Acknowledgements

Boulder County Parks & Open Space would like to thank the volunteers and staff for the many hours they dedicated to survey collection and data entry, which were essential to the success of this study.

Additionally, the department would like to thank the visitors to the park properties who took time out of their day to stop and complete the survey.

Executive Summary

Every five years, Boulder County Parks & Open Space (BCPOS) conducts a system-wide demographics and satisfaction survey.

These Five Year Studies (5YS) complement the regular annual studies and look at long-term trends in visitor demographics, preferences, attitudes, and behaviors.

Because of the COVID-19 pandemic, the previous study planned for 2020 was delayed a year and surveys were collected in 2021. To return to the original survey schedule, it has only been four years since the previous survey.

Trained BCPOS staff and volunteers collected 2,594 surveys (response rate 71%) at 15 park properties. Surveys for BCPOS regional and neighborhood trails will be collected in the spring and summer of 2027.

The key findings from this survey indicate that the average visitor to BCPOS park properties:

- Lives in Boulder County (74%) and has lived there for 10 or more years (62%)
- Typically lives in Boulder (23%) or Longmont (21%)
- Is between 25-44 years-old (37%), 45-65 years-old (36%), or 65 years and older (20%)
- Self-identifies as white (93%)
- Traveled to a BCPOS park by car (86%) with an average of two people per vehicle

About one in four visitors sought information about the park prior to their visit (25%) and were most likely to get information from the BCPOS website (36%) or a trail or park app (33%).

Visitors to BCPOS park properties tend to visit either with family (44%) or by themselves (35%). If it was not their first time visiting a park this year (30%), they generally visited the trails frequently (43% visited parks monthly, weekly, or more than once a week).

Visitors found it to be very easy or easy to park (85%) and nine out of 10 were able to park at the trailhead (93%). Nonetheless, the most frequently suggested improvement to parks was to provide more parking (165 responses).

The visitor was primarily hiking (55%) or biking (21%). The average visitor did not experience conflict with other visitors on the trail (94%). Seven out of 10 visitors reported that the trailhead and trail were not at all crowded (70% at the trailhead and 71% on the trail).

Thinking only of the park they were visiting, 72% of visitors reported that park had about the right number of trails. Half of all visitors reported they strongly oppose or oppose a pilot program allowing e-bikes on select BCPOS foothills and mountain trails that already allow bike use (49%), and another quarter of visitors were neutral (25%).

On a scale of 1 (poor) to 10 (excellent), visitors rated BCPOS parks an average of 9 based on their aesthetic beauty, being well maintained or clean, and good trails (2,032 responses). This data and more are presented in this report.

Introduction

Purpose

Every five years BCPOS conducts a system-wide survey. The objective is to collect a representative sample of park visitors to look at long-term trends and better understand:

- Demographics (e.g., place of residency, age, ethnicity)
- Visitation patterns (e.g., visitor activities, mode of transportation, frequency of visitation)
- Satisfaction with park experience and management practices
- Conflict and crowding

Background

Every year, BCPOS conducts ongoing observation studies to determine the estimated number of visits to major parks, including where and when people visit parks and trails. However, there are no records of visitors' demographic information or opinions in these annual studies. To gather more specific information about park visitors, BCPOS has conducted a complementary study every five years since 1990.

Research shows that using a mixed-methods approach, with both qualitative and quantitative questions, is the most comprehensive way to analyze visitor opinions (Creswell 2002, DeLeeuw 2005). Visitors have different preferences, motivations, attitudes, and values toward the outdoors (Scott & Shafer, 2001). Visitors to outdoor recreation areas

place value on trails and other activities as they relate to their quality of life (Jacob and Schreyer 1980, Manning 1999, Watson 2001).

Questions about visitor demographics can provide information about how BCPOS visitors reflect the greater community. The goal of the BCPOS Cultural Responsiveness and Inclusion Strategic Plan (CRISP) is to add a cultural responsiveness and inclusion lens to everything BCPOS does in engagement with the public. Over time, demographic information compared to U.S. Census data can serve as one indicator of the effectiveness of efforts and projects to improve access to underserved communities and reduce the inequity gap (Flores et al., 2018).

In 2003, BCPOS conducted a conflict study where conflict was defined by Jacob & Schreyer (1980) as “goal interference attributed to another person’s behavior,” where the “goal” is the visitor’s main reason for recreating. Current information about conflict is used to evaluate visitor satisfaction and guide appropriate management decisions. Satisfaction can be based on how closely visitor expectations match outcomes (Manning, 2001). Related to conflict, perceived crowding in parks is a subjective evaluation of visitor density (Heberlein and Vaske, 1977). By evaluating conflict and crowding, staff can implement information and education efforts to change unwanted or unsustainable behavior on trails (Schneider, 2000).

Methods

Survey Design

The questionnaire was designed for each respondent to fill out individually either on paper or with an iPad. Questions were modeled to remain consistent with previous surveys, to investigate current issues in BCPOS, and to accommodate staff requests for specific data.

Data Collection and Sampling

Historically, the study has been conducted between May and September. In 2025, we collected 2,594 surveys between May 10 and September 30. Surveys were conducted by 18 volunteers and 15 staff members for a total of 33 surveyors. Each surveyor attended a formal training session and wore a BCPOS hat and/or nametag for identification during survey shifts.

These were exit surveys. Visitors 16 years and older were eligible to participate in the survey. Visitors were contacted at predetermined locations at a property trailhead, parking lot, or inside an area without a primary access point. Visitors who agreed to complete the survey were provided either a tablet or a paper questionnaire.

Parks with multiple designated trailheads were surveyed at each trailhead (e.g., Hall Ranch, Walker Ranch). To collect a random sample, every third visitor was asked to participate in the survey on busy days, whereas an attempt to survey all visitors was made on slower days.

Survey shifts were two hours long within a four-hour window, conducted in the morning (8-11:59 a.m.), afternoon (noon-3:59 p.m.), and evening (4-7:59 p.m.). At every park, survey collection was attempted during all three time periods and on both weekdays and weekends. If a survey shift was canceled, it was rescheduled for the same time on the next available weekday or weekend day.

Accurate representation of the properties' different visitation patterns required that we collect larger samples at high-visitation locations (175 attempted surveys), moderate samples at medium-visitation locations (150 attempted surveys) and smaller samples at low-visitation locations (125 attempted surveys). Table 1 shows the sample sizes at each of the locations surveyed.

Table 1: Sample Size by Park

¹ Anne U. White Trail and Pella Crossing were not in the 2015 survey; they were closed because of the 2013 flood damage.

² Heil Valley Ranch surveys in 2021 were conducted only at the Picture Rock Trailhead due to trailhead closures for restoration after the Cal-Wood Fire. All three trailheads at Heil Valley Ranch were open and surveyed in 2025.

³The main trailhead at Lagerman Agricultural Preserve was closed for construction beginning July 14. The Open Sky Loop remained open and surveying took place at two access points to the loop.

All the BCPOS properties listed in Table 1 are categorized as parks. A sample of 2,594 surveys gave us a +/-1.9% estimated margin of error with a confidence level of 95%.

In addition to the 15 BCPOS park properties listed in Table 1, six locations categorized as regional or neighborhood trails were not surveyed in 2025: Boulder Canyon Trail, Coal Creek Trail, Rock Creek Trail, LoBo Trail, Niwot Trails, and Twin Lakes. This report shows only results from BCPOS parks collected during the spring and summer of 2025. Surveys for BCPOS regional trails and neighborhood trails will be collected in the spring and summer of 2027.

Rounding Results

For some questions, respondents were asked to “select all that apply.” When the total exceeds 100% in a graph or table for a multiple-choice question, it is because some respondents selected multiple categories. Answers for all questions were rounded to the nearest whole number. Because of rounding, some multiple-choice questions in which only one answer could be selected may not total exactly 100%.

Results

Survey staff and volunteers collected 2,632 surveys out of 3,708 attempted surveys, which resulted in an overall response rate of 71% (Table 2). Of the 2,632 surveys collected, 2,594 were completed, deemed valid, and used in the study. A total of 490 hours was spent across 245 survey sessions in the parks. As such, staff and volunteers collected about 5.3 surveys per hour.

Table 2: Survey Response Rates

	2025	2021	2015	2010	2005	2000	1995

Response Rate	71%	72%	63%	70%	58%	88%	88%

For every attempted survey that a visitor declined, staff and volunteers recorded the apparent or communicated reason for refusal of the survey. Table 3 shows the reasons given for refusing to complete the survey by observed visitor activity.

Table 3: Top Reasons for Refusal

Reason for Refusal	Hikers	Bikers	Runners	Other	Total	% of Refusals
No time	207	59	21	14	301	28%

Not interested	189	31	8	25	253	24%
Total	707	227	73	69	1,076	100%

The most common “other” reasons for refusal, in order of frequency, include:

- The visitor was with kid(s) (77)
- The visitor was with dog(s) (50)
- The visitor was too hot, hungry, not feeling well, or injured (44)
- Someone else in the visitors’ group filled out the survey⁶ (29)
- The visitor did not have their glasses⁷ (7)

⁴ In 2005, 2010, 2015, 2021, and 2025 respondents completed questionnaires instead of interviews as in 1995 and 2000.

⁵ Multiple visitors in small groups were interviewed as one; the total number of individuals here was 1,414.

⁶ Visitors were informed that the survey is designed for everyone to complete it individually.

⁷ If the surveyor was not too busy, they would offer to read the survey to the visitor.

Walker Ranch	197	53	1	251	79%
Total	2,594	1,076	38	3,708	71%

The park with the highest response rate was Bald Mountain with 85% of visitors participating in the survey. The park with the lowest response rate was Carolyn Holmberg Preserve at Rock Creek Farm with 57% of visitors participating.

Survey collection occurred in two-hour shifts during the morning, afternoon, and evening. At every park, surveys were collected across all three time periods on both weekdays and weekends. Figures 1 and 2 show the overall sampling results by day of week and time of day for all parks.

