UNDERSTANDING THE HEALTHY KIDS COLORADO SURVEY SCHOOL AND DISTRICT REPORTS

Background

The [Healthy Kids Colorado Survey](#) (HKCS) collects anonymous health information from middle and high school students throughout the state. The HKCS is conducted during odd-numbered years, most recently in the fall of 2021. Nearly 100,000 students in over 500 middle and high schools participated in the fall 2021 survey. The questionnaire measures a wide range of health behaviors and outcomes that affect the health of young people including: physical activity, nutrition, health care, bullying, mental health, tobacco and substance use, sexual health (high school only), and family and school protective factors. The HKCS is informed by the Colorado Departments of Public Health and Environment (CDPHE), Education (CDE) Human Services (CDHS), and Public Safety (CDPS). The survey is administered by Colorado School of Public Health (CSPH) at the University of Colorado Anschutz Medical Campus.

Questionnaire, Parental Consent, and Survey Administration

The majority of the HKCS questions are drawn from the Centers for Disease Control and Prevention (CDC) Youth Risk Behavior Surveillance System, the nation's largest adolescent health survey which has been ongoing for more than 25 years. Other questions in the HKCS have been added with community input to meet additional data needs in Colorado.

The questionnaire is available in English and Spanish and takes about 45 minutes, or one class period to complete. Starting in 2019, students are able to complete the survey either online or by paper and pencil, depending on school or district preference. Teachers are given instructions to provide to students that emphasize the anonymous and voluntary nature of the survey. Parental consent procedures are followed according to each district's guidelines, with a minimum of two weeks notification in advance of the administration date.

There are two versions of the high school questionnaire, called "modules," that have an identical core set of 88 questions plus additional questions unique to each version. This approach allows more information to be collected while limiting the survey length. Modules A and B contain 120 questions each. The modules are randomly distributed, so roughly half the students in each classroom complete Module A and half complete Module B.

The HKCS selects a sample of schools to represent the state of Colorado. The HKCS is also available to other schools at no cost. Many schools choose to participate in order to receive local data to track important health behaviors and protective factors. Within selected schools, a sample of classrooms is selected to participate in order to minimize the time commitment from schools. If a parent chooses not to allow their child to participate, or if the student declines to participate, they are asked to sit quietly at their desk and work on other school work.

Student Response Rate: The total number of participating students out of all sampled students in the district, for both sampled and opt-in schools. The calculation for district student response rate was adjusted in 2021 to include students from both opt-in and sampled schools. Previously, only sampled schools were included. Information on the number of participating schools is provided below Table 1.

Confidentiality: In order to protect confidentiality, student responses are not released if they might allow someone to identify individual students. A period (.) appears whenever results meet certain suppression criteria used to maintain confidentiality. Our suppression criteria include results of 0% or 100%; results where the numerator has fewer than 3 students (e.g., the number of students who answered ‘yes’), or the number in the denominator is 30 or fewer (e.g., the number of students who answered the question).

Considerations When Using the Report

The results of your school or district can be compared to the state or regional estimates (to be released in the Summer of 2022). When comparing a school or district estimate to a regional or state estimate, examine the 95% confidence intervals. If they overlap, there is no scientific evidence to believe the estimates are different. If they do not overlap, there is high confidence that the estimates are different (“statistically significant”). For statistically significant differences, judgment is needed to decide whether the size of the difference is meaningful and important.

TABLE OF CONTENTS

Introduction

Background.....	i
Questionnaire, Parent Consent, and Survey Administration Background.....	i
EXAMPLE: How to Read a Table.....	ii
Key Definitions.....	ii
Technical Assistance.....	iii

Demographics

Table 1. School Demographics.....	16
-----------------------------------	----

Safety

Table 2. Percentage of students who never or rarely wore a seat belt when riding in a car driven by someone else.....	17
Table 3. Percentage of students who rode one or more times during the past 30 days in a car or other vehicle driven by someone who had been drinking alcohol.....	18
Table 4. Among students who drove a car or other vehicle during the past 30 days, the percentage been drinking alcohol one or more times.....	19
Table 5. Percentage of students who rode one or more times during the past 30 days in a car or other vehicle driven by someone who had been using marijuana.....	20
Table 6. Among students who drove a car or other vehicle during the past 30 days, the percentage who drove when they had been using marijuana one or more times.....	21
Table 7. Among students who drove a car or other vehicle during the past 30 days, the percentage who texted or e-mailed while driving on one or more of the days.....	22

