

# WALKING SCHOOL BUS

*An Introductory  
Training Session*

If you're interested in the idea of a Walking School Bus (WSB) but don't know enough about it yet, this training session will provide you with a full introduction!

WSBs are a fun new way to get to school that teaches kids important pedestrian skills, helps the environment, increases physical activity, and reduces transportation congestion & costs.

We hope you'll walk away from our training session informed enough to decide whether starting a WSB is a good idea to pursue.

## **During the training, we'll cover:**

- What is a WSB?
- What are the benefits of a WSB?
- Free resources to support your own WSB
- How the County and school districts can help support, start and sustain WSBs?

While this session is not a full "How To", we'll be sharing and reviewing the free complete WSB Toolkit, "[Step By Step: How to Start a Walking School Bus.](#)" Feel free to use this anytime or preview it before you attend this session.

**What:** An Introduction to Walking School Buses

**Presented By:** Boulder County's Safe Routes Regional Hub