Figure 1: Sample by Day of Week

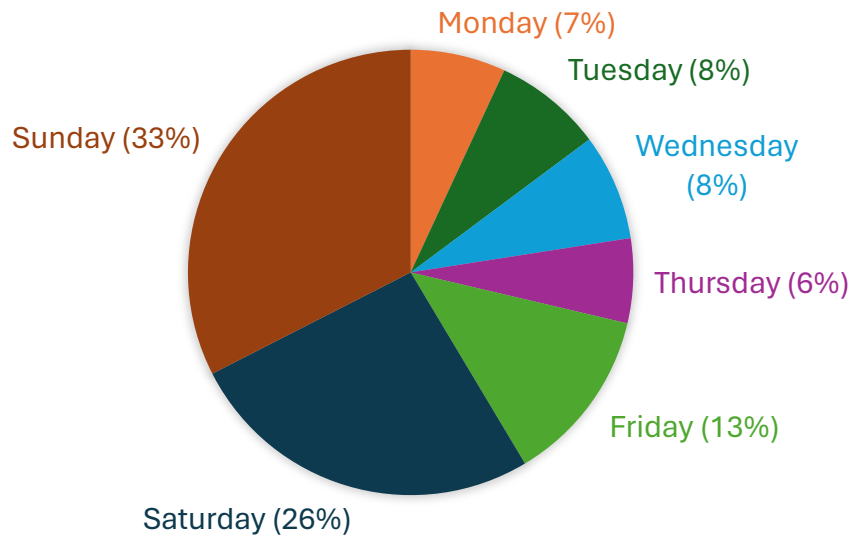

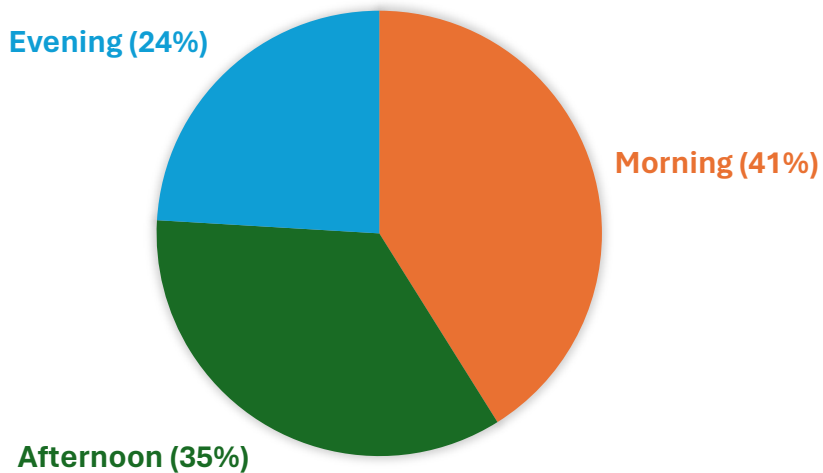

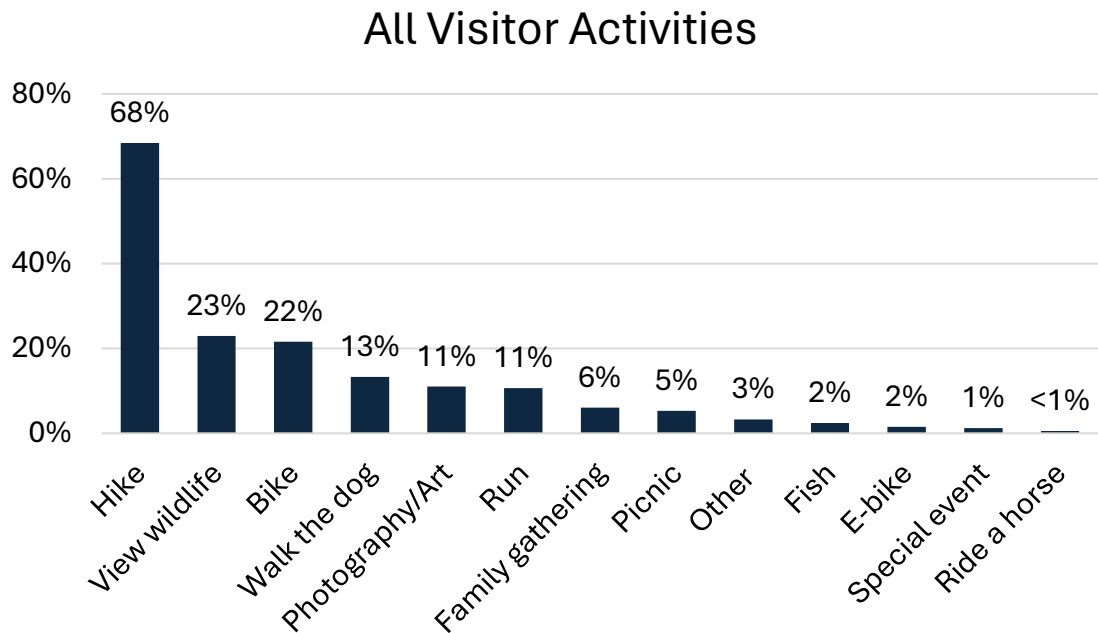

Figure 2: Sample by Time of Day

Visitor Activities

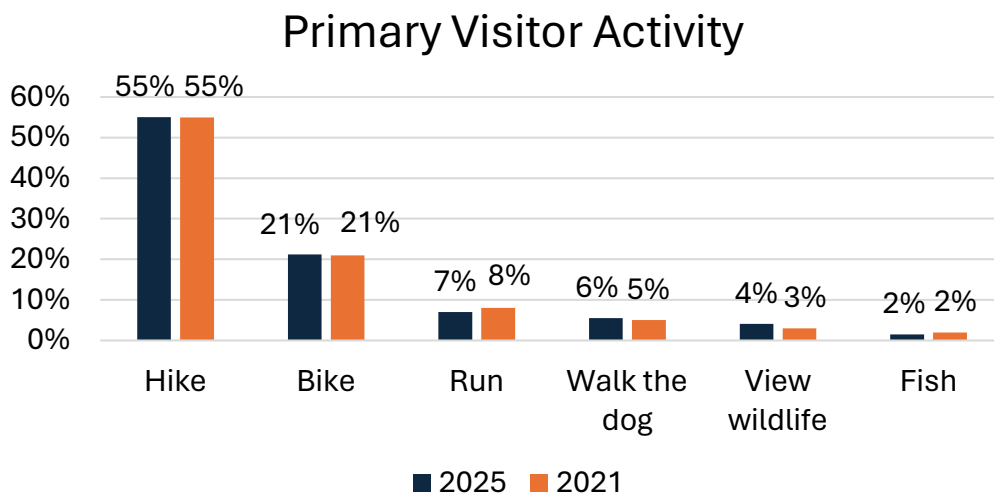

Which activities did you participate in today at this park?
(check all that apply)

Figure 3: All Visitor Activities (2,577 responses)

What was your primary activity today at this park? (check only one)

Figure 4: Primary Visitor Activity (2,266 responses)

For all activities reported that day, most remained within the survey’s margin of error; however, wildlife viewing increased by 2% (23% in 2025 compared to 21% in 2021), while running decreased by 2% (11% in 2025 compared to 13% in 2021).

The visitors’ primary activity remained consistent with the previous survey in 2021 with most visitors hiking (55%), biking (21%), and running (7%).

The list of “other” activities reported comprises a wide variety of activities including relaxing, socializing, viewing scenery and fall colors, observing plants and wildlife (wildflowers, aspens, insects, butterflies, and bumblebees), reading, meditating, berry picking, celebrating special occasions, nature appreciation, education or programs, trash pickup, HAM radio, lunch breaks, and simply passing through.

Mode of Transportation

How did you get to this park today?

Table 5: Mode of Transportation (2,499 responses)

Transport	2025	2021	2015
Vehicle	86%	89%	89%
Bike	10%	7%	8%
Hike/Walk	4%	3%	2%
Run	1%	2%	1%

There was a 3% decrease in visitors driving and a corresponding 3% increase in visitors biking to parks. The parks with the greatest percentage of visitors reporting driving include Mud Lake (99%), Legion Park (99%), Pella Crossing (98%), Ron Stewart Preserve at Rabbit Mountain (98%), and Caribou Ranch (98%). The parks with the greatest percentage of visitors that reported biking, hiking/walking, or running include Carolyn Holmberg Preserve at Rock Creek Farm (71%), Lagerman Agricultural Preserve (53%), and Coalton Trailhead (48%).

The second part of this question asked respondents who drove a vehicle to state how many people, including themselves, rode in the car. The results showed that 43% of vehicles that drove to BCPOS parks had one person, 38% of vehicles contained two people, and 20% of vehicles had three or more occupants. On average, two people occupied each vehicle driven to BCPOS parks in 2025.

Parking

How easy or difficult was it to find a parking spot?

Table 6: Parking (1,647 responses)

Parking Difficulty	2025	2021
Very Easy	59%	64%
Easy	26%	27%
Neutral	10%	7%
Difficult	4%	2%
Very Difficult	1%	<1%

For visitors that drove to the park, the vehicle driver was asked to answer how easy or difficult it was to find a parking space. Because this study was an exit survey at trailheads, visitors that could not find parking and left the property are not represented. Five percent of visitors reported that parking was difficult or very difficult.

Table 7: Parking on Weekends versus Weekdays

Parking Difficulty	Weekends (Saturday–Sunday)	Weekdays (Monday–Friday)
Very Easy	54%	66%
Easy	29%	20%
Neutral	11%	10%
Difficult	5%	3%
Very Difficult	1%	1%

Of the visitors that reported parking as difficult or very difficult, two out of three were weekend visitors. And 61% of the visitors that reported parking as difficult or very difficult were surveyed during a morning shift.

Visitors were also asked to report where they parked, and 93% reported parking in the trailhead, and 7% parked on the road. Two out of three visitors who reported parking on the road visited parks on weekends. One out of four (24%) of visitors that parked on the road outside of the trailhead also reported that parking was difficult or very difficult (27 out of 109 respondents).

Social Group

Which of the following best describes who traveled here with you today?

Table 8: Visitor Social Group (2,539 responses)

Social Group	2025	2021	2015	2010	2005	2000	1995
Just me	35%	33%	34%	37%	38%	22%	17%
Friends	23%	25%	26%	22%	25%	30%	33%
Family	44%	44%	41%	38%	34%	47%	49%
Organized Group	1%	1%	2%	2%	2%	1%	1%

Visitors could select multiple options for those who traveled with them that day. The only differences of note between 2021 and 2025 is that visiting the parks alone increased by 2%, from 33% to 35%, and visits with friends decreased by 2%, from 25% to 23%.

Seek Information

Did you seek information about this park prior to your visit today?

Table 9: Seek Information (2,527 responses)

Seek Information	2025	2010 ⁸
Yes	25%	19%
No	75%	81%

Overall, we have seen an increase in visitors seeking information compared to 2010 when this question was last asked of park visitors. One out of four park visitors sought information prior to their visit that day (25%).