Violence-related Behaviors

Table 8. Percentage of students who did not go to school on one or more of the past 30 days because they felt they would be unsafe at school or on their way to or from school.....	23
Table 9. Percentage of students who were in a physical fight one or more times during the past 12 months.....	24
Table 10. Among students who dated or went out with someone during the past 12 months, the percentage who had been physically hurt on purpose by someone they were dating or going out with one or more times.....	25

Table 11. Among students who dated or went out with someone during the past 12 months, the percentage who had been controlled or emotionally hurt by date past 12 months	26
--	----

Sex and Consent

Table 12. Percentage of students who had a sexual experience where unsure if they gave their fully-granted consent.....	27
Table 13. Percentage of students who had sexual experience where unsure if they received fully-granted consent.....	28
Table 14. Percentage of students who had sexual photo or video of themselves shared electronically without permission in the past 12 months.....	29
Table 15. Percentage of students who have made sexual comments, jokes, gestures or looks at someone when unwanted.....	30
Table 16. Percentage of students who touched, grabbed or pinched someone in a sexual way when unwanted.....	31
Table 17. Percentage of students who had ever been physically forced to have sexual intercourse when they did not want to	32
Table 18. Percentage of students who had ever been forced someone to have sex when it was non-consensual.....	33

Bullying

Table 19. Percentage of students who have ever been bullied on school property during the past 12 months.....	34
Table 20. Percentage of students who had not bullied on school property.....	35
Table 21. Among students bullied on school property, the percentage who were bullied in a classroom.....	36
Table 22. Among students bullied on school property, the percentage who were bullied in a hallway or stairwell.....	37
Table 23. Among students bullied on school property, the percentage who were bullied in a locker room or bathroom	38
Table 24. Among students bullied on school property, the percentage who were bullied in a cafeteria or lunch room	39
Table 25. Among students bullied on school property, the percentage who were bullied on a bus or at a bus stop	40
Table 26. Among students bullied on school property, the percentage who were bullied outside before school.....	41
Table 27. Among students bullied on school property, the percentage who were bullied outside after school.....	42
Table 28. Among students bullied on school property, the percentage who were bullied outside during lunch or break	43
Table 29. Among students bullied on school property, the percentage who were bullied somewhere else on school property	44
Table 30. Among students bullied on school property, the percentage who were bullied somewhere at outside locations	45
Table 31. Among students bullied on school property, the percentage who were bullied somewhere at inside locations.....	46
Table 32. Percentage of students who had ever been electronically bullied during the past 12 months	47
Table 33. Percentage of students who had not been teased in the past 12 months	48

Table 34. Among students who were teased in the past 12 months, the percent who were teased because of sexual orientation	49
Table 35. Among students who were teased in the past 12 months, the percentage who were teased because of gender identity	50
Table 36. Among students who were teased in the past 12 months, the percentage who were teased because of religion.....	51
Table 37. Among students who were teased in the past 12 months, the percentage who were teased because of disability.....	52
Table 38. Among students who were teased in the past 12 months, the percentage who were teased because of physical appearance	53
Table 39. Among students who were teased in the past 12 months, the percentage who were teased because of race or ethnicity	54

Mental Health

Table 40. Percentage of students who purposefully hurt themselves without wanting to die in the past 12 months	55
Table 41. Percentage of students who agree stress level is manageable most days.....	56
Table 42. Percentage of students who feel it takes them 2 or less days to feel fully recovered after a stressful situation.....	57
Table 43. Percentage of students who felt sad or hopeless almost every day for two weeks or more in a row during the past 12 months that they stopped doing some usual activities	58
Table 44. Percentage of students who seriously considered attempting suicide during the past 12 months	59
Table 45. Percentage of students who made a plan about how they would attempt suicide during the past 12 months.....	60
Table 46. Percentage of students who attempted suicide one or more times during the past 12 months.....	61
Table 47. Percentage of students who have an adult to go to help with a serious problem	62
Table 48. Percentage of students who could always or most of the time talk to a friend about feelings	63

