should not be construed as a minimum or maximum guarantee of service levels. Boulder County estimates that the average amount of material to be offered for transportation, disposal and recycle will be between 35,000 to 42,000 pounds every two to three months.

Wastes received at the HMMF are segregated by staff, and handled by our hazardous waste contractor, or by other contractors or programs as follows:

Managed by our hazardous waste contractor:

- Provide a range of typical supplies on an as-needed basis (see Appendix B) with the cost of these materials built into their waste disposal fees.
- Aerosols, some rechargeable and non-rechargeable household batteries, bases, acids, pesticides and poisons, oxidizers, water-reactives, flammable solids, self-heating solids, non-regulated liquids, ballasts, etc., are lab-packed or loose-packed, into Department of Transportation (DOT) approved drums or cubic yard boxes. These waste streams are shipped for recycling, retort, incineration, landfill, wastewater treatment, or fuel blending, as appropriate.
- Various cylinders are shipped as-is for reclamation and/or recycling, or incineration, as appropriate.
- Flammable liquids are bulked into closed-top 55-gallon drums and shipped for use as fuel (energy recovery).
- Oil-based flammable and combustible paints are packed into DOT approved cubic-yard boxes and shipped for disposal through the PaintCare program.

Currently managed by other contractors/programs but may ship some of these waste streams with hazardous waste vendor during events:

- Oil and antifreeze are bulked into on-site tanks and collected by a used oil transporter.
- Lead-acid auto batteries are stacked on pallets for collection by a battery recycler.
- Fluorescent light tubes and lamps are packed in cardboard tubes and/or drums for shipment to recycling facilities.
- Cardboard, steel cans, and rigid plastics are recycled by the County's Material Recovery Facility.
- Alkaline and rechargeable batteries, including nickel-cadmium, small lead-acid, lithium-ion, and nickel-metal-hydride batteries are shipped for recycling through a battery recycler.
- Latex paints are shipped to PaintCare-approved vendors for recycling.

Similar waste segregation and handling also occurs at the County's community household hazardous waste collection events. At these events, County staff will perform all packaging of materials, labeling of containers according to DOT regulations, and waste profiles or lab pack guidelines supplied by our current waste contractor. County staff will also assist with the loading of materials to be shipped onto the transportation vehicle. If unusual wastes are encountered, then, in consultation with our contractor, either a new profile is created, or the waste is lab-packed, and a container contents sheet is prepared. Our contractor generally does not assist with bulking, packing or labeling of wastes, but is available on an as-needed basis to give advice, help identify unknowns, create new profiles, assist staff at the facility or events, and will pack and transport VSQG wastes to the HMMF on request.

SPECIFICATIONS

Proposers are encouraged to bid on one, several, or all of the waste streams discussed in this RFP. Boulder County reserves the right to utilize multiple vendors.

The contractor will collect consolidated household hazardous waste and VSQG waste from the County's HMMF located at 1901c 63rd Street, Boulder, Colorado 80301. Due to stormwater requirements, hazardous

waste shipments cannot occur at the HMMF when it is raining or snowing and will have to be postponed or cancelled if precipitation occurs.

The contractor will use Appendix A to provide prices per container, or per pound (if container price is not available), or per box or per foot for fluorescent tubes. If an alternative packing method, disposal method, etc. is offered for a particular waste stream, then the proposer should add rows to the spreadsheet to describe these additional management options.

The contractor must be duly licensed in the state of Colorado to transport hazardous waste and be in the possession of an EPA Identification number indicating the same. For contractors bidding on paint disposal, the contractor must be a hauler contracted with PaintCare. Boulder County is currently under contract with the PaintCare Colorado Program and the hauler must have a contract in place with PaintCare so the HMM program receives the cost savings provided by the PaintCare program. Boulder County will not pay for materials or services that PaintCare pays the service provider for.

The contractor will provide Boulder County with labor and transportation costs on Appendix B. This appendix also lists the typical supplies that Boulder County's contractor will provide at no additional cost. Costs for supplies will be built in to the contractor's waste disposal cost. If the contractor is unable to provide supplies, or if only a limited number of supplies can be provided, or if additional supplies are offered, this should be detailed on Appendix B and discussed in the proposal narrative. The County will endeavor to request deliveries of supplies no more than twice per month.

