UNDERSTANDING THE HEALTHY KIDS COLORADO SURVEY SCHOOL AND DISTRICT REPORTS

Background

The Healthy Kids Colorado Survey (HKCS) collects anonymous health information from middle and high school students throughout the state. The HKCS is conducted during odd-numbered years, most recently in the fall of 2021. Nearly 100,000 students in over 500 middle and high schools participated in the fall 2021 survey. The questionnaire measures a wide range of health behaviors and outcomes that affect the health of young people including: physical activity, nutrition, health care, bullying, mental health, tobacco and substance use, sexual health (high school only), and family and school protective factors. The HKCS is informed by the Colorado Departments of Public Health and Environment (CDPHE), Education (CDE) Human Services (CDHS), and Public Safety (CDPS). The survey is administered by Colorado School of Public Health (CSPH) at the University of Colorado Anschutz Medical Campus.

Questionnaire, Parental Consent, and Survey Administration

The majority of the HKCS questions are drawn from the Centers for Disease Control and Prevention (CDC) Youth Risk Behavior Surveillance System (YRBSS), the nation's largest adolescent health survey which has been ongoing for more than 25 years. Other questions in the HKCS have been added with community input to meet additional data needs in Colorado.

The questionnaire is available in English and Spanish, consists of 70 questions, and takes about 45 minutes, or one class period to complete. Starting in 2019, students are able to complete the survey either online or by paper and pencil, depending on school or district preference. Teachers are given instructions to provide to students that emphasize the anonymous and voluntary nature of the survey. Parental consent procedures are followed according to each district's guidelines, with a minimum of two weeks notification in advance of the administration date.

The HKCS selects a sample of schools to represent the state of Colorado. The HKCS is also available to other schools at no cost. Many schools choose to participate in order to receive local data to track important health behaviors and protective factors. Within selected schools, a sample of classrooms is selected to participate in order to minimize the time commitment from schools. If a parent chooses not to allow their child to participate, or if the student declines to participate, they are asked to sit quietly at their desk and work on other school work.

EXAMPLE: How to Read a Table

2019 HEALTHY KIDS COLORADO SURVEY RESULTS
XXX District

Number of Responses: 995

Table 2. Percentage of students who were physically active for a total of at least 60 minutes per day on five or more of the past seven days

		Percentage (%)*	95% Confidence Interval
	Total	66.0	(58.5 - 73.5)
Sex	Female	66.9	(57.5 - 76.3)
	Male	65.6	(58.9 - 72.2)
Grade	6th	53.5	(45.1 - 61.9)

D. 95% confidence interval

A. Health behavior includes the table number and a description of the behavior being reported.

B. Estimate or Percentage: Percentage of students who reported a given behavior or answer. A period (.) appears whenever results meet the suppression criteria and are not shown to protect student confidentiality.

C. Total number of student responses: The number of students in the school or district who answered the question being reported. Some students may have chosen to skip some questions, for a variety of reasons.

D. 95% confidence interval: These numbers define the range that most likely contains the true percentage for your school or district. These intervals are also called “margins of error” and indicate the precision of the estimate – a larger range indicates less precision, a smaller range indicates more precision.

Key Definitions

Weighting: The results in the current report are adjusted (“weighted”) so that the answers can represent all students in your school or district. The process of weighting takes into account each participating student’s probability of selection and matches the participant group to the total enrollment by grade, sex, and race/ethnicity.

Student Response Rate: The total number of participating students out of all sampled students in the district, for both sampled and opt-in schools. The calculation for district student response rate was adjusted in 2019 to include students from both opt-in and sampled schools. Previously, only sampled schools were included. Information on the number of participating schools is provided below Table 1.

Confidentiality: In order to protect confidentiality, student responses are not released if they might allow someone to identify individual students. A period (.) appears whenever results meet certain suppression criteria used to maintain confidentiality. Our suppression criteria include results of 0% or 100%; results where the numerator has fewer than 3 students (e.g., the number of students who answered ‘yes’), or the number in the denominator is 30 or fewer (e.g., the number of students who answered the question).

Considerations When Using the Report

The results of your school or district can be compared to the state or regional estimates (to be released in the Summer of 2020). When comparing a school or district estimate to a regional or state estimate, examine the 95% confidence intervals. If they overlap, there is no scientific evidence to believe the estimates are different. If they do not overlap, there is high confidence that the estimates are different (“statistically significant”). For statistically significant differences, judgment is needed to decide whether the size of the difference is meaningful and important.