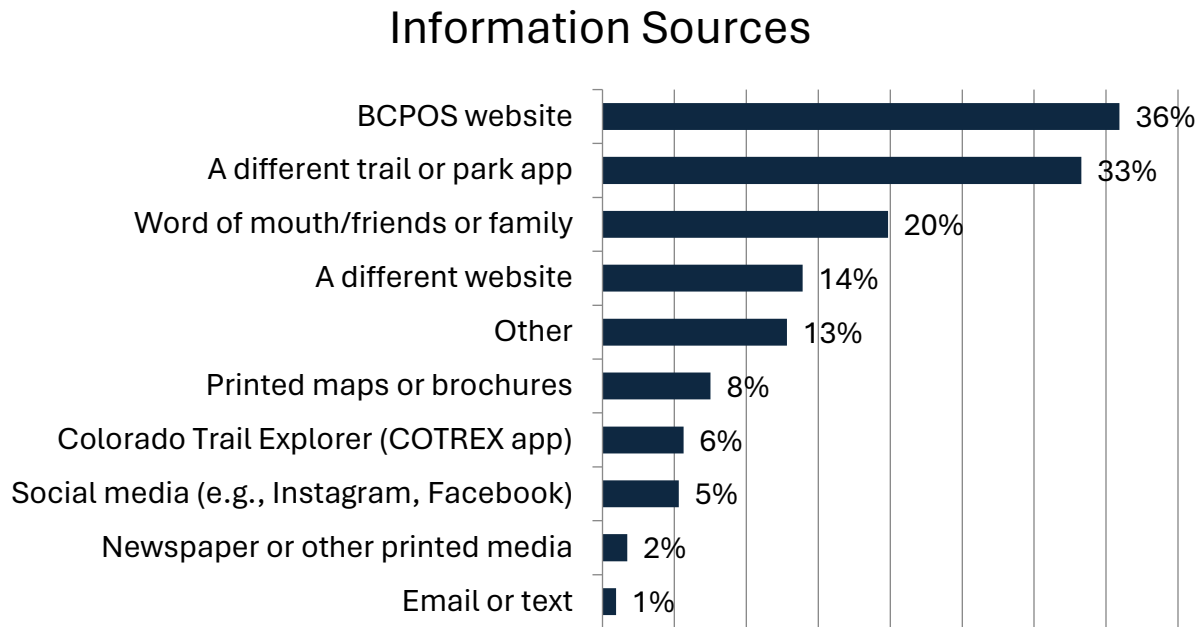

Half of all visitors that reported coming to the park for the first time that year reported seeking information. Alternatively, nine out of 10 visitors that reported visiting the park at least once a month or more frequently did not seek information prior to the visit.

⁸ In the 2010 report, the totals included blank surveys. For consistency with the 2025 data presentation, the totals were recalculated to exclude the blanks.

Parks where visitors were most likely to report seeking information prior to the visit include Walker Ranch (46%), Anne U. White Trail (39%), Caribou Ranch (32%), Betasso Preserve (31%), and Ron Stewart Preserve at Rabbit Mountain (29%). Parks where visitors were least likely to report seeking information prior to the visit include Legion Park (8%), Lagerman Agricultural Preserve (10%), Carolyn Holmberg Preserve at Rock Creek Farm (12%), Coalton Trailhead (14%), and Pella Crossing (14%).

Where did you get that information? (check all that apply)

Figure 5: Information Sources (640 responses)

Visitors that sought information were most likely to get that information from the BCPOS website (36%), a trail or park app (39% including COTREX and all other apps), or word of mouth/ friends or family (20%). In 2010, the BCPOS website (48%) and guidebooks (24%) were the primary sources of information about parks for visitors.

Frequency of Visits

In the past year, how often have you visited this park?

Table 10: Frequency of Visits (2,569 responses)

Frequency of Visits	2025	2021	2015	2010	2005	2000	1995
First time here	30%	31%	28%	24%	23%	23%	43%
Once or twice in the past year	18%	18%	13%	17%	15%	18%	8%
About once a season	9%	7%	6%	6%	5%	--	--
About once a month	18%	18%	19%	20%	19%	7%	5%
About once a week	13%	14%	14%	15%	14%	18%	20%
More than once a week	12%	13%	20%	17%	23%	25%	15%

Visitors that report recreating at BCPOS frequently (monthly, weekly, or more than once a week) is 43%. From 2021 to 2025, visitation patterns have remained consistent with only a slight 2% increase in seasonal visitors.

Park Rating

How would you rate this park overall on a scale of 1 to 10, with 1 being poor and 10 being excellent?

Table 11: Park Rating (2,573 responses)

Up 3% from 2021, 72% of visitors reported the number of trail miles that existed at the park they visited that day to be about right. Bikers and runners were more likely than hikers to report that there are not enough trails (36% of bikers and 35% of runners selected 1 or 2). Only 16% of hikers reported that there were not enough trails.

Hall Ranch (35%), Bald Mountain Scenic Area (34%), Betasso Preserve (31%), and Heil Valley Ranch (26%) had the highest overall percentage of respondents indicate that there are not enough trail miles (selected 1 or 2). Carolyn Holmberg Preserve at Rock Creek Farm (82%), Walker Ranch (81%), Walden Ponds Wildlife Habitat (79%), and Caribou Ranch (75%) were the properties that had the highest overall percentage of respondents indicate that there are about the right number of trails (selected 3).

⁹ In 2005, the question only included a 3-point scale including not enough, about right, and too many trails.

Conflicts

Sometimes, visitors interfere with one another's goals on the trail, causing unpleasant experiences. This is generally referred to as "conflict." Did you experience conflict at this park today?

Table 17: Conflict Today (2,570 responses)

Conflict Today	2025	2021	2015¹⁰	2010	2005	2003
No	94%	95%	94%	92%	97%	98%
Yes	4%	3%	5%	7%	3%	2%
Not Sure	2%	2%	2%	1%	<1%	--

In 2003, a study of recreation conflict was conducted at six BCPOS properties. In 2005, to establish information about long-term trends in conflict at parks, questions about conflict were included in the Five Year Study. In 2005, questions about conflict were open-ended, and the most common conflicts that visitors reported were coded into categories. Those categories were used in 2010 when the conflict question included a list of commonly reported conflicts and allowed visitors to select from those choices. As a result, the 2010 survey results have rates of conflict that were significantly higher than in previous studies. Visitors' ability to read through the possible conflicts and contemplate whether they experienced them may have inflated the percentage of conflicts reported by visitors. In 2015, an open-ended conflict question was reintroduced to minimize this potential bias.

Out of 2,570 respondents who answered this question, only 90 reported conflict. If the visitor reported that they did experience conflict during their visit to the park that day, they were then asked to describe the conflict in an open-ended format, with the top responses displayed in Table 18. See Appendix E (pp. 114-117) for a complete list of the conflicts reported at each park.

The properties that recorded the highest rate of conflict were Hall Ranch (7%), Lagerman Agricultural Preserve (6%), Betasso Preserve (5%), and Carolyn Holmberg Preserve (5%). Alternatively, the parks with the lowest incidence of conflict, at 1%, were Pella Crossing, Ron Stewart Preserve at Rabbit Mountain, Walden Ponds Wildlife Habitat, Bald Mountain Scenic Area, and Legion Park.

¹⁰ In 2005, 2010, and 2015, respondents that left the question blank are included as not reporting conflict at the park today.

Table 18: Top Conflicts Reported that Day

2025	2021	2015	2010
Right of way or trail-sharing issues	Right of way or trail-sharing issues	Biker's speed	Dogs off leash
Biker's speed or communication	Bad dog behavior	Inconvenience and/or discourtesy while sharing the trail	Bikers not yielding
Dogs off leash	Bikers' speed or communication	Bikers not yielding	Dog droppings
Bikers not yielding	Bikers not yielding	Crowded	Horse droppings
Skittish horses or horses on trail	Crowded	Dogs off leash	Biker's communication

A more detailed explanation of each aforementioned type of conflict is as follows:

1. "Right of way, passing, or trail-sharing issues"

- Confusion or indifference as to who has the right of way
- Visitors taking up too much of trail, blocking the trail, or not staying to the right
- Recreating too close to others, passing on narrow sections of trail
- Visitors expressing frustration at other visitors doing different activities on the trail

2. "Bikers' speed or communication"

- Bikers not announcing their presence when passing other trail users (e.g., saying "on your left")
- Bikers going too fast or too fast with blind corners
- E-bikes present when not allowed

3. "Dogs off leash"

- Loose dogs
- Uncontrolled dogs causing others to step off trail
- Dog waste issues

4. "Bikers not yielding"

- Bike riders not yielding the right of way to other trail users
- Downhill bikers not yielding to uphill bikers
- Riders going the wrong direction on one-way trails

5. "Skittish horses or horses on trail"

- Agitated or skittish horses
- Trail users unsure how to behave around horses
- Large horse group creating congestion

Crowding Perception

While visiting this park today, how crowded did you feel by the number of visitors?

Slightly Crowded	21%	23%	13%	14%
Moderately Crowded	12%	11%	8%	4%
Extremely Crowded	2%	1%	1%	1%

In 2021 this question was rewritten to consider crowding both at the trailhead and on the trail. In 2025, the scale was updated to a 4-point scale with somewhat crowded removed as an option. Overall, a total of 12% of visitors reported feeling moderately to extremely crowded at the trailhead and 9% felt moderately to extremely crowded on the trail.

The properties with the highest rating for crowding, where visitors felt moderately to extremely crowded at the trailhead were Anne U. White Trail (33%), Caribou Ranch (23%), Hall Ranch (16%), and Pella Crossing (16%). The properties with the highest average rating for crowding, where visitors felt somewhat to very crowded on the trail are Anne U. White Trail (24%), Hall Ranch (20%), Caribou Ranch (16%), and Coalton Trailhead (13%).

E-bike Pilot Program

Currently, e-bikes with motors that stop at 20 mph are allowed on designated trails in the plains. Please indicate your level of support or opposition for a pilot program – a temporary trail – allowing this type of e-bike on select Boulder County Parks & Open Space foothills and mountain trails that already allow bike use (e.g., Betasso Preserve, Hall Ranch, Heil Valley Ranch, Ron Stewart Preserve at Rabbit Mountain).

Table 22: E-bike pilot support and opposition (2,539 responses)

E-bike Pilot	Strongly Oppose	Oppose	Neutral	Support	Strongly Support	Not Sure
All Respondents	26%	23%	25%	14%	8%	4%
Hikers	27%	26%	25%	12%	5%	4%
Bikers	19%	21%	25%	19%	14%	1%
E-bikers	0%	0%	4%	14%	82%	0%

For all respondents, about half (49%) indicated they oppose or strongly oppose, a quarter of all respondents indicated they were neutral, and 22% indicated they support or strongly support an e-bike pilot.

Bikers were more likely than hikers to indicate support for the pilot, with one third of all bikers indicating support or strong support for the pilot. The sample size of visitors reporting e-biking as their primary activity was very small, with only 28 respondents, but 96% of those respondents indicated support or strong support for the pilot.

