**Reference Number: RFP-209-25**

**Project Name: On Call Water Resources Engineering Services**

### **Background:**

The Boulder County Parks and Open Space Department is soliciting qualification proposals from firms with experienced engineering professionals to provide expert water resources engineering services on an as-needed basis to support the Parks & Open Space Department's water resource planning and engineering administration work. The County owns, manages, and holds conservation easements on over 105,000 acres of open space including an associated water rights portfolio. These water rights support 25,000 acres of agriculture production, ecosystems, recreation, and watershed restoration projects throughout the Open Space Park system. Due to the nature of the work, the consultant should be available to discuss, advise, and complete assigned tasks on an as needed basis.