Technical Assistance

The HKCS team at the Colorado School of Public Health can help you:

- **Understand your report.** We are happy to meet or talk with you about any aspect of your report including understanding the nuts and bolts to identifying the most important indicators.
- **Conduct additional and customized analysis of your data.** We are happy to talk with you about custom analysis. Please note that additional analysis can sometimes be limited based on the sample size. As a general rule of thumb, if there are fewer than 100 respondents, there is a limited number of categories that can be used to look at results. Several hundred respondents are typically necessary for estimates with smaller subgroups. Therefore, custom analysis may be possible with district-level data but not always with school-level data.
- **Prepare a presentation of the data.** We can create a customized Power Point presentation according to your needs.
- **Present or co-present your data.** We are available to travel to your location or be available by webinar/teleconference.

For further assistance please contact the Healthy Kids Colorado Survey team at hkcs@ucdenver.edu.

TABLE OF CONTENTS

Introduction

Background	2
Questionnaire, Parent Consent, and Survey Administration Background	2
EXAMPLE: How to Read a Table	3
Key Definitions	3
Technical Assistance	4

Demographics

Table 1. Sample Demographics	11
------------------------------------	----

Safety and Violence

Table 2. Among students who ride a bicycle, the percentage who never or rarely wear a bicycle helmet	12
Table 3. Percentage of students who never/rarely wear a seat belt while riding in a car	13
Table 4. Percentage of students who ever rode in a car driven by someone who had been drinking alcohol	14
Table 5. Percentage of students who ever carried a weapon such as a gun, knife, or club	15
Table 6. Percentage of students who have ever been in a physical fight	16
Table 7. Percentage of students who did not go to school on one or more of the past 30 days because they felt they would be unsafe at school or on their way to or from school	17
Table 8. Among students who dated or went out with someone during the past 12 months, the percentage who had been physically hurt on purpose by someone they were dating or going out with one or more times	18
Table 9. Among students who dated or went out with someone during the past 12 months, the percentage who had been physically hurt on purpose by someone they were dating or going out with one or more times	19

Consent

Table 10. Percentage of students who had a sexual experience where they were unsure if they gave their fully-granted consent to the other person	20
Table 11. Percentage of students who had a sexual experience where they were unsure if they received fully-granted consent from the other person	21
Table 12. Percentage of students who had a revealing or sexual photo or video of themselves texted, e-mailed, or posted electronically without their permission in the past 12 months	22

Table 13. Percentage of students who have made sexual comments, jokes, gestures, or looks at someone when unwanted	23
Table 14. Percentage of students who touched, grabbed, or pinched someone in a sexual way when unwanted	24
Table 15. Percentage of students who had ever been physically forced to have sexual intercourse when they did not want to	25
Table 16. Percentage of students who have forced someone to have sex when it was unwanted (i.e., rape)	26

Bullying

Table 17. Percentage of students who had ever been bullied on school property during the past 12 months	27
Table 18. Among student bullied on school property, percentage who were bullied in a classroom	28
Table 19. Among student bullied on school property, percentage who were bullied in a hallway or stairwell	29
Table 20. Among student bullied on school property, percentage who were bullied in locker room or bathroom	30
Table 21. Among student bullied on school property, percentage who were bullied in a cafeteria or lunch room.....	31
Table 22. Among student bullied on school property, percentage who were bullied on a bus or at a bus stop	32
Table 23. Among student bullied on school property, percentage who were bullied outside before school	33
Table 24. Among student bullied on school property, percentage who were bullied outside after school	34
Table 25. Among student bullied on school property, percentage who were bullied outside during lunch or break	35
Table 26. Among students bullied on school property, the percentage who were bullied somewhere else	36
Table 27. Among students bullied on school property, the percentage who were bullied on a bus, at a bus stop, or outside before school, outside during lunch or break, or outside after school	37
Table 28. Percentage of students who had ever been electronically bullied	38
Table 29. Among students bullied in past 12 months, the percentage who were called names or insulted in hurtful way	39
Table 30. Among students bullied in past 12 months, the percentage who had rumors spread about them.....	40
Table 31. Among students bullied in past 12 months, the percentage who were threatened	41
Table 32. Among students bullied in past 12 months, the percentage who were pushed, shoved, tripped, or spit on	42
Table 33. Among students bullied in past 12 months, the percentage who were pressured into doing something they did not want to do	43
Table 34. Among students bullied in past 12 months, the percentage who were not included in activities on purpose	44
Table 35. Among students bullied in past 12 months, the percentage who had personal property damaged on purpose	45
Table 36. Among students bullied in past 12 months, percentage who were called names or insulted, had rumors spread about them, were pressured to do something, or were excluded	46