Visitors were also asked to provide an explanation of the reason for why they support or oppose an e-bike pilot. The most common concerns focused on safety, including high speeds, narrow trails, limited visibility, and potential conflicts with hikers, children, dogs, horses, and wildlife. Many respondents also felt that e-bikes would reduce the quiet, natural experience and contribute to crowding, poor etiquette, and trail wear. At the same

time, a number of visitors emphasized that e-bikes improve accessibility for older adults, people with disabilities, and those with limited physical ability. Overall, while some supported limited or regulated use, most commenters expressed reservations about allowing widespread e-bike access on the foothills and mountain trails. The 1,655 responses are available in Appendix F (pp.118-181).

<i>Carolyn Holmberg Preserve at Rock Creek Farm</i>	33%	23%	42%	2%
<i>Legion Park</i>	27%	27%	39%	7%

There were no individual parks surveyed that had over half of visitors report support or strong support for an e-bike pilot on foothills and mountain trails.

The properties that recorded the highest level of support were Carolyn Holmberg Preserve at Rock Creek Farm (42% support or strongly support), Legion Park (39% support or strongly support), Lagerman Agricultural Preserve (38% support or strongly support), Coalton Trailhead (35% support or strongly support), and Hall Ranch (29% support or strongly support).

Alternatively, the parks with the highest level of opposition were Caribou Ranch (62% oppose or strongly oppose), Walden Ponds Wildlife Habitat (61% oppose or strongly oppose), Anne U. White Trail (56% oppose or strongly oppose), Bald Mountain Scenic Area (54% oppose or strongly oppose), and Pella Crossing (53% oppose or strongly oppose).

The table shows the responses of the 76% that answered the question and selected a timeframe for how long they have lived in Boulder County. Twenty-six percent indicated they do not live in Boulder County. Half of all respondents that reported living in Boulder County have lived here for 15 or more years, just over a quarter have lived here for 5 to 14 years, and just under a quarter have lived here for less than 5 years.

¹⁷ Studies conducted from 1995 to 2010, asked Boulder County residents if they had resided in the county for 10 or more years, unlike studies 2015 to 2025 that allowed for answers of either 10-14 years or 15 years or more.

¹⁹ The 2024 U.S. Census American Community Survey 1-Year Estimates used an age range of 15-19 years old, in comparison to Boulder County's 5YS that used 16-19 years old as an age range.

²⁰ The 2019 U.S. Census American Community Survey 1-Year Estimates used an age range of 15-19 years old, in comparison to Boulder County's 5YS that used 16-19 years old as an age range.

In both 2021 and 2025, visitors were asked to report their age. Visitors under the age of 16 are therefore not represented in the results because they were not eligible to complete the survey. As a result, these two years provide insight into the adult visitor population but do not capture participation from children or younger teens.

Earlier data from 2015 included a broader count of visitors ages and showed that approximately 10% of visitors were under the age of 10. This proportion closely aligns with Boulder County census data from the same period, which reported that 9% of the county’s population was under age 10. The similarity between these figures suggests that the visitor population in 2015 which included young children was at a rate consistent with the broader community.

Race and Ethnicity

Are you of Hispanic, Latino/a, Latinx/e, or Spanish origin?

Table 27: Hispanic, Latino/a, Latinx/e, or Spanish Origin (2,535 responses)

Yes	8%	6%	5%	3%	2%	7%	6%
No	92%	94%	--	--	--	--	--

In 2021 and 2025, two questions were asked about race and ethnicity in the Five Year Study to match the wording of the questions used by the U.S. Census so that it is possible to compare the representation of different racial and ethnic groups that visit parks with Boulder County’s population overall. People who identify as Hispanic, or Latino/a, Latinx/e, and Spanish may be of any race, so also are included in applicable race categories.

There was a 2% increase in park visitors who identified as Hispanic, Latino/a, Latinx/e, and Spanish, although this is still significantly lower than what is reported in the Boulder County census data. Boulder County census data shows that 15% of the community identifies as Hispanic, Latino/a, Latinx/e, and Spanish. However, the increase does indicate community engagement efforts and the BCPOS Cultural Responsiveness and Inclusion Strategic Plan is making a positive impact towards reducing the inequity gap.

Betasso Preserve	Support	I ride a[n] e-bike in town. The mountain bikes and other cyclists are more often the danger.
Betasso Preserve	Support	I think access is important for people of all ages/ability, and getting more people out than less is great!
Betasso Preserve	Support	It allows more users to enjoy the trails.
Betasso Preserve	Support	More access for more people
Betasso Preserve	Support	They're fun and I want one.
Betasso Preserve	Support	We have one.
Betasso Preserve	Support	Worth trying it.
Betasso Preserve	Strongly Support	Because there's no logical reason to ban e-bikes. Professional bikers are faster.
Betasso Preserve	Strongly Support	Bikes are bikes.
Betasso Preserve	Strongly Support	Don't want to get hit.
Betasso Preserve	Strongly Support	E-bikes are safe
Betasso Preserve	Strongly Support	E-bikes make public lands more accessible to elderly/families
Betasso Preserve	Strongly Support	E-bikes versus normal [bikes are] not an issue. In my opinion, e-bikes allow those with less fitness to join the fun.
Betasso Preserve	Strongly Support	I don't feel e-bikes effect other riders; [they] allow you to do more trails in a day.
Betasso Preserve	Strongly Support	Inclusive, broaden the hobby.
Betasso Preserve	Strongly Support	Makes trails more accessible to all
Betasso Preserve	Strongly Support	People who need that help.
Betasso Preserve	Strongly Support	Support e-bike
Betasso Preserve	Strongly Support	Test and see, design it right and there is no conflict and more fun!
Betasso Preserve	Strongly Support	Why not?
Caribou Ranch	Strongly Oppose	[They] destroy trails, [are] inconsiderate of others, [and they] speed.
Caribou Ranch	Strongly Oppose	Danger
Caribou Ranch	Strongly Oppose	Dangerous

Caribou Ranch	Strongly Oppose	Dangerous
Caribou Ranch	Strongly Oppose	Dangerous
Caribou Ranch	Strongly Oppose	Dangerous for horses.
Caribou Ranch	Strongly Oppose	Dangerous for kids and pedestrians.
Caribou Ranch	Strongly Oppose	Dangerous to hikers/walkers. Takes away from natural experience.
Caribou Ranch	Strongly Oppose	Dangerous, not peaceful.
Caribou Ranch	Strongly Oppose	Deters from the peace and quiet.
Caribou Ranch	Strongly Oppose	Disruptive, unsafe -- hate them on trails.
Caribou Ranch	Strongly Oppose	Disturbs nature and natural sounds.
Caribou Ranch	Strongly Oppose	Don't like that
Caribou Ranch	Strongly Oppose	E-bike riders generally don't know how to ride singletrack.
Caribou Ranch	Strongly Oppose	E-bikers often disturb the peace and quiet, erode trails and are inconsistent with the concept of open space!
Caribou Ranch	Strongly Oppose	E-bikes are dangerous to hikers.
Caribou Ranch	Strongly Oppose	E-bikes are lame.
Caribou Ranch	Strongly Oppose	Give bikers their own trails. Constantly stopping for bikes spoils the hiking experience.
Caribou Ranch	Strongly Oppose	Going too fast and hitting me/kids.
Caribou Ranch	Strongly Oppose	Hiking should be all "natural."
Caribou Ranch	Strongly Oppose	I appreciate being able to hike on non-bike trails.
Caribou Ranch	Strongly Oppose	I don't think the trails are steep enough where an e-bike is needed
Caribou Ranch	Strongly Oppose	I don't want anyone running me over.
Caribou Ranch	Strongly Oppose	I find e-bikes hazardous.
Caribou Ranch	Strongly Oppose	I prefer trails with no bikes
Caribou Ranch	Strongly Oppose	I think that e-bikes are dangerous to hikers and pedestrians, and that if you want to ride, you should do your own work to get exercise.
Caribou Ranch	Strongly Oppose	If they could stay slow, but they never do (I say this as someone with an e-bike). If you mountain bike, you should not need a motor! (Amateurs!!!)
Caribou Ranch	Strongly Oppose	I'm afraid we'd be overrun here.
Caribou Ranch	Strongly Oppose	It disrupts the natural environment, and conflicts with the spirit of natural preservation.
Caribou Ranch	Strongly Oppose	It is a place to disconnect and watching out for e-bikes isn't restful.
Caribou Ranch	Strongly Oppose	It should be all natural.
Caribou Ranch	Strongly Oppose	It's loud and dangerous. Will become a bike-only trail.
Caribou Ranch	Strongly Oppose	Keep it peaceful and safe for others and for wildlife.
Caribou Ranch	Strongly Oppose	Lots to say here...trails are such a luxury for their quiet and gentle pace. I'd love to keep them that way.

Caribou Ranch	Strongly Oppose	Nice not dealing with bikes AT ALL on trails. Very relaxed here.
Caribou Ranch	Strongly Oppose	No bikes -- dangerous
Caribou Ranch	Strongly Oppose	No bikes. They scare horses.
Caribou Ranch	Strongly Oppose	No please. I encounter these on the walking and bike trails in town and in the county. The e-bike riders often go faster than they think, rarely call their pass. They scare walkers as they go by and I don't feel they are safe for any party. They can go on a road... I also feel when non-motorized bikes are on a trail (mountain bikes) this can create a negative experience for the hiker. Many bikers are polite, but if there are a lot, the hiker then stops and moves aside for each bike. Recently I hiked Antelope trail and encountered 40 bikes. Thus, I stopped 40 times. No fun.
Caribou Ranch	Strongly Oppose	Noise -- go to[o] fast, interrupt with the quiet of the outdoors.
Caribou Ranch	Strongly Oppose	Noise, disrupts hikers/animals, runs down the trail (erosion)
Caribou Ranch	Strongly Oppose	Not a natural experience with e-bikes on nature trails.
Caribou Ranch	Strongly Oppose	Not everyone uses proper etiquette, and it is easier to just navigate trails without e-bikes.
Caribou Ranch	Strongly Oppose	Not need[ed] in parks.
Caribou Ranch	Strongly Oppose	People are thoughtless, and can't control e-bikes as well.
Caribou Ranch	Strongly Oppose	Rude bikers.
Caribou Ranch	Strongly Oppose	Safety and conflicts.
Caribou Ranch	Strongly Oppose	Safety and noise concerns.
Caribou Ranch	Strongly Oppose	Should leave some areas with [a] different focus (such as hiking).
Caribou Ranch	Strongly Oppose	The noise and speed would disturb the hiking experience
Caribou Ranch	Strongly Oppose	They have enough trails to ride on.
Caribou Ranch	Strongly Oppose	Too dangerous
Caribou Ranch	Strongly Oppose	Too dangerous
Caribou Ranch	Strongly Oppose	Too dangerous for kids.
Caribou Ranch	Strongly Oppose	Too dangerous!
Caribou Ranch	Strongly Oppose	Too fast and takes the experience away from others -- seems dangerous
Caribou Ranch	Strongly Oppose	Too fast, and [the trail is] too narrow in places. [I] like peaceful walking.
Caribou Ranch	Strongly Oppose	Too fast/dangerous/unnecessary.
Caribou Ranch	Strongly Oppose	Trail erosion, bike noise, speed passing, [it] would scare the wildlife.
Caribou Ranch	Strongly Oppose	Trails are for quiet enjoyment.