Tobacco

Table 49. Percentage of students who have ever smoked a cigarette, even one or two puffs.....	64
Table 50. Percentage of students who smoke a cigarette, even one or two puffs, for the first time before age 13.....	65
Table 51. Percentage of students who smoked cigarettes on one or more of the past 30 days	66
Table 52. Among students who smoked in the past 30 days, the percentage who smoked menthol cigarettes	67
Table 53. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them from a gas station	68
Table 54. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them from a convenience store.....	69
Table 55. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them some other way	70
Table 56. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them from a drug store	71
Table 57. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them from a vending machine	72

Table 58. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them over the internet	73
Table 59. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them through the mail.....	74
Table 60. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them some other way.....	75
Table 61. Among underage students who smoked cigarettes in the past 30 days, the percentage who bought them from a store (convenience, supermarket, discount, gas station).....	76
Table 62. Among students who reported current cigarette use, the percentage who ever tried to quit smoking cigarettes during the past 12 months.....	77
Table 63. Percentage of students who think it would be sort of easy or very easy to get cigarettes if they wanted.....	78
Table 64. Percentage of students who think people who smoke one or more packs of cigarettes per day have a moderate or great risk of harm	79
Table 65. Percentage of students who think it is wrong/very wrong for someone the same age to smoke cigarettes	80
Table 66. Percentage of students who think adults in their neighborhood think it is wrong or very wrong for kids to smoke cigarettes	81
Table 67. Percentage of students who have used cigars, cigarillos, or little cigars in past 30 days.....	82
Table 68. Percentage of students who have used chewing tobacco, snuff, dip, snus, or dissolvable tobacco products	83
Table 69. Percentage of students who have used tobacco from a hookah, narghile, or other type of waterpipe in past 30 days.....	84
Table 70. Percentage of students who have used tobacco that was not a hookah, narghile, or other type of waterpipe in past 30 days.....	85
Table 71. Percentage of students who have used Bidis or small brown cigarettes wrapped in a leaf in past 30 days.....	86
Table 72. Percentage of students who have not used alternative tobacco products in the past 30 days.....	87
Table 73. Percentage of students who have used cigars, chewing tobacco, hookah or bidis in the past 30 days.....	88

Vapor Products

Table 74. Percentage of students who have ever used an electronic vapor product	89
Table 75. Among students who have used vapor products, the percentage who tried it for the first time before age 13.....	90
Table 76. Percentage of students who used an electronic vapor product in the past 30 days	91
Table 77. Among students who have used vapor products, the percentage who used them because friend(s) or family used them	92
Table 78. Among students who have used vapor products, the percentage who used them because they were trying to quit other tobacco products.....	93
Table 79. Among students who have used vapor products, the percentage who used them because they cost less than other tobacco products	94
Table 80. Among students who have used vapor products, the percentage who used them because it is easier to get them than other tobacco products	95
Table 81. Among students who have used vapor products, the percentage who used them because they are less harmful than other tobacco products...	96
Table 82. Among students who have used vapor products, the percentage who used them because they are flavored	97
Table 83. Among students who have used vapor products, the percentage who used them because they are allowed in areas where other tobacco products are not.....	98