Table 37. Among students bullied in past 12 months, percentage who were pushed, threatened or had property destroyed	47
Table 38. Percentage of students who had been teased or name called because of perceived sexual orientation during the past 12 months	48
Table 39. Percentage of students who saw someone else being bullied on school property in past 30 days	49

Mental Health

Table 40. Percentage of students who strongly agree or agree their stress level is manageable most days	50
Table 41. Percentage of students who take 2 or fewer days to feel fully recovered after a stressful situation	51
Table 42. Percentage of students who felt so sad or hopeless almost every day for two weeks or more in a row during the past 12 months that they stopped doing some usual activities	52
Table 43. Percentage of students who ever seriously thought about killing themselves	53
Table 44. Percentage of students who ever made a plan about how they would kill themselves	54
Table 45. Percentage of students who ever tried to kill themselves	55
Table 46. Percentage of students who have an adult to go to for help with a serious problem.....	56

Tobacco

Table 47. Percentage of students who ever tried cigarette smoking, even one or two puffs	57
Table 48. Percentage of students who ever smoked a whole cigarette before the age of 11	58
Table 49. Percentage of students who smoked cigarettes on one or more of the past 30 days	59
Table 50. Percentage of students who feel it would be sort of easy or very easy to get cigarettes if they wanted	60
Table 51. Among students who were younger than 16 and who reported current cigarette use, the percentage who usually got their own cigarettes by buying them in a store or gas station during the past 30 days	61
Table 52. Percentage of students who think people who smoke one or more packs of cigarettes per day have a moderate or great risk of harm	62
Table 53. Percentage of students who think their parents or guardians would feel it is wrong or very wrong if they smoked cigarettes.....	63
Table 54. Percentage of students who have ever used an electronic vapor product	64
Table 55. Percentage of students who used an electronic vapor product in the past 30 days	65
Table 56. Percentage of students who think people who use electronic vapor products every day have a moderate or great risk of harm	66
Table 57. Percent of students who think it is wrong or very wrong for someone their age to use electronic vapor products	67

Alcohol

Table 58. Percentage of students who had ever had a drink of alcohol, other than a few sips	68
Table 59. Percentage of students who had their first drink of alcohol, other than a few sips, before the age of 11	69

Table 60. Percentage of students who had at least one drink of alcohol on one or more of the past 30 days	70
Table 61. Percentage of students who thought 5 or more out of every 10 students in their grade drank alcohol in past 30 days	71
Table 62. Percentage of students who feel it would be sort of easy or very easy to get alcohol if they wanted	72
Table 63. Percentage of students who think people who drink one or two drinks nearly every day have moderate or great risk of harm	73
Table 64. Percentage of students who think it is wrong or very wrong for someone the same age to drink alcohol regularly (at least once or twice per month)	74
Table 65. Percentage of students who think their parents or guardians would feel it is wrong or very wrong if they drank alcohol regularly (once or twice per month)	75

Marijuana

Table 66. Percentage of students who have ever used marijuana	76
Table 67. Percentage of students who tried marijuana for the first time before the age of 11	77
Table 68. Percentage of students who used marijuana one or more times during the past 30 days	78
Table 69. Percentage of students who thought 5 or more out of every 10 students in their grade used marijuana in past 30 days	79
Table 70. Percentage of students who feel it would be sort of easy or very easy to get marijuana if they wanted	80
Table 71. Percentage of students who think people who use marijuana regularly have moderate or great risk of harm	81
Table 72. Percentage of students who think it is wrong or very wrong for someone same age to use marijuana	82
Table 73. Percentage of students who think their parents would feel it is wrong or very wrong if they used marijuana	83

Other Drugs

Table 74. Percentage of students who ever sniffed glue, breathed the contents of spray cans, or inhaled any paints or sprays to get high	84
Table 75. Percentage of students who ever took a prescription pain medicine without a doctor's prescription	85
Table 76. Percentage of students who feel it would be sort of easy or very easy to get drugs like cocaine, LSD, amphetamines, or another illegal drug, if they wanted	86

