

YOU HAVE THE POWER

To Keep Yourself and Others Safe When E-biking

CONTROL YOUR SPEED AND BRAKING

Get comfortable with your e-bike's speed controller and brakes • Follow posted speed limits • Practice to ensure safe e-biking in different settings, especially around groups of pedestrians

KNOW YOUR TRAFFIC LAWS

Only carry a passenger if you have a passenger seat • Use of white headlights and red taillights • If on or next to a road, ride in the same direction as others • Colorado laws vary by age in reference to Safety Stops and what e-bike class (1,2, or 3) you can ride

BE A PROACTIVE E-BIKER

Wear a well-fitted protective helmet • Stay aware of other riders and cars and never assume they see you • Limit distractions (No cell phones or ear buds) • Do safety and maintenance checks regularly

BE A COURTEOUS E-BIKER

Slow down and announce yourself before passing on the left of a nearby group or person • Slow down for appropriate use of dismount zones • Use turn-signals (electronic or hand) • Make eye contact with drivers and others when you enter and exit intersections

**Please note, motorbikes are not e-bikes.*