Table 84. Among students who have used vapor products, the percentage who used them for some other reason	99
Table 85. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them in a gas station.....	100
Table 86. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them in a convenience store ...	101
Table 87. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them in a grocery store.....	102
Table 88. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them in a drug store.....	103
Table 89. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them from a vending machine..	104
Table 90. Among underage students who used electronic vapor products in the past 30 days, the percentage who got them on the internet	105
Table 91. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them through the mail.....	106
Table 92. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them some other way.....	107
Table 93. Among underage student who used electronic vapor products in the past 30 days, the percentage who bought them in a store	108
Table 94. Among students who used electronic vapor products in the past 30 days, the percentage who tried to quit in the past 12 months	109
Table 95. Percentage of students who feel it would be sort of easy or very easy to get electronic vapor products if they wanted	110
Table 96. Percentage of students who think people who use electronic vapor products every day have a moderate or great risk of harm.....	111
Table 97. Percentage of students who think it is wrong or very wrong for someone of the same age to use electronic vapor products.....	112
Table 98. Percentage of students who think most adults in their neighborhood think kids using electronic vapor products is wrong or very wrong.....	113
Table 99. Percentage of students who think parents or guardians would feel it is wrong or very wrong for you to use electronic vapor products	114
Table 100. Percentage of students who think 5 or more out of every 10 students at school use electronic vapor products.....	115
Table 101. Among those underage students who tried to buy tobacco or vaping products in a store, the percent who were not refused because of age	116
Table 102. Percentage of students who think breathing second hand vapor has a moderate or great risk	117
Table 103. Percentage of students who were inside their home while someone was smoking a cigarette, cigar, pipe, or using an electronic vapor product for one or more days in the past 7 days.....	118
Table 104. Percentage of students who were inside their car while their parents or guardian was smoking a cigarette, cigar, pipe, or using an electronic vapor product for one or more days in the past 7 days.....	119

Alcohol

Table 105. Percentage of students who had their first drink of alcohol, other than a few sips, before age 13	120
Table 106. Percentage of students who had at least one drink of alcohol on one or more of the past 30 days	121

Table 107. Among students who drank alcohol during the past 30 days, the percentage who had 3 or more drinks in a row within a couple of hours.....	122
Table 108. Percentage of students who thought 5 or more out of every 10 students in the same grade had 5 or more drinks on at least one day in the past 30 days	123
Table 109. Percentage of students who feel it would be sort of easy or very easy to get alcohol if they wanted	124
Table 110. Percentage of students who think people who have one or two drinks nearly every day have moderate or great risk of harm	125
Table 111. Percentage of students who think it is wrong or very wrong for someone the same age to drink alcohol regularly (at least once or twice per month).....	126
Table 112. Percentage of students who think their parents or guardians would feel it is wrong or very wrong if they drank alcohol regularly (at least once or twice per month)	127
Table 113. Percentage of students who think adults (over 21) in their neighborhood think it is wrong/very wrong for kids to drink alcohol	128
Table 114. Percentage of students who said their parents or guardians would catch them if they drank beer, wine or hard liquor without permission ..	129

Marijuana

Table 115. Percentage of students who used marijuana one or more times during their life	130
Table 116. Percentage of students who tried marijuana for the first time before age 13	131
Table 117. Percentage of students who used marijuana one or more times during the past 30 days	132
Table 118. Among students who used marijuana in the past 30 days, the percentage who smoked it.....	133
Table 119. Among students who used marijuana in the past 30 days, the percentage who ate it.....	134
Table 120. Among students who used marijuana in the past 30 days, the percentage who vaporized it.....	135
Table 121. Among students who used marijuana in the past 30 days, the percentage who dabbled it.....	136
Table 122. Among students who used marijuana in the past 30 days, the percentage that used it in other ways	137
Table 123. Among students who used marijuana in the past 30 days, the percentage that usually smoked it	138
Table 124. Among students who used marijuana in the past 30 days, the percentage that usually got it from an adult	139
Table 125. Among students who used marijuana in the past 30 days, the percentage that used THC concentrates, hash oil, or waxes 1+ times past 30 days	140
Table 126. Percentage of students who feel it would be sort of easy or very easy to get marijuana if they wanted	141
Table 127. Percentage of students who thought 5 or more out of every 10 students in their grade used marijuana in the past 30 days.....	142
Table 128. Percentage of students who think people who use marijuana regularly have moderate or great risk of harm	143

Table 129. Percentage of students who think it is wrong or very wrong for someone of the same age to use marijuana	144
Table 130. Percentage of students who think their parents or guardians feel it is wrong or very wrong if they used marijuana	145
Table 131. Percentage of students who think adults (over 21) in their neighborhood think it is wrong or very wrong for kids to use marijuana	146

