“If intervention is instituted before kindergarten entrance, many problems can be prevented and the large majority can be ameliorated.” The earlier the referral the better.

Who We Are
The Boulder County Assuring Better Child Health and Development (ABCD) Partnership is a multidisciplinary group of partners dedicated to improving the early childhood system in Boulder County. Our partners represent an array of agencies that offer early childhood services, or support early childhood professionals.

Our Purpose
We aim to build partnerships and collaborate to promote and support the developmental screening process for young children in Boulder County.

Our Guiding Principles
- Focus on high risk populations
- Emphasize whole child development, including social emotional development
- Build upon existing programs; support local community collaboration
- Utilize and promote evidence based, best practice approaches
- Remember that families are at the center of everything we do

Our Goals

Increase the number and rate of children who undergo and complete the developmental screening process, including screening, referral, evaluation and services.

Support parents to have the tools, knowledge, and resources to fully support and advocate for their child’s development.

Improve the quantity and quality of data regarding the developmental screening process for children ages birth to five.

Developmental Evaluation

Talking with Parents

Sometimes it can be hard to know what to say to a parent when you have concerns or a developmental screening tool indicates that their child would benefit from a more thorough evaluation. Remember that at this stage you are using your professional judgement or a screening tool; you have not diagnosed a developmental delay.

You are helping parents to create a healthy foundation for their child; healthy physical, social, and emotional development is essential for success in school and life. Below are some things to keep in mind when talking to parents about a concern.

Conversation Tips: Empowering parents to want more information

- Take time to elicit their thoughts and feelings
  - If a parent is anxious, validate that their feelings are normal. The more you remain calm, the more calm the parent will be.
  - Explain that the parent hasn’t done anything wrong.
- Reassure parents that an evaluation does not necessarily mean that their child will need services, nor does it commit them to services if that’s what is recommended.
  - Services are completely voluntary.
- Tell them it is common to refer children for further evaluation, and that this is a positive step they can take to get more information on how to best support their child.
  - We know that parents want to give their children every advantage possible.

Sample Statements

1. Accentuate the positive first.
   *Thank you for participating in John’s developmental screening. I noticed how well he is using his hands and fingers to reach for objects. He is also making a lot of appropriate sounds for his age. You must be talking and singing to him a lot at home, because what a difference you are making!*

2. Ask for their feedback.
   *I noticed that he is not rolling over yet. This is a milestone I would typically expect to see at this age. What are your thoughts?*

3. Make your recommendation.
   *I think it would be helpful to have someone who specializes in early childhood development take a closer look at him. We all want what’s best for John and to give him every advantage possible. Let’s see if he needs a little extra help in reaching his milestones.*

4. Emphasize that earlier is better.
   *John’s brain is growing so rapidly, and he is learning so many new things at this age. If he does need help, evidence shows that getting help early can make a big difference for his later development. This way we’re doing everything we can to make sure he’s ready for kindergarten.*

Evaluación del desarrollo

Hablar con los padres de familia

Algunas veces puede ser difícil saber cómo transmitirle a los padres de familia cuando tiene preocupaciones o una herramienta de evaluación del desarrollo indica que su hijo(a) se beneficiaría de una evaluación minuciosa. Recuerde que en esta etapa está utilizando su juicio profesional o una herramienta de detección; usted no ha diagnosticado un retraso del desarrollo.

Está ayudando a los padres de familia a crear una base saludable para su hijo(a), por lo que un desarrollo físico, social y emocional saludable es esencial para tener éxito en la escuela y la vida. A continuación se mencionan algunas cosas que debe tener en cuenta cuando habla con los padres de familia acerca de sus preocupaciones.

Consejos para la conversación: Aliente el interés de los padres de familia por obtener más información

- Tómese el tiempo para preguntarles sobre lo que piensan y sienten
  - Si un padre de familia está ansioso, hágale saber que sus sentimientos son normales. Mientras se mantenga en calma, más tranquilo se sentirá el padre de familia
  - Explique que el padre de familia no ha hecho nada mal.
- Asegúrele a los padres que la evaluación no necesariamente significa que su hijo(a) necesitará de servicios, ni que los compromete a obtenerlos en caso de que sea lo recomendado
  - Los servicios son completamente voluntarios.
- Dígales que es común que se derive a los niños a una evaluación adicional, y que este es un paso positivo que pueden tomar para obtener más información sobre cómo apoyar de mejor manera a su hijo(a).
  - Sabemos que los padres desean darle a sus hijos toda ventaja posible.