Caribou Ranch	Oppose	20 mph is way too fast.
Caribou Ranch	Oppose	20 mph seems very fast
Caribou Ranch	Oppose	As a biker, my ego hurts when others go faster.
Caribou Ranch	Oppose	Bicyclists can be rude, motorized will make it worse.
Caribou Ranch	Oppose	Bike[rs] don't respect hikers.
Caribou Ranch	Oppose	Creates the opportunity for more negative hiker-biker encounters. However, if allowed, designated hiker-only or biker-only days could be a solution.
Caribou Ranch	Oppose	Dangerous
Caribou Ranch	Oppose	Disruptive to nature
Caribou Ranch	Oppose	E-bikes on mainly pedestrian trails create conflict.
Caribou Ranch	Oppose	E-bikes tend to go too fast, and [they do] not look for hikers/other bikers.
Caribou Ranch	Oppose	Fast craft[s] disrupt walking and can scare pedestrians.
Caribou Ranch	Oppose	Feels dangerous.
Caribou Ranch	Oppose	For safety, especially with so many kids on trail.
Caribou Ranch	Oppose	I am an avid cyclist. But I am opposed because I have observed no enforcement or education about e-bike etiquette and what types of e-bikes are allowed.
Caribou Ranch	Oppose	I believe it would cause accidents between hikers and bikers. Noise from motors could disturb wildlife.
Caribou Ranch	Oppose	I prefer nature without vehicles.
Caribou Ranch	Oppose	I ride an e-bike, but don't think they belong on trails—dirt roads [are] ok.
Caribou Ranch	Oppose	I think it would detract from the peacefulness.
Caribou Ranch	Oppose	I think that takes away from trail serenity.
Caribou Ranch	Oppose	I'm a hiker, not a biker.
Caribou Ranch	Oppose	In general, bikes are frequently going very fast, especially on blind corners. On those trails that allow horses, the etiquette of the biking community can already be a challenge without the e-bike speed.
Caribou Ranch	Oppose	In my experience, e-bike users do not share the trail well.
Caribou Ranch	Oppose	It could be dangerous and have an effect on the wildlife.
Caribou Ranch	Oppose	It would be so much busier and less tranquil at this park. E-bikes [are] ok where bikes [are] already allowed.
Caribou Ranch	Oppose	Just hike
Caribou Ranch	Oppose	Keep it for hiking and nature loving.
Caribou Ranch	Oppose	Mostly I don't want bikes on my hiking trails whether electric or non-electric.
Caribou Ranch	Oppose	No motorized (electric) vehicles.
Caribou Ranch	Oppose	Noise interference, increased traffic.

Caribou Ranch	Oppose	Noise, conflict
Caribou Ranch	Oppose	Pedal assist is acceptable, motorized (gas/electric) is unacceptable.
Caribou Ranch	Oppose	Regular bikes are cool; walking is best!
Caribou Ranch	Oppose	Regular bikes have more control. I feel e-bikes would be too much.
Caribou Ranch	Oppose	Safety concerns.
Caribou Ranch	Oppose	Scared of collision, loud.
Caribou Ranch	Oppose	Seems like they would be intrusive.
Caribou Ranch	Oppose	Small
Caribou Ranch	Oppose	Speed, narrow trails.
Caribou Ranch	Oppose	The trail is mostly narrow.
Caribou Ranch	Oppose	They would be frightening and kick up dirt and people who don't have to invest muscle power in getting there are more careless of the country.
Caribou Ranch	Oppose	Too fast
Caribou Ranch	Oppose	Without knowing enough I'm opposed to the potential pollution and noise pollution.
Caribou Ranch	Neutral	As long as it doesn't cause a large disturbance?
Caribou Ranch	Neutral	As long as they are on bike trails and not where people hike also.
Caribou Ranch	Neutral	Don't want motorized bikes to harm trails but also understand the extra accessibility they provide.
Caribou Ranch	Neutral	I can see both benefits and cons.
Caribou Ranch	Neutral	I would have to be cautious as a pedestrian on trails, but I would also enjoy being on a e-bike here. 😊
Caribou Ranch	Neutral	I'm torn between the value of accessibility for people in wheelchairs and the commotion/noise of an e-bike.
Caribou Ranch	Neutral	It's about bike etiquette more than their presence.
Caribou Ranch	Neutral	Must still have trails that don't allow them.
Caribou Ranch	Neutral	No preference, maybe just slower.
Caribou Ranch	Neutral	Not [a] resident, so don't feel that my opinion is relevant.
Caribou Ranch	Neutral	Own [an] e-bike, but [there's] too many speedy kids.
Caribou Ranch	Neutral	People can do what they want, and should have the option if allowed.
Caribou Ranch	Not Sure	[I] don't own [an] e-bike, and haven't given [them] much consideration.
Caribou Ranch	Not Sure	I think I oppose but could be convinced. I don't want a bunch of unskilled non-mountain biker yahoos running into me on what's effectively a motorcycle for them.
Caribou Ranch	Not Sure	I'm more concerned about noise from the bikes.
Caribou Ranch	Support	20 mph is already fast.
Caribou Ranch	Support	Bikes are there anyway, opens access for others.

Caribou Ranch	Support	E-bikes give new access.
Caribou Ranch	Support	Fellow mountain biker (non-e-bike), but encourage controlled expansion of trails.
Caribou Ranch	Support	For me, I'd like more trails/availability for riding my e-mountain bike.
Caribou Ranch	Support	I ride an e-bike, and [it] would be nice to ride some trails.
Caribou Ranch	Support	I would like to use my bike up here.
Caribou Ranch	Support	If it gets people outside and doesn't cause conflict with other trail users then that's good
Caribou Ranch	Support	It would be a good place for e-bikers to go and learn.
Caribou Ranch	Support	Most e-bikers are courteous.
Caribou Ranch	Support	They already use the trails and you don't have enough money or rangers to enforce not allowing them.
Caribou Ranch	Support	Whatever enables people to get outside, as long as they can do it safely
Caribou Ranch	Strongly Support	Allows people with some disabilities to enjoy biking.
Caribou Ranch	Strongly Support	I always support [a] trial program.
Caribou Ranch	Strongly Support	I am an e-bike rider.
Caribou Ranch	Strongly Support	I can ride a bike without a speed limiter faster than 20 [mph]. Why should enjoying the park by bike be limited to me?
Caribou Ranch	Strongly Support	I own a class 1 e-bike.
Caribou Ranch	Blank	E-bikes are so dangerous, but I do want people who NEED them to access trails (those who can't walk or ride a non-e-bike).
Caribou Ranch	Blank	I like the idea of older adults using e-bikes and accessing open space, so I support e-bike use in some areas. As a shared user of some bike trails, I also worry about too many e-bikes and conflict with hikers.
Caribou Ranch	Blank	Only for very well-designated trails!!
Caribou Ranch	Blank	Trail wouldn't be wide enough.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	E-bikes give mobility but there are many faster ones and motorcycles in use on crowded trails
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	E-bikes go way too fast on trails and don't allow runners and others to get out of the way. It feels dangerous
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	E-bikes kick up dust — generally are not polite.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	I am not opposed to e-bikes; some of them, and the e-scooters, drive unsafely with no regard to hikers

Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	Keep them on the paved roads, unsafe!
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	No e-bikes ever.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	No e-bikes on trail.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	Pedestrians should not have to watch out for high-speed vehicles.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	Please segregate motorized vehicles, including e-bikes, either on their own trails or their own days.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	Their speed is generally way out of whack, and it will be very hard to police the 20 mph. 20 mph anyways is too fast as a limit.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	They go too fast if you're on foot.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	Too fast. Dust and safety are an issue. E bikers I've passed are often not considerate or watchful for children, runners or notify when passing.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	Trail damage, reckless speed, safety concerns
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Oppose	Unsafe when they come uphill too fast.
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	20 mph is fast, concern about hurt; also concern about disregard, young age of riders
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	E-bikers don't alert slower vehicles, dangerous.
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	Ecological impacts
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	Pedestrians/hikers shouldn't have to dodge vehicles going road speeds.
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	People abuse the rule. Give them an inch and they take a mile. I encountered a small gas-powered

		motorcycle yesterday that wouldn't have happened before allowing e bikes
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	Safety for others on trail, add to crowd.
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	The trails are flat, why is it necessary? They usually go too fast which makes it scary to be on foot, especially with young kids on foot on the trails.
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	They are motorcycles and should be regarded that way.
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	They don't pay attention to others and are often rude
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	They should be restricted to 10 mph.
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	They will definitely go faster than 20 mph and it's dangerous for walking people/dogs/kids/animals
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	This may increase traffic on those trails.
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	Too big and loud and fast
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	Too fast in sharing the trail
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	Too loud
Carolyn Holmberg Preserve at Rock Creek Farm	Oppose	With my dog, I worry he could get [hit] when they come up from behind.
Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	As a regular cyclist, e-bikes are often out of control and lack courtesy.
Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	I am glad e-bikes allow people to get out when they may not be able to ride a traditional bike, but worry about their speeds.
Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	I find e-bikes ok. It's the riders who are responsible for having good trail manners.

Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	I sometimes ride the trails.
Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	I think it would be a great way for seniors/handicapped [people] to enjoy this place.
Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	I wish they didn't speed and practiced better etiquette
Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	Not affected by the bikes.
Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	Not sure
Carolyn Holmberg Preserve at Rock Creek Farm	Neutral	People are already on bikes so it's not that big of a deal
Carolyn Holmberg Preserve at Rock Creek Farm	Not Sure	N/A
Carolyn Holmberg Preserve at Rock Creek Farm	Support	[There's] widespread use already, and many practice safe riding in Boulder.
Carolyn Holmberg Preserve at Rock Creek Farm	Support	Allows more people to use the trails (e.g., [those] with mobility issues).
Carolyn Holmberg Preserve at Rock Creek Farm	Support	E-bike[s] allow everyone to access trails/parks.
Carolyn Holmberg Preserve at Rock Creek Farm	Support	E-bikes don't do more damage than regular bikes. More accessible as well
Carolyn Holmberg Preserve at Rock Creek Farm	Support	Friends use e-bikes, I can ride with them!
Carolyn Holmberg Preserve at Rock Creek Farm	Support	However, there should be restrictions on full throttle use over 20 MPH.
Carolyn Holmberg Preserve at Rock Creek Farm	Support	I have an e-bike as well and love using it
Carolyn Holmberg Preserve at Rock Creek Farm	Support	I have one

Carolyn Holmberg Preserve at Rock Creek Farm	Support	I think people on e-bikes sometimes commute to places via these trails, and that's fine with me.
Carolyn Holmberg Preserve at Rock Creek Farm	Support	I want more people on bikes and less in cars. Making spaces available for that helps.
Carolyn Holmberg Preserve at Rock Creek Farm	Support	It would allow more people to enjoy the trails.
Carolyn Holmberg Preserve at Rock Creek Farm	Support	More participants and riders
Carolyn Holmberg Preserve at Rock Creek Farm	Support	Most e-bikes speed and kick up lots of dust, but I'd rather a bike than another car on the road.
Carolyn Holmberg Preserve at Rock Creek Farm	Support	Normal bikes can go that fast too
Carolyn Holmberg Preserve at Rock Creek Farm	Support	Only class 1!
Carolyn Holmberg Preserve at Rock Creek Farm	Support	Tough one. Responsible use is awesome. [I] support [e-bikes] for now.
Carolyn Holmberg Preserve at Rock Creek Farm	Support	With caveat that bikes are required to announce when approaching runners and walkers
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	Better experience for elderly
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	E-bike user
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	E-bikes [that are] allow[ed] to go upslope and [on the] trails will be used more.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	E-bikes are great.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	Good for everybody
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	Great for older people.

Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	Have both
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	I bike
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	I have an e-bike and use manual mode on the gravel trails
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	I have an e-bike and I'm old.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	I like to bike as well and would e-bike if I had one
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	I ride an e-bike.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	If e-bikes follow speed limits, I see no erosion/conflict with allowing e-bikes on ALL trails.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	Maybe just for riders over 60 or 65.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	Senior citizens sometimes need e-bikes, and they should be able to enjoy the open space.
Carolyn Holmberg Preserve at Rock Creek Farm	Strongly Support	The riders need to know the rules. Maybe even be tested and then given full access.
Carolyn Holmberg Preserve at Rock Creek Farm	Blank	I feel it decreases my enjoyment of the trail. I do support the access for people with disabilities.
Carolyn Holmberg Preserve at Rock Creek Farm	Blank	Perhaps motorized bikes go to [an] area more suited to their needs — keep it quiet, peaceful.
Coalton Trailhead	Strongly Oppose	All these trails are way too short and too crowded already. It just makes no sense to have e-bikes there. And I do ride e-bikes elsewhere. These trails are just not suited for them.
Coalton Trailhead	Strongly Oppose	Already hard to share the trail with bikers.
Coalton Trailhead	Strongly Oppose	Already, ordinary bikes zoom by too fast
Coalton Trailhead	Strongly Oppose	Besides cheating? Haha Dangerous — keep them on street!

Coalton Trailhead	Strongly Oppose	Dangerous to have such a difference in speeds on the trail
Coalton Trailhead	Strongly Oppose	Dangerous, loud, disruptive.
Coalton Trailhead	Strongly Oppose	Don't need them on MTB trails
Coalton Trailhead	Strongly Oppose	I believe allowing this opens the trails to more hazards than necessary.
Coalton Trailhead	Strongly Oppose	I think they can be dangerously fast. Humans, pets, and prairie dogs are likely to be hit.
Coalton Trailhead	Strongly Oppose	No e-bikes
Coalton Trailhead	Strongly Oppose	Speeds, trail erosion, fire danger.
Coalton Trailhead	Strongly Oppose	Technical sections, narrow sections.
Coalton Trailhead	Strongly Oppose	There's a bit of a conflict between e-bikes and non-e-bikes
Coalton Trailhead	Strongly Oppose	They go too fast and they are not paying attention
Coalton Trailhead	Strongly Oppose	They tend to have less trail etiquette
Coalton Trailhead	Strongly Oppose	This is not a moto course. People power only
Coalton Trailhead	Strongly Oppose	Too dangerous
Coalton Trailhead	Strongly Oppose	Too dangerous for pedestrians.
Coalton Trailhead	Strongly Oppose	Too many motorized bikes.
Coalton Trailhead	Oppose	20 mph is fast
Coalton Trailhead	Oppose	E-bikers seem over their heads
Coalton Trailhead	Oppose	Etiquette
Coalton Trailhead	Oppose	For people with health conditions that would preclude them from biking otherwise, fine. But in other cases, e-bikes should not ride singletracks
Coalton Trailhead	Oppose	Have observed wrecks as riding [illegible text omitted] disregard for common rules.
Coalton Trailhead	Oppose	I only think e-bikes on mountain bike trails [are ok] if they need it for a disability. E-bikes go too fast, and it would be unsafe on trails.
Coalton Trailhead	Oppose	If they used bells to alert of their approach, it wouldn't be bad, but they often come up so fast without warning. Someone could get hurt.
Coalton Trailhead	Oppose	It's a pretty narrow trail and it might make things dangerous for other hikers and bikers. Also, the prairie dogs cross the trail path quite often in spring, and fast bikes can be dangerous for them
Coalton Trailhead	Oppose	Lack of biker education
Coalton Trailhead	Oppose	Most people ride e-bikes responsibly, but I believe it is dangerous when some people abuse the privilege. At times they don't warn when passing and at times I don't hear them coming.
Coalton Trailhead	Oppose	People go too quickly on e-bikes, and often think they own the trail. I don't want to get hurt. [It] sometimes happens with mountain bikes as well.

Coalton Trailhead	Oppose	Riders on e-bikes often lack the experience to be responsible users
Coalton Trailhead	Oppose	Safety
Coalton Trailhead	Oppose	Safety
Coalton Trailhead	Oppose	Some people go too fast and don't inform others when they are passing
Coalton Trailhead	Oppose	They are just motor vehicles.
Coalton Trailhead	Oppose	They go too fast in slow areas.
Coalton Trailhead	Oppose	They travel too fast on trail
Coalton Trailhead	Oppose	Too fast
Coalton Trailhead	Oppose	Too fast
Coalton Trailhead	Oppose	Too fast for runners and hikers
Coalton Trailhead	Oppose	Unless the sellers teach bike courtesy it's dangerous. The bikes going that fast fail to be considerate of other users.
Coalton Trailhead	Neutral	As long as they are cooperative, I have no issue.
Coalton Trailhead	Neutral	Don't care
Coalton Trailhead	Neutral	Everybody has a chance to do an activity regardless of what type of bike they use.
Coalton Trailhead	Neutral	It should be limited to only trails that are not busy and travel corridors that get people from A to B without driving.
Coalton Trailhead	Neutral	It's a good way to get people out on the trails
Coalton Trailhead	Neutral	It's fine
Coalton Trailhead	Neutral	May have to widen trail to keep it safe for walkers.
Coalton Trailhead	Neutral	N/A
Coalton Trailhead	Neutral	So far, I have not had any issues with people using e-bikes on the trail.
Coalton Trailhead	Neutral	Sometimes [it's] hard to share trail w/ bikers, especially if they come at you and dogs fast without ringing bell.
Coalton Trailhead	Neutral	They don't bother me
Coalton Trailhead	Neutral	Unmodified e-bikes are great for some to help the[m] enjoy the trail
Coalton Trailhead	Neutral	Unsure of how I feel at this time.
Coalton Trailhead	Not Sure	Don't know enough about e-bikes. Like that if [it] open[s] opportunities for those that may need support.
Coalton Trailhead	Support	20 mph seems safe enough
Coalton Trailhead	Support	20 mph limit is reasonable.
Coalton Trailhead	Support	As long as people are careful of others, I have no issues.
Coalton Trailhead	Support	Bikes were vocal about them coming your way
Coalton Trailhead	Support	But how to limit class 3s?

Coalton Trailhead	Support	E-bikes ensure everyone can ride, which I love for inclusion, but they can be out of bike etiquette practice and need help in education and social norms
Coalton Trailhead	Support	For older people
Coalton Trailhead	Support	Get more people out in nature
Coalton Trailhead	Support	Glad people of all uses get to use the trails
Coalton Trailhead	Support	I have an e-bike
Coalton Trailhead	Support	I support e-bikes as not all are capable of riding traditional bikes.
Coalton Trailhead	Support	I think it could help more folks get outside — which is always good.
Coalton Trailhead	Support	I'm happy with whatever helps people get outside!
Coalton Trailhead	Support	If it gets people outdoors
Coalton Trailhead	Support	If they don't go too fast or hurt hikers, then they are fine for me!
Coalton Trailhead	Support	Let all people enjoy the trails
Coalton Trailhead	Support	Mostly for accessibility, however, I am concerned about teenagers on Surrans (dirt bikes).
Coalton Trailhead	Support	Not that much different than regular bikes when operated properly
Coalton Trailhead	Support	People should be able to get out
Coalton Trailhead	Support	Seems fine, but need to separate hikers from bikers
Coalton Trailhead	Support	Support as long as not too crowded with e-bikes
Coalton Trailhead	Support	They should have access, but I fear they will change the feel of the trails.
Coalton Trailhead	Support	Trails are for everyone.
Coalton Trailhead	Strongly Support	Biking is accessible to more people if they can e-bike
Coalton Trailhead	Strongly Support	Commuters
Coalton Trailhead	Strongly Support	E-bikes are the future, especially for those that can't bike long distances.
Coalton Trailhead	Strongly Support	E-bikes go too fast, especially the throttle assist.
Coalton Trailhead	Strongly Support	E-bikes really aren't different from standard analog bikes. I know plenty of riders on an analog that can out ride an e-bike. Plus, the main demographic of an e-bike rider is older users looking to still get out into the open spaces.
Coalton Trailhead	Strongly Support	Good for allowing those with physical challenges or older [people] to enjoy the freedom you feel riding trails.
Coalton Trailhead	Strongly Support	I have one myself.
Coalton Trailhead	Strongly Support	I love to e-bike so the more trails available makes a new enjoyable experience.
Coalton Trailhead	Strongly Support	I strongly support this, but I understand that level 2 and 3 e-bikes can be a nuisance.