Collections from the HMMF will take place on an as-needed basis, typically every six to eight weeks in the summer and less often in the winter months. At least one week before each collection the County will email the contractor a detailed inventory of items to be shipped.

The contractor will also collect household hazardous wastes on an as-needed basis from any special collection events organized by the County. It is possible that up to twelve (12) events may be held each year.

The contractor will provide trained and qualified chemists or hazardous materials technicians on an as-needed basis to:

- Establish waste profiles for those waste streams that require one, collect samples to establish waste profiles if necessary, and assist with waste packaging and the identification of unknown wastes.
- Advise county staff on correct waste packaging to ensure that all waste is packaged according to applicable Department of Transportation requirements.
- Provide a list of specific waste streams that require container contents inventory sheets or special lab-packing requirements.
- Prepare and provide in advance, the appropriate shipping papers, manifests, labels and/or any other documentation necessary for the proper transporting, disposing and/or recycling of materials.
- Check labeling of all waste containers, performed by County staff, prior to each shipment.
- Assist with HMMF or event operations on an as-needed basis.
- The contractor will take title to, and accept generator status, for all household hazardous wastes received.
- Perform packing on-site at a VSQG location and/or transportation of VSQG waste to the HMMF. Boulder County will assume generator status of VSQG waste.

The contractor, and/or its subcontractor, shall transport all wastes according to all applicable Department of Transportation regulations and requirements. The contractor must ensure that all transporters have all

the required permits and licenses in accordance with local, state, and federal regulations for the transportation of materials received from the Boulder County HMMF and events.

Include a proposed contingency plan for Boulder County which describes how you identify and correct any problems that may occur while performing hazardous materials removal and transportation. The plan shall include remedial action provisions, spill prevention and control, and emergency response for hazardous waste transportation.

Documentation will be provided as part of this RFP to prove that all facilities to be used for waste disposal, treatment, or recycling are in compliance with all applicable state and federal regulations.

All waste collected will be shipped to facilities approved by the County as part of this bid process, or after approval by the County during the course of the contract. If waste is shipped to an unapproved facility without the County's knowledge or consent, the County will not pay the waste disposal or transportation costs for that waste. If payment has already occurred, then the contractor will reimburse the County accordingly.

The County will have the right to audit any and all of the contractor's facilities, on written request, and at a time convenient to the contractor.

The County will have the right to instruct the contractor not to use a facility if violations occur, or for any other reason.

Documentation and Reporting Required:

The Contractor will keep the county informed about changes in compliance by the facilities to be used, by: a) informing the county within 30 days of any notices of violations and b) providing an annual update on compliance during the course of the contract.

The Contractor shall provide the County with a copy of the waste manifest(s) at time of collection and will ensure that copies are also sent to the County by subsequent handlers of the waste (transporter, facility(ies) receiving the waste, etc.)

Copies of signed manifests will be provided to the county within thirty (30) days after delivery of materials to a disposal and/or recycle facility. The Contractor will send a certificate of disposal/recycle to the county within six (6) months after delivery of materials for disposal, treatment, recycle or landfill. This documentation will be grouped and provided for each Boulder County shipment date and will include details of final destination and management method used. If a certificate of disposal and/or recycle is not received within six (6) months, the Contractor will provide a written explanation of the delay. Boulder County reserves the right to terminate the contract if the written explanation is deemed unacceptable or no written explanation was provided.

The Contractor is asked to supply an example of their certificates of recycling, destruction, or disposal. This example will include drums and/or boxes of any hazardous waste and show where, how and when, the waste was managed.

The Contractor shall be solely responsible for maintaining all records required by local, state and federal laws for materials received and in their possession from Boulder County. The Contractor will provide this information to Boulder County upon request.

BOULDER COUNTY SAMPLE CONTRACT

THIS CONTRACT ("Contract") is entered into by and between the County of Boulder, State of Colorado, a body corporate and politic, acting by and through its Board of County Commissioners for the benefit of the [Department] ("County") and [Supplier] ("Contractor"). County and Contractor are each a "Party," and collectively the "Parties."