Ejemplo de declaraciones

1. **Resaltar lo positivo primero.**
   
   **Gracias por participar en la evaluación del desarrollo de John. He notado lo bien que utiliza sus manos y dedos para alcanzar objetos. También produce una gran cantidad de sonidos apropiados para su edad. Seguro le hablan y cantan mucho en casa ¡porque hacen una gran diferencia!**

2. **Pida sus comentarios.**
   
   **He notado que él aún no se da la vuelta. Este es un avance que por lo general esperaría ver a esta edad. ¿Qué opina?**

3. **Haga sus recomendaciones**
   
   **Creo que sería útil pedirle a alguien que se especializa en el desarrollo de la temprana edad que le realice un examen más profundo. Todos queremos lo mejor para John y darle toda ventaja posible. Veamos si él necesita un poco de ayuda adicional para alcanzar estos avances.**

4. **Enfatice que mientras sea antes mejor.**
   
   **El cerebro de John crece muy rápidamente y él aprende muchas cosas nuevas a esta edad. Si él necesita ayuda, las evidencias demuestran que recibir ayuda en una etapa temprana puede marcar una gran diferencia para su desarrollo más adelante. De esta forma nos aseguramos de hacer todo lo que posible para que esté preparado para el jardín de infantes.**
Hard Conversations - What do I say?

Here is what parents have told us helps them when having a hard conversation.

- Say the child’s name
- Model calmness in your voice and body
- Don’t label
- Listen
- Sit down
- Speak slowly
- Adapt language so that it’s understandable
- Acknowledge how much you appreciate or like the child
- Avoid labeling a parent as difficult

Here are some words to get you started…

- This is scary.
- Are you seeing or experiencing anything like this at home or in other settings?
- Would you like help?
- What do you think?
- What worries you?
- Is there anything about _______ that you might see as a reason for concern?
- What do you think might happen if you don’t act?
- How important is this to you?
- I can see you are uncomfortable, tell me what you are thinking.
- Of the options we discussed, which one sounds like it fits with your family?
- What makes you concerned about _______?
- You and your doctor will decide what to do, but I can offer some information about what I see at school.
- I hear your concerns.
- It sounds like you want to make this work, and you also have some reservations about it.
- How can I help you?
- Maybe you are not ready now but how about we discuss this in 2-3 months?
- Which of these options might work best for you?
- What have you heard about this?
- Would you be willing to keep track of _______ for a week, to see if you see any patterns?
- Ultimately, this is your decision, so what do you think?
- Would you like to talk about some options, ideas that have worked for other families?
- It’s better not to change too many things all at once. How can you take a small step in this direction?
- Maybe this is not a good time.
- Would you like to know more about _______?
- I can see that it is important to you to be a good parent.
- That sounds like a good point.
- That sounds like a good idea.

Cultural & Relationship Considerations

Developing a relationship of trust with a family is consistently noted by early childhood experts as an important factor that would encourage a family to act upon a recommendation. Having a conversation with a parent about referring their child for a more thorough evaluation can be challenging with any family, especially if the family has a cultural background that you are not familiar with. “Culture” may refer to a different country, but it could also mean issues related to poverty, teen parenting, family values, belief systems, etc. Below are tips from providers who have these conversations.

Learn About Their Culture

Prior to speaking with a family it may be helpful to research their culture. However, keep in mind that culture varies from region to region within countries. It really is best to ask the family questions about their culture instead of relying on preconceived ideas from research. You can ask, “What would be helpful for me to know about the (Mexican, Chinese, Arabic, etc.) culture? How are children prepared for school in (Mexico, China, Saudi Arabia)?” Remember that you might need the assistance of an interpreter.

Show Respect

Showing that you care about their child is key to a family being willing to take action on your referral. Some ways to do that include:

- Pronouncing their child’s name correctly
- Focusing on their child’s strengths before discussing possible areas of concern
- Asking the parents for their feedback

Listen

All families want to be heard. Take the time to really listen to their perspective when they are reluctant to pursue an evaluation. Realize that they may be preoccupied with other issues such as finances or transportation. Can you help identify and assist with these potential barriers?

Allow Time for the Referral

It is important to give the family time to make their decision. Sometimes this can take more than one meeting to accomplish. Respect families’ varying levels of readiness and do not rush the referral if they are not ready.

Explain American Culture

You may need to explain American culture and the importance of early childhood education. Parents may not realize that there is an expectation for school readiness before a child starts kindergarten. Teachers expect students to have solid speech, fine motor and social skills.

Offer Written Explanations

It is helpful to provide a written summary for parents in English, as well as their native language, after you discuss their child’s developmental concerns. This provides another way for them to understand and process the information and can be used as a future reference.

July 2022
Dear family,

Your child’s growth is more than just physical. You can see their development by how they play, learn, speak, behave and move. You play a very important role in supporting your child’s development.

Based on today’s screening we recommend further evaluation of your child’s development. Evaluations are available at no cost to you. We know that all children develop differently, and some children need a boost or support to help them along the way. Together, we can make sure your child’s development is on track.

Getting Support
The programs listed below can provide further evaluation at no cost to you. The evaluation will give a clearer picture of your child’s development and identify additional help that might be needed. The evaluation will also determine if your child is eligible for the extra support provided by these agencies and will provide information about other resources and supports for your family.