Coalton Trailhead	Strongly Support	It's good to open the areas to more people and more modes of transportation
Coalton Trailhead	Strongly Support	Love bikes!
Coalton Trailhead	Strongly Support	Some people might need to use them, this way they can still get out for a ride.
Coalton Trailhead	Strongly Support	They are commuting trails. Non-e-bikes travel as fast.
Coalton Trailhead	Strongly Support	We have [an] e-bike
Hall Ranch	Strongly Oppose	--> extreme amounts of unnecessary trail erosion --> Lack of etiquette, tearing shit up
Hall Ranch	Strongly Oppose	Bikes are allowed everywhere. A trail for hiking is a benefit to those that don't bike, and mixed use is dangerous.
Hall Ranch	Strongly Oppose	Bikes don't yield or warn.
Hall Ranch	Strongly Oppose	Dangerous to pedestrians.
Hall Ranch	Strongly Oppose	E-bikes attract the wrong kind of people who do not respect nature
Hall Ranch	Strongly Oppose	E-bikes mess up the flow of normal bike traffic.
Hall Ranch	Strongly Oppose	E-bikes seem too fast and dangerous to hikers.
Hall Ranch	Strongly Oppose	I don't like motorized vehicles on the trail. They go too fast
Hall Ranch	Strongly Oppose	I don't think e-bikes are compatible with foot traffic anywhere.
Hall Ranch	Strongly Oppose	I own one, they are not suitable for mountain biking trails. Too fast!
Hall Ranch	Strongly Oppose	Increases congestion. They go faster than bikes. Should have e-bike-free trails.
Hall Ranch	Strongly Oppose	Like the quiet of this trail, worried about careless users causing accidents.
Hall Ranch	Strongly Oppose	Many ride aggressively.
Hall Ranch	Strongly Oppose	Most never stay where they're supposed to
Hall Ranch	Strongly Oppose	Motor not ok.
Hall Ranch	Strongly Oppose	New to biking and easy way to start and get out.
Hall Ranch	Strongly Oppose	NO e-bikes on trails with bikes/hikers — they're scary how fast they go — they could kill other riders or hikers. Seem to often be less experienced and less in control too.
Hall Ranch	Strongly Oppose	No way to control bike speed — people will bring whatever bike they want. Danger to pedestrians and horses.
Hall Ranch	Strongly Oppose	Not a fan of e-bikers — unless they yield or wait to pass rather than forcing their way around
Hall Ranch	Strongly Oppose	Not appropriate for trails.
Hall Ranch	Strongly Oppose	Opposed to motorized traffic everywhere!
Hall Ranch	Strongly Oppose	Pedals are fine.
Hall Ranch	Strongly Oppose	Prefer human-powered.

Hall Ranch	Strongly Oppose	Prefer the trails without them. Mechanized/non-motorized seems like a good place to draw the line.
Hall Ranch	Strongly Oppose	Quiet
Hall Ranch	Strongly Oppose	Speed kills trails, and concern for my safety.
Hall Ranch	Strongly Oppose	They are not courteous; they take the right of way.
Hall Ranch	Strongly Oppose	They are too fast.
Hall Ranch	Strongly Oppose	THEY NEVER YIELD TO HIKERS!!!
Hall Ranch	Strongly Oppose	They ride like jerks and tear up the trail.
Hall Ranch	Strongly Oppose	They suck 😡
Hall Ranch	Strongly Oppose	Too crowded/fast with hikers and runners present.
Hall Ranch	Strongly Oppose	Trails are too crowded already!
Hall Ranch	Strongly Oppose	Use your legs
Hall Ranch	Strongly Oppose	Visiting certain areas should require effort. E-bikes will overcrowd trails with inexperienced users. More accidents and conflicts.
Hall Ranch	Strongly Oppose	Would drastically increase numbers of people.
Hall Ranch	Strongly Oppose	Would increase crowding.
Hall Ranch	Strongly Oppose	Would result in a higher number of bikes.
Hall Ranch	Oppose	[It] makes me nervous [that] they wouldn't stop in time for hikers.
Hall Ranch	Oppose	ADDITIONAL TRAFFIC
Hall Ranch	Oppose	Already crowded on weekends.
Hall Ranch	Oppose	Analog bikes can already be too fast. It's not about e-bikes, but people not riding responsibly.
Hall Ranch	Oppose	Cause erosion and damage the trail.
Hall Ranch	Oppose	Don't want them.
Hall Ranch	Oppose	E-bikes and human-powered bikes and hikes are a tough mix on tight singletrack. Ok on double-tracked areas.
Hall Ranch	Oppose	E-bikes would be fun if there was less traffic or the trails were wider. Different uphill speeds can cause more conflict as per [question] 10.
Hall Ranch	Oppose	Gets people on a challenging trail that shouldn't be there.
Hall Ranch	Oppose	I feel it's a motorized vehicle.
Hall Ranch	Oppose	I tend to avoid trails with mountain bikes because some riders do not look out. If e-bike was for someone with accessibility issue, NOT oppose.
Hall Ranch	Oppose	I think safety right off the bat, but I believe trails are well groomed enough for it to be safe. It's there's no problem after trial, I don't see a[n] issue with it.
Hall Ranch	Oppose	I think they disturb wildlife and negatively conflict with hikers.
Hall Ranch	Oppose	I think this trail is too narrow and technical for e-bikes.
Hall Ranch	Oppose	Keeping the trails quieter, slower, safer?

Hall Ranch	Oppose	May cause conflicts or injuries if hiking or biking parties don't notice each other, or [are] going too fast.
Hall Ranch	Oppose	Move too fast.
Hall Ranch	Oppose	No need for motorized anything.
Hall Ranch	Oppose	Pedal assist only, [can cause] OTC
Hall Ranch	Oppose	People don't [follow] rules and parts of the trails are narrow
Hall Ranch	Oppose	People will get hurt.
Hall Ranch	Oppose	Seem dangerous
Hall Ranch	Oppose	Speed
Hall Ranch	Oppose	Too fast — alarming when they come up fast. I worry about elderly who can't move fast.
Hall Ranch	Oppose	Too fast and usually not enough caution
Hall Ranch	Oppose	Too much opportunity to collide with hikers, too much opportunity to pass hikers at high speeds, tears up trails.
Hall Ranch	Oppose	Trail condition
Hall Ranch	Oppose	Trail is narrow with blind corners at spots.
Hall Ranch	Oppose	Trails designated for motorized vehicles, dirt bikes, etc. I say go for it.
Hall Ranch	Oppose	Trails would be more crowded, and there is no way to regulate/enforce the 20-mph speed
Hall Ranch	Oppose	Worried about people abusing high-powered e-bikes.
Hall Ranch	Neutral	[It] doesn't bother me, but [I] don't use them.
Hall Ranch	Neutral	Appreciate getting everyone access but feel like e-bikes can deteriorate trails faster.
Hall Ranch	Neutral	As long as it doesn't become a motorcycle trail.
Hall Ranch	Neutral	As long as they are polite, I don't mind
Hall Ranch	Neutral	As long as they follow etiquette.
Hall Ranch	Neutral	Bike-only trails would be best to minimize conflict.
Hall Ranch	Neutral	Depends on how responsible/considerate the rider is.
Hall Ranch	Neutral	E-assist makes sense (class 1 & 2), e-power (class 3) doesn't
Hall Ranch	Neutral	E-bike[s] [are] ok for old, disabled [people].
Hall Ranch	Neutral	E-bikes can sometimes damage the trail.
Hall Ranch	Neutral	E-bikes don't bother me, but I don't have one.
Hall Ranch	Neutral	Good for people with different abilities, but also don't want everyone to be doing it.
Hall Ranch	Neutral	I didn't see people riding e-bikes recklessly on this trail.
Hall Ranch	Neutral	I don't feel very informed on the topic. But if e-bikes are loud and scare away wildlife, I think I would be pretty opposed.
Hall Ranch	Neutral	I don't ride bikes, so I don't know if it's good or bad.
Hall Ranch	Neutral	I have trained horses so it doesn't bother me.

Hall Ranch	Neutral	I haven't experienced it. As long as there are hiker-only trails, I'm generally okay.
Hall Ranch	Neutral	I haven't had conflict with e-bikes.
Hall Ranch	Neutral	I mostly run, so it is nice that bikes going uphill are about the same speed, and I only have to look for downhill ones. But they are more accessible.
Hall Ranch	Neutral	I personally don't ride an e-bike but I have no problem with people who do.
Hall Ranch	Neutral	I support it as long as there are some hiker-only trails or hiker-only days.
Hall Ranch	Neutral	I've never had an issue.
Hall Ranch	Neutral	No e-bike
Hall Ranch	Neutral	No real opinion.
Hall Ranch	Neutral	Plus: Happy folks are getting outside! Negative: As long as it's in a respectful tone.
Hall Ranch	Neutral	Pros and cons to both! E-bikes increase accessibility for some folks, but may detract from wilderness experience
Hall Ranch	Neutral	There are pluses and minuses to e-bikes.
Hall Ranch	Neutral	They're not harming anyone, but I don't ride?
Hall Ranch	Not Sure	I have mixed feelings about e-bikes, but don't feel like I know the answer.
Hall Ranch	Support	Access to more people who may not be able to ride [a] normal bike.
Hall Ranch	Support	Allows for more accessibility while maintaining a moderately safe speed for others.
Hall Ranch	Support	Because I'm old.
Hall Ranch	Support	E-bikes lower the barrier to entry for more riders; we have done a pilot program in Moab, and it's been pretty successful!
Hall Ranch	Support	E-bikes will increase the pressure on the trails. Don't just allow e-bikes without adding more trails!
Hall Ranch	Support	For people who need them, love it!
Hall Ranch	Support	Generally, they are used uphill, not down, so that's fine with me.
Hall Ranch	Support	I'm old and will soon need help on the ups.
Hall Ranch	Support	Low impact
Hall Ranch	Support	More people on bikes is better!
Hall Ranch	Support	Not causing problems
Hall Ranch	Support	Ok as long as not busy singletrack.
Hall Ranch	Support	Old people should enjoy too.
Hall Ranch	Support	On CERTAIN TRAILS on certain days—great! Well publicized—like Betasso.
Hall Ranch	Support	People who bike should have trails they can go on, and everyone we encountered was pleasant.

