### NOTICE OF POSAC SITE VISIT

The Boulder County Parks & Open Space Advisory Committee (POSAC) will attend a site visit on September 22, 2022. The site visit will provide an opportunity to see a multi-disciplinary project which was completed in 2021, using our department's project charter process. We worked together to formalize fencing and interpretive signage at the Blue Jay Mine in Jamestown. This structure is valuable for its historical significance, as well as the large maternity colony of bats who are now calling it home. Our aim with this project is to provide the public with information on the structure's past, as well as encourage conservation of the wildlife within.

Attendees will meet at the Heil Valley Ranch Corral Trailhead parking lot at 4:00 p.m. From there, we will have vans to transport us up to Jamestown. We will return to the Corral Trailhead by 6:15 p.m.

Attendees will go on a short hike, so proper footwear, rain gear, and bottled water are recommended. The tour will take approximately 2 hours, which includes drive time.

Members of the public should contact Lucero Torres at [ltorres@bouldercounty.org](mailto:ltorres@bouldercounty.org) to reserve a seat for the tour or to get additional information about this topic.

This site visit will not provide an opportunity for formal public comment. The tour is informational only and POSAC will not vote on matters related to this item.