What to Expect
You will be asked to meet with two or more people who are experts with children. They will ask you questions about your child, talk to him or her, and see how he or she talks and plays with toys.

Children 0 – 3rd birthday: All referrals and evaluations for children under age 3 are now coordinated by the state. Do not refer them to Child Find. A referral can be made online, by phone, or by fax to Early Intervention Colorado.

Evaluación del desarrollo

Estimada familia,

El crecimiento de su hijo (a) es más que sólo físico. Usted puede ver su desarrollo por la forma en que juegan, aprenden, hablan, se comportan y se mueven. Usted juega un papel muy importante para apoyar el desarrollo de su hijo (a).

Con base en las pruebas de hoy, le recomendamos una evaluación adicional sobre el desarrollo de su hijo (a). Las evaluaciones están disponibles sin ningún costo para usted. Sabemos que todos los niños se desarrollan de maneras diferentes y algunos niños necesitan un impulso o apoyo para ayudarles a lo largo del camino. Juntos, podemos asegurarle que el desarrollo de su hijo se encuentra bien encaminado.

Cómo obtener apoyo

Los programas enumerados a continuación pueden proporcionar más evaluación sin ningún costo para usted. La evaluación dará una imagen más clara del desarrollo de su hijo (a) e identificará ayuda adicional que podría ser necesaria. La evaluación también determinará si su hijo (a) es elegible para el apoyo adicional proporcionado por estas agencias y le dará información acerca de otros recursos y apoyos para su familia.

Lo que puede esperar

Se le pedirá reunirse con dos o más personas que son los expertos con niños. Le harán preguntas acerca de su hijo (a), hablarán con él o ella y verán cómo él o ella habla y juega con los juguetes.

Niños de 0 a 3er cumpleaños: Todas las referencias y evaluaciones para los niños menores de 3 años ahora son coordinados por el estado. **Por favor no llame a Child Find.**

Changes in the Referral and Evaluation Process for Children Under Age 3

Beginning on May 1, 2022, all referrals and evaluations for children under the age of 3 with developmental concerns or disabilities will be coordinated through Early Intervention Colorado.

This change to Early Intervention referrals and evaluations is being made to:

- Ensure families and children across Colorado have equitable access to developmental support
- Streamline the program to be easier for families and providers to navigate

Please note that Child Find (Colorado Department of Education/local school districts) will no longer accept referrals for children under age 3 as of May 1. All referrals and evaluations for children under 3 with disabilities or developmental concerns will be coordinated through Early Intervention Colorado.*

Early Intervention referrals and evaluations will occur within a coordinated, state system.

Families will continue to receive Early Intervention services through local Community Centered Boards, either in person or virtually.

Anyone can make a referral to Early Intervention!

A referral can be made online, by phone or by fax:

- Complete the online referral form: sforce.co/3jgWfp0
- Call 833-733-3734 (833) REFER-EI
- Email GetStartedwithEI@state.co.us
- Download the referral form and fax to 303-866-5944 sforce.co/3uUEfWI
- Contact your local Community Centered Board sforce.co/38RLveR

If you have questions about this change, please contact Jody Berg, Early Intervention Evaluations Manager at jody.berg@state.co.us or (720) 633-6099

*Early Intervention Colorado is currently part of the Colorado Department of Human Services (CDHS). Once the Colorado Department of Early Childhood (CDEC) is established, Early Intervention Colorado will reside within the CDEC.”

**granted by legislation SB21-275
**Children 3-5**

Referral is made to the Child Find office in the school district the family lives in. Children referred will receive a screening or evaluation to determine eligibility. Eligibility is for early childhood special education services and is based on the delay impacting a child’s ability to succeed in an educational setting. Services are provided in a preschool classroom setting.

### Referral Process

1. **Explain** the results of the screening and the reason for the referral. Stress the importance of developmental screening and evaluation. Review the process for evaluation.

2. **Ask Parents** for their feedback and understanding. Ask the parent to request that the results of the evaluation be sent to the referring entity. This request will prompt Child Find to generate a form asking parents to verify that they want information shared with you, the referring agency.

3. **Fax or Email** any developmental screening information and the score sheet, to the Child Find office in the school district where the family lives (see below). Non-medical providers making the referral should share referral and screening information with the child's primary care provider.

4. **Encourage Families** to call the Child Find office in that school district and tell them further screening or evaluation was recommended. Also encourage families to mention that their provider (name the specific practice or agency) sent in a referral form for possible special education services provided at no cost to families.

5. **Follow up** with the family within two months of sending the referral. Track screening and referral actions to ensure family follow-up with the referral process has occurred.

### Child Find Responsibilities

1. Child Find office will contact the family to schedule further screening or evaluation.
2. If the child has a documented delay that is educationally relevant (as determined by the evaluation team), they may attend preschool through the school district, as well as receive any additional services the child may need (speech therapy, occupational therapy, etc.).
3. If parents sign a “Release of Information” indicating that they want information shared with the referring agency, the school district will send screening or evaluation results.