Other Drugs

Table 132. Percentage of students who have taken prescription pain medicine without a doctor's prescription one or more time during their life	147
Table 133. Percentage of students who took prescription pain medicine without a doctor's prescription one or more times in the past 30 days	148
Table 134. Percentage of students who think it is sort of or very easy to get prescription drugs without a prescription	149
Table 135. Percentage of students who think it is wrong or very wrong to use prescription drugs without a prescription	150
Table 136. Percentage of students who used any form of cocaine one or more times during their life.....	151
Table 137. Percentage of students who sniffed glue, breathed the contents of aerosol spray cans, or inhaled any paints or sprays to get high one or more time in their life	152
Table 138. Percentage of students who used heroin one or more times during their life.....	153
Table 139. Percentage of students who used methamphetamines one or more times during their life.....	154
Table 140. Percentage of students who used ecstasy one or more time during their life	155
Table 141. Percentage of students who have never used drugs.....	156
Table 142. Percentage of students who feel it would be sort of easy or very easy to get drugs like cocaine, LSD, or amphetamines if they wanted.....	157
Table 143. Percentage of students who were offered, sold, or given an illegal drug on school property during the past 12 months	158
Table 144. Percentage of students who used substances to experiement in the past 12 months.....	159
Table 145. Percentage of students who used substances to feel good past 12 months.....	160
Table 146. Percentage of students who used substances to have a good time with friend in the past 12 months.....	161
Table 147. Percentage of students who used substances because of boredom in the past 12 months.....	162
Table 148. Percentage of students who used substances because they're "hooked" in the past 12 months.....	163
Table 149. Percentage of students who used substances because they don't know how to say no in the past 12 months.....	164
Table 150. Percentage of students who used substances to cope in the past 12 months.....	165
Table 151. Percentage of students who used substances to gain acceptance of peers in the past 12 months.....	166
Table 152. Percentage of students who used substances because it feels socially acceptable in the past 12 months.....	167
Table 153. Percentage of students who used substances for some other reason in the past 12 months.....	168

Sexual Health

Table 154. Percentage of students who have ever had sexual intercourse	169
Table 155. Percentage of students who had sexual intercourse for the first time before the age 13	170
Table 156. Percentage of students who have had sexual intercourse with one or more people during the past three months	171
Table 157. Among students who had sexual intercourse during the past three months, the percentage who drank alcohol or used drugs before the last sexual intercourse	172
Table 158. Among students who had sexual intercourse during the past three months, the percentage who used a condom during the last sexual intercourse	173
Table 159. Among students who had sexual intercourse during the past three months, the percentage who used birth control pill to prevent pregnancy before the last sexual intercourse.....	174

Nutrition

Table 160. Percentage of students who drank 100% fruit juice one or more times per day in the past seven days.....	175
Table 161. Percentage of students who ate fruit one or more times per day in the past seven days	176
Table 162. Percentage of students who ate vegetables one or more times per day in the past seven days	177
Table 163. Percentage of students who drank a can, bottle, or glass of soda or pop one or more times per day in the past seven days	178
Table 164. Percentage of students who drank a sports drink one or more times in the past 7 days.....	179
Table 165. Percentage of students who drank an energy drink one or more times in the past 7 days.....	180
Table 166. Percentage of students who drank some other sweetened beverage one or more times in the past 7 days.....	181
Table 167. Percentage of students who drank a diet soda one or more times in the past 7 days.....	182
Table 168. Percentage of students who drank water one or more times in the past 7 days.....	183
Table 169. Percentage of students who drank something other than sports drink, energy drink, or other sweetened beverages one or more times in the past 7 days.....	184
Table 170. Percentage of students who drank a sports drink, energy drink, or other sweetened beverages one or more times in the past 7 days.....	185
Table 171. Percentage of student who ate breakfast on all of the past seven days	186
Table 172. Percentage of students who went hungry in the past 30 days sometimes, most of the time, or always because of a lack of food at home.....	187

Physical Activity and Sedentary Behavior

Table 173. Percentage of students who were physically active for a total of at least 60 minutes per day on five or more of the past 7 days	188
Table 174. Percentage of students who spend 3+ hours per average school day in front of TV, computer, smart phone, or other electronic device for something other than schoolwork	189
Table 175. Percentage of students who could walk or ride a bike, scooter, or skateboard to school if they wanted to.....	190
Table 176. Percentage of students who walk or ride a bike to school one or more days in an average week.....	191
Table 177. Percentage of students who attended physical education (PE) classes on one or more days in an average week	192
Table 178. Percentages of students who played on one or more sports teams during the past 12 months	193
Table 179. Percentage of students who has a concussion in the past 12 months from playing sports or being physically active.....	194