In consideration of the mutual covenants contained in this Contract, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Incorporation into Contract: The **Details Summary** is incorporated into this Contract. The **Contract Documents** are incorporated into this Contract by reference, except to the extent that the Proposal, if any is incorporated, contains any obligations placed upon County and not otherwise contained in this Contract.

2. Work to be Performed: Contractor will provide all labor and equipment and do all tasks necessary and incidental to performing the work as described in the **Details Summary** and **Contract Documents** (the "Work"). Contractor will perform the Work (a) in a good and workmanlike manner, (b) at its own cost and expense, (c) in accordance with recognized industry standards of care, skill and diligence for the type of work being performed, and (d) in strict accordance with the Contract.

3. Term of Contract: The **Contract Term** begins on the **Start Date** and expires on the **Expiration Date**, unless terminated sooner. All the Work must be performed during the **Contract Term**.

4. Payment for Work Performed: In consideration of the Work performed by Contractor, and subject to conditions contained in this Contract, County will pay an amount not to exceed the **Contract Amount** to Contractor in accordance with the **Contract Documents**.

5. Invoicing: Contractor will promptly provide a copy of its Form W-9 and invoice template to County upon request. Contractor must submit an invoice to the County by the fifteenth (15th) day of the month following completion of the Work. All invoices submitted require the following components: Contractor's name and address (submitted W-9 address must match remit address), detailed description of services, dates of services, itemization of labor and materials costs, "Bill to: Boulder County" language, payment remittance address, payer, name and address, date of invoice, unique invoice number, and total amount due. Contractor must send all completed invoices to the **Invoice Contact** in the **Details Summary**. Email delivery is preferred by the County; County may require delivery of invoices by email. Failure to submit invoices in a timely manner and in accordance with the terms of this Contract may cause a delay in payment. County may recoup any damages incurred because of Contractor's failure to submit invoices pursuant to the terms of this paragraph. County's acceptance or payment of an invoice will not constitute acceptance of any Work performed under this Contract.

6. Extra Time to Complete the Work: If Contractor cannot complete the Work by the **Expiration Date**, Contractor may request extra time to complete the Work. County, in its sole discretion, may grant Contractor additional time to complete the Work and, if so, will provide Contractor with written notice of the amount of extra time granted. County granting extra time to complete the Work will not entitle Contractor to additional compensation from County. This

Contract will remain in full force and effect during any time period that Contractor is permitted to finish completing the Work.

7. Extension of Contract Term (Additional Work): Upon mutual agreement of the Parties, this Contract may be extended until the **Final End Date**. During any extended **Contract Term**, the terms of this Contract will remain in full force and effect, unless otherwise amended in writing by the Parties. Where the Contractor will provide additional services for additional compensation beyond the initial **Contract Amount**, the Parties must execute a written amendment before the then-current **Expiration Date**. If necessary, the written amendment will incorporate an updated Scope of Work and updated Fee Schedule as exhibits. Contractor must provide a current Certificate of Insurance to the County that complies with the **Insurance Requirements** of this Contract, if any, prior to any extended **Contract Term**.

8. Schedule of Work: County may designate the hours (on a daily or weekly basis) during which Contractor can perform the Work, strictly for the purposes of minimizing inconvenience to the County and interference with County operations. Contractor will otherwise set its own work schedule.

9. Indemnity: Contractor will be liable for any damages to persons or property caused by or arising out of the actions, obligations, or omissions of Contractor, its employees, agents, representatives or other persons acting under Contractor's direction or control in performing or failing to perform the Work under this Contract. Contractor will indemnify and hold harmless County, its elected and appointed officials, and its employees, agents and representatives (the "indemnified parties"), from any and all liability, claims, demands, actions, damages, losses, judgments, costs or expenses, including attorneys' fees, which may be made or brought or which may result against any of the indemnified parties as a result or on account of the actions or omissions of Contractor, its employees, agents or representatives, or other persons acting under Contractor's direction or control. This indemnification obligation will extend to claims based on Contractor's unauthorized use or disclosure of confidential information and intellectual property infringement. County will not be obligated to indemnify or defend Contractor under any circumstances. Contractor's obligations under this provision shall survive expiration or termination of this Contract.

