NOTICE OF POSAC PUBLIC MEETING AND SITE VISIT

On Sept. 12, Parks & Open Space Advisory Committee (POSAC) members will visit the Prescott Wetland restoration area, above Peaceful Valley, which was completed in October of 2024. This will be followed by a second site visit to see the restoration work on Sherwood Creek at the Conger Mine site, west of Mud Lake. Attendees will travel in vans, leaving at 8:30 a.m., from the Ron Stewart Parks & Open Space building, 5201 St Vrain Rd, Longmont. The full tour will take approximately 5-6 hours.

Space is limited and registration is required. Please register at boco.org/posacvisit. Attendees will hike approximately 3 miles round trip on uneven and sometimes steep terrain. An Off-Highway Vehicle (OHV) will be available to carry a very limited number of people who cannot do the full hike, but some hiking and other physical activity will still be necessary. Attendees have the option to attend just the Sherwood Creek portion of the tour, meeting the group at the Mud Lake picnic shelter between 12-12:30 p.m.

Attendees should bring drinking water, comfortable hiking shoes, snacks, and clothing for inclement weather. Lunch will be provided by St. Vrain Market. Please see the menu at stvrainmarket.com/lunch. Attendees may also bring their own lunch.

In addition to registering, please contact David Hirt at dhirt@bouldercounty.gov or 720-600-4175 to indicate where you will join the tour, place your lunch order, and to request a ride on the OHV.

This site visit will not provide an opportunity for formal public comment and is not related to a current decision that will come before POSAC.