Sexual Health

Table 77. Percentage of students who have ever had sexual intercourse	87
Table 78. Percentage of students who had sexual intercourse before the age of 11	88
Table 79. Percentage of students who drank alcohol or used drugs before sexual intercourse the last time	89
Table 80. Percentage of students who used a condom or their partner used a condom during sexual intercourse the last time	90

Nutrition

Table 81. Percentage of students who ate fruit one or more times per day in the past seven days	91
Table 82. Percentage of students who ate vegetables such as green salad, potatoes, carrots, or other vegetables one or more times per day in the past seven days	92
Table 83. Percentage of students who drank a can, bottle, or glass of soda or pop one or more times per day during the past 7 days	93
Table 84. Percentage of students who drank a sports drink one or more times per day in the past 7 days	94
Table 85. Percentage of students who drank an energy drink one or more times per day in the past 7 days	95
Table 86. Percentage of students who drank some other sugar-sweetened beverage one or more times per day in the past 7 days	96
Table 87. Percentage of students who drank a diet soda one or more times per day in the past 7 days	97
Table 88. Percentage of students who drank water one or more times per day in the past 7 days	98
Table 89. Percentage of students who drank something else besides sports drinks, energy drinks, another sweetened beverage, diet soda, and water one or more times in the last 7 days	99
Table 90. Percentage of students who drank a sports drink, energy drink, or other sweetened beverage one or more times in the past 7 days	100
Table 91. Percentage of students who ate breakfast on all of the past 7 days	101

Physical Activity and Other Health Topics

Table 92. Percentage of students who played video or computer games, spent time on social media, or used a computer or phone for something that was not school work for three or more hours on an average school day	102
Table 93. Percentage of students who were physically active for a total of at least 60 minutes per day on five or more of the past seven days	103
Table 94. Percentage of students who attended physical education (PE) classes on one or more days in an average week	104
Table 95. Percentage of students who played on one or more sports teams during the past 12 months	105
Table 96. Percentage of students who had ever been told by a doctor or nurse that they had asthma	106
Table 97. Percentage of students who most of the time or always feel safe in their neighborhood	107
Table 98. Percentage of students who usually slept at the home of friend, family member or other person during the past 30 days	108
Table 99. Percentage of students who usually slept at a shelter or emergency housing during past 30 days	109
Table 100. Percentage of students who usually slept at a motel or hotel during past 30 days	110
Table 101. Percentage of students who usually slept in car, park, campground or other public place during past 30 days	111
Table 102. Percentage of students who did not have a usual place to sleep during past 30 days	112
Table 103. Percentage of students who did not usually sleep at home during past 30 days	113

Table 104. Percentage of students who could easily or sort of easily get a gun	114
Table 105. Percentage of students who could fire a loaded gun without adult permission in less than 1 hour	115

School

Table 106. Percentage of students who agree or strongly agree that they belong at their school	116
Table 107. Percentage of students who say their school grades are better than most students in their class	117
Table 108. Percentage of students who participate in extracurricular activities at school	118
Table 109. Percentage of students who think it is important to finish high school	119

Racism

Table 110. Percentage who were treated badly or unfairly in school because of their race or ethnicity in the past 12 months	120
Table 111. Percentage who were watched closely or followed by security guards or store clerks at a store or mall because of their race or ethnicity in the past 12 months	121
Table 112. Percentage who were assumed less intelligent because of their race or ethnicity in the past 12 months	122
Table 113. Percentage who saw family members treated unfairly because of their race or ethnicity in the past 12 months	123

COVID-19

Table 114. Percentage of students who sometimes, most of the time, or always had poor mental health during the COVID-19 pandemic	124
Table 115. Among students whose parents had a job before the pandemic started, the percentage who had a parent or other adult at home lose their job during the COVID-19 pandemic	125
Table 116. Percentage of students who sometimes, most of the time, or always went hungry because there was not enough food in the home during the COVID-19 pandemic	126
Table 117. Percentage of students who agree or strongly agree that doing schoolwork was more difficult during the COVID-19 pandemic than before the pandemic started	127
Table 118. Percentage of students who were sometimes, most of the time, or always put down, insulted, or sworn at by a parent or other adult in the home during the COVID-19 pandemic	128
Table 119. Percentage of students who were sometimes, most of the time, or always physically hurt by a parent or other adult in the home during the COVID-19 pandemic	129