10. Nondiscrimination: Contractor will comply with the letter and spirit of the Colorado Anti-Discrimination Act, C.R.S. § 24-34-401, et seq., as amended, and all applicable local, State and Federal laws concerning discrimination and unfair employment practices. County prohibits unlawful discrimination on the basis of race, color, religion, gender, gender identity, national origin, age 40 and over, disability, socio-economic status, sexual orientation, genetic information, or any other status protected by applicable Federal, State or local law. Contractor must require that its subcontractors, if any, similarly comply with all applicable laws concerning discrimination and unfair employment practices.

11. Information and Reports: Contractor will provide to authorized County, State, and Federal government representatives all information and reports that may be required for any purpose authorized by law. Contractor will permit access to such representatives to Contractor's facilities, books, records, accounts, and any other relevant sources of information. Where information required by a representative is in the exclusive possession of a person or entity other than Contractor, Contractor must so certify to the County and explain what efforts it has made to obtain the information.

12. Independent Contractor: Contractor is an independent contractor for all purposes in performing the Work. Contractor is not an employee of the County for any purpose, including the Federal Insurance Contribution Act, the Social Security Act, the Federal Unemployment Tax Act, the provisions of the Internal Revenue Code, the Colorado Workers' Compensation Act, the Colorado Unemployment Insurance Act, and the Public Employees Retirement Association.

Accordingly, County will not withhold or pay any income tax, payroll tax, or retirement contribution of any kind on behalf of Contractor or Contractor's employees. As an independent contractor, Contractor is responsible for employing and directing such personnel and agents as it requires to perform the Work. Contractor will exercise complete authority over its personnel and agents and will be fully responsible for their actions.

13. Termination for Non-Appropriation: The other provisions of this Contract notwithstanding, the County is prohibited by law from making commitments beyond the current fiscal year. Payment to Contractor beyond the current fiscal year is contingent on the appropriation and continuing availability of funding in any subsequent year. County has reason to believe that sufficient funds will be available for the full **Contract Term**. Where, however, funds are not allocated for any fiscal period beyond the current fiscal year, County may terminate this Contract without penalty by providing seven (7) days' written notice to Contractor.

14. Termination for Breach: Either Party's failure to perform any of its material obligations under this Contract, in whole or in part or in a timely or satisfactory manner, will be a breach. The institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar officer for Contractor or any of its property, which is not vacated or fully stayed within thirty (30) days after the institution of such proceeding, will also constitute a breach. In the event of a breach, the non-breaching Party may provide written notice of the breach to the other Party. If the notified Party does not cure the breach, at its sole expense, within thirty (30) days after delivery of notice, the non-breaching Party may exercise any of its remedies provided under this Contract or at law, including immediate termination of this Contract.

15. Termination for Convenience: County may terminate this Contract, in whole or in part, for any reason, upon seven (7) days' advance written notice to Contractor.

16. Remedies for Non-Performance: If Contractor fails to perform any of its obligations under this Contract, County may, at its sole discretion, exercise one or more of the following remedies, which shall survive expiration or termination of this Contract:

a. Suspend Performance: County may require that Contractor suspend performance of all or any portion of the Work pending necessary corrective action specified by the County and without entitling Contractor to an increase in compensation or extension of the performance schedule. Contractor must promptly stop performance and incurring costs upon delivery of a notice of suspension by the County.

b. Withhold Payment Pending Corrections: County may permit Contractor to correct any rejected Work at the County's discretion. Upon County's request, Contractor must correct rejected work at Contractor's sole expense within the time frame established by the County. Upon completion of the corrections satisfactory to the County, County will remit payment to Contractor.

c. Deny Payment: County may deny payment for any Work that does not comply with the requirements of the Contract or that Contractor otherwise fails to provide or complete, as determined by the County in its sole discretion. Upon County request, Contractor will promptly refund any amounts prepaid by the County with respect to such non-compliant Work.

d. Removal: Upon County's request, Contractor will remove any of its employees or agents from performance of the Work, if County, in its sole discretion, deems any such person to be incompetent, careless, unsuitable, or otherwise unacceptable.

If this Contract is so terminated, Contractor shall be liable for actual and consequential damages to the County.

22. Entire Agreement/Binding Effect/Amendments: This Contract represents the complete agreement between the Parties and is fully binding upon them and their successors, heirs, and assigns, if any.