Home Life

Table 180. Percentage of students who usually slept in the home of a friend, family member, or other person during the past 30 days	195
Table 181. Percentage of students who usually slept in a shelter or emergency housing during the past 30 days	196
Table 182. Percentage of students who usually slept in a motel or hotel during the past 30 days	197
Table 183. Percentage of students who usually slept in a car, park, campground, or other public place during the past 30 days	198
Table 184. Percentage of students who did not have a usual place to sleep during the past 30 days	199
Table 185. Percentage of students who usually slept somewhere other than their home during the past 30 days	200
Table 186. Percentage of students who feel the rules in their family are clear	201
Table 187. Percentage of student who would ask their parents or guardians for help with a personal problem	202
Table 188. Percentage of students who have parents or guardians that ask if their homework is done.....	203
Table 189. Percentage of students who think they would be caught by their parents or guardians for skipping school	204
Table 190. Percentage of students who have chances to do fun things with their parents or guardians.....	205
Table 191. Percentage of students who have parents or guardians who ask student what they think before most family decisions	206
Table 192. Percentage of students who feel safe in their neighborhood always or most of the time	207

School

Table 193. Percentage of students who think their grades are better than most students in class	208
Table 194. Percentage of students who participated in organized community service as a non-paid volunteer one or more times during the past 30 days	209
Table 195. Percentage of students who participate in extracurricular activities at school.....	210
Table 196. Percentage of students who skipped one or more whole days of school during the past four weeks	211
Table 197. Percentage of students who feel safe at school.....	212
Table 198. Percentage of students who think it is important to go to college, technical or vocational school.....	213
Table 199. Percentage of students who think their school lets their parents or guardians know when they have done something well.....	214
Table 200. Percentage of students who think their teacher notices when they do a good job and lets them know about it	215
Table 201. Percentage of students who think most of their classes are fairly/quite/very interesting and stimulating	216
Table 202. Percentage of students who think the things they are learning in school are going to be important for later in life	217
Table 203. Percentage of students who often tried to do their best work in school over the last year.....	218
Table 204. Percentage of students who often enjoyed being in school over the last year	219
Table 205. Percentage of students who feel like they belong at school over the last year.....	220

Health

Table 206. Percentage of students who sleep eight or more hours per night on average school nights.....	221
Table 207. Percentage of students who could easily/sort of easily get a gun.....	222
Table 208. Percentage of students who could fire a loaded gun without adult permission in less than an hour.....	223
Table 209. Percentage of students who had difficulty when biting or chewing foods due to problems with their mouth or teeth in past 12 months.....	224
Table 210. Percentage of students who avoided smiling due to problems with their mouth or teeth in past 12 months.....	225
Table 211. Percentage of students who felt anxious or embarrassed due to problems with their mouth or teeth in past 12 months.....	226
Table 212. Percentage of students who missed school because of mouth or teeth pain or discomfort in past 12 months.....	227
Table 213. Percentage of students who had problems sleeping because of mouth or teeth in past 12 months.....	228
Table 214. Percentage of students who experienced pain in mouth or teeth in past 12 months.....	229
Table 215. Percentage of students who had difficulty when biting or chewing foods in past 12 months.....	230
Table 216. Percentage of students who had been told by doctor/nurse they had asthma in past 12 months.....	231

Racism

Table 217. Percentage of students who had been treated badly or unfairly in school because of their race or ethnicity in past 12 months.....	232
Table 218. Percentage of students who had been watched closely or followed around by security guards or store clerks at a store or mall because of their race or ethnicity in past 12 months.....	233
Table 219. Percentage of students where people assumed they were less intelligent because of their race or ethnicity in past 12 months.....	234
Table 220. Percentage of students who saw family members treated unfairly because of their race or ethnicity in past 12 months.....	235

COVID - 19

Table 221. Percentage of students who always, most of the time, or sometimes had poor mental health during the COVID-19 pandemic.....	236