Hall Ranch	Support	Trails should be for all.
Hall Ranch	Strongly Support	A lot of people need e-bikes to ride trails for age/mobility. Feels like they don't wear a trail any more than a normal bike.
Hall Ranch	Strongly Support	Allows more people to enjoy trails/outdoors.
Hall Ranch	Strongly Support	As I age, I would like to try an e-bike.
Hall Ranch	Strongly Support	As long as they're responsible, I have no issue.
Hall Ranch	Strongly Support	Don't see how they are a disruption. Fastest speeds are coming down. Due to trail conditions someone on an e-bike isn't going to be going any faster than non-motorized. Opens it up to a great variety of people getting more people outside.
Hall Ranch	Strongly Support	E-bikes are fun and they don't harm the trails.
Hall Ranch	Strongly Support	E-bikes get more people riding.
Hall Ranch	Strongly Support	E-bikes help people who need assistance get on trails and enjoy the outdoors
Hall Ranch	Strongly Support	E-bikes rule
Hall Ranch	Strongly Support	Give it a try...
Hall Ranch	Strongly Support	Helps less able[d] people participate.
Hall Ranch	Strongly Support	I have not heard a reasonable explanation why they are banned in Boulder County. I drive to other counties to ride my e-bike.
Hall Ranch	Strongly Support	I just purchased an e-mountain bike. Finding few places to ride.
Hall Ranch	Strongly Support	It allows more people to enjoy the trails, and will help them learn about trail etiquette
Hall Ranch	Strongly Support	It would allow more people access.
Hall Ranch	Strongly Support	Older people need to be able to ride.
Hall Ranch	Strongly Support	There needs to be ample visibility
Hall Ranch	Strongly Support	They get people out. Fun. No faster/just as safe downhill.
Heil Valley Ranch	Strongly Oppose	Bikers in general should slow down. I oppose power vehicles in any park.
Heil Valley Ranch	Strongly Oppose	Bikes are already fast enough. If you need a motor, just ride fewer miles.
Heil Valley Ranch	Strongly Oppose	Dangerous!
Heil Valley Ranch	Strongly Oppose	Dangerous, especially on tighter turns and narrow trails [that are] multidirectional.
Heil Valley Ranch	Strongly Oppose	Don't trust.
Heil Valley Ranch	Strongly Oppose	Don't want any kind of motorized vehicles/bikes on these trails.
Heil Valley Ranch	Strongly Oppose	E-bikes allow bikers to travel too fast on the trails. Sometimes regular bikers are on top of hikers before either party can react.
Heil Valley Ranch	Strongly Oppose	E-bikes are a step away from motorized dirt bikes.

Heil Valley Ranch	Strongly Oppose	E-bikes are too fast for mountain trails.
Heil Valley Ranch	Strongly Oppose	E-bikes ruin trails.
Heil Valley Ranch	Strongly Oppose	Find somewhere else to bike
Heil Valley Ranch	Strongly Oppose	I almost get hit by normal bikes while running, so I think it is a poor idea to add any type of e-bike on a trail where hikers or runners are present.
Heil Valley Ranch	Strongly Oppose	It will just increase crowding
Heil Valley Ranch	Strongly Oppose	I've almost been run over by children on e-bikes
Heil Valley Ranch	Strongly Oppose	Lack of handling skills for e-bikes
Heil Valley Ranch	Strongly Oppose	Many near-misses with e-bikes.
Heil Valley Ranch	Strongly Oppose	Motorized vehicles increase unpleasant interactions. Motorized bike users don't know trail etiquette.
Heil Valley Ranch	Strongly Oppose	No way to control e-bike speed. Not safe for hikers or wildlife.
Heil Valley Ranch	Strongly Oppose	Previous (many) interactions with e-bikes -- many go too fast to safely interact with.
Heil Valley Ranch	Strongly Oppose	Principle. Keep MN, MN. Other [illegible text omitted].
Heil Valley Ranch	Strongly Oppose	Scare horses
Heil Valley Ranch	Strongly Oppose	Some places should remain non-motorized.
Heil Valley Ranch	Strongly Oppose	This isn't meant for that. Hiking/biking only.
Heil Valley Ranch	Strongly Oppose	Tight turns with little visibility [are] already somewhat a problem with bikers/hikers/runners.
Heil Valley Ranch	Strongly Oppose	Too fast for all users of the trail, and e-motorcycle would be hard to [illegible text omitted].
Heil Valley Ranch	Oppose	20 mph as an option uphill/downhill etc. is too fast.
Heil Valley Ranch	Oppose	Bikes are already too much
Heil Valley Ranch	Oppose	Depends on motors—e-bike motor assist feels more acceptable/safe and allows greater access.
Heil Valley Ranch	Oppose	Don't like e-bikes.
Heil Valley Ranch	Oppose	Erosion, speed, hazard to others.
Heil Valley Ranch	Oppose	Going too fast.
Heil Valley Ranch	Oppose	I do feel like it could get dangerous around sharp corners. Already hard to tell when someone is coming.
Heil Valley Ranch	Oppose	I don't like the idea of e-bikes on trails, just roads.
Heil Valley Ranch	Oppose	I find hiking with bikes dangerous to hikers.
Heil Valley Ranch	Oppose	I just think there is so little singletrack in Boulder County for mountain biking, why open to motorized use?
Heil Valley Ranch	Oppose	I like it the way it is. E-bikes that are faster will sneak up.
Heil Valley Ranch	Oppose	If e-bikes would slow down for walkers.
Heil Valley Ranch	Oppose	Low experience leads to problems
Heil Valley Ranch	Oppose	Not a bike

Heil Valley Ranch	Oppose	Oppose except for older or less-able people that can't pedal.
Heil Valley Ranch	Oppose	Ruins flow of uphill riding for normal bikes.
Heil Valley Ranch	Oppose	Seems dangerous and could make trails crowded.
Heil Valley Ranch	Oppose	They're basically motorcycles—heavy and fast. [E-bikes are] ok for special disability situations.
Heil Valley Ranch	Oppose	Too disruptive.
Heil Valley Ranch	Oppose	Too fast [and] reckless.
Heil Valley Ranch	Oppose	Why have them?
Heil Valley Ranch	Oppose	Worried about getting hurt. Also, [I] don't want extra noise.
Heil Valley Ranch	Neutral	Anything that gets people outside is good.
Heil Valley Ranch	Neutral	As long as they are safe, I am fine.
Heil Valley Ranch	Neutral	Didn't see an e-bike, so I don't know what that would be like.
Heil Valley Ranch	Neutral	Doesn't bother me.
Heil Valley Ranch	Neutral	E bikes are somewhat dangerous to other riders & trail users so designated trails would be smart
Heil Valley Ranch	Neutral	E-bikes do allow those with disabilities to ride, but feel that many don't have good trail etiquette.
Heil Valley Ranch	Neutral	E-bikes ridden properly and at appropriate speeds should be allowed where bikes are allowed.
Heil Valley Ranch	Neutral	Haven't experienced e-bikes on trails, so not sure how that would feel.
Heil Valley Ranch	Neutral	I am not opinionated on e-bikes.
Heil Valley Ranch	Neutral	I don't know, what I don't know about this...
Heil Valley Ranch	Neutral	I don't care.
Heil Valley Ranch	Neutral	I don't really have a reason.
Heil Valley Ranch	Neutral	I don't think it will affect my experience.
Heil Valley Ranch	Neutral	I have never seen one on the trail.
Heil Valley Ranch	Neutral	I think e-bike trails are needed. Encountering uphill traffic going fast is annoying and sometimes dangerous. Typical "uphill right of way" rules don't always work as intended.
Heil Valley Ranch	Neutral	I worry about e-bikes going faster than other riders, causing trail damage, etc. But I am also getting older and maybe I would like an e-bike one day. Also disabled/less fit people can enjoy riding.
Heil Valley Ranch	Neutral	I'm not bothered by e-bikes. But I know they can damage trails.
Heil Valley Ranch	Neutral	It's okay the way it is.
Heil Valley Ranch	Neutral	Most e-bikes are ok, it increases access for older/less fit riders, but some folks go too fast.
Heil Valley Ranch	Neutral	Not much interaction with these!
Heil Valley Ranch	Neutral	NOT SURE

Heil Valley Ranch	Neutral	This trail would be ok, but with as busy as it gets most likely will lead to issues and injuries.
Heil Valley Ranch	Neutral	Tough to draw a line on e-bike vs. motor. Although option of self-propelled is a good consideration.
Heil Valley Ranch	Neutral	Up to residents to decide
Heil Valley Ranch	Not Sure	I don't know.
Heil Valley Ranch	Not Sure	I have not encountered this while out on a trail.
Heil Valley Ranch	Not Sure	I like that it can increase accessibility, but haven't had enough personal experiences with other e-bikes, and not sure of "conflicts" when we have our four-year-old biking on the trail with us.
Heil Valley Ranch	Not Sure	Please allow e-bikes.
Heil Valley Ranch	Support	Allows greater access.
Heil Valley Ranch	Support	Biking is a well-loved activity in Boulder area.
Heil Valley Ranch	Support	E-bikes are ok.
Heil Valley Ranch	Support	E-bikes open access to more people who otherwise wouldn't be able to enjoy them.
Heil Valley Ranch	Support	Great for older people.
Heil Valley Ranch	Support	I am open to experiments and want people to be able to live their lives.
Heil Valley Ranch	Support	I want everyone who can and wants to get out to do so even if it is not something they have the physicality to maintain all the time
Heil Valley Ranch	Support	I want more people to ride bikes so biking is normalized and gets more infrastructure (and becomes safer!)
Heil Valley Ranch	Support	I'm fine with e-bikes, but don't want them going too fast.
Heil Valley Ranch	Support	More accessibility is nice
Heil Valley Ranch	Support	More people able to enjoy biking is good for biking. And I'm old enough to see e-biking on the horizon.
Heil Valley Ranch	Support	Not every[one] can mountain bike, thus increasing enjoyment for more people.
Heil Valley Ranch	Support	They are battery run, helps those who are unable to easily enjoy biking.
Heil Valley Ranch	Strongly Support	A trial would be great to see how e-bikes impact the trails. E-bikes allow riders to enjoy recreating even at different skill levels.
Heil Valley Ranch	Strongly Support	E-bike riders are ok. NO electric motorcycles!!
Heil Valley Ranch	Strongly Support	E-bikes allow riders who may not be able to ride a trail to access them. And when ridden responsibly and trail etiquette is followed, they can be a great tool for fitness
Heil Valley Ranch	Strongly Support	E-bikes should be regulated the same as normal bikes. They are already using the trails, legal or not.

Heil Valley Ranch	Strongly Support	Good to get folks out and into the sport. Being passed by 75-year-olds is great motivation.
Heil Valley Ranch	Strongly Support	I feel that their impact is the same as normal bikes
Heil Valley Ranch	Strongly Support	I think e-bikes just increase accessibility.
Heil Valley Ranch	Strongly Support	I'm an older rider with knee problems
Heil Valley Ranch	Strongly Support	Manual bikers go too fast too.
Heil Valley Ranch	Strongly Support	People trying to get out and get fit. E-bike allows them to be out and enjoy good trails.
Heil Valley Ranch	Strongly Support	Provides more access for differently-abled riders.
Heil Valley Ranch	Strongly Support	The more people enjoying the outdoors the better. E-bike[s] allow people out here that would/could not do it otherwise.
Heil Valley Ranch	Strongly Support	They don't cause any problems, allows more people to participate (check out Park City's rules for over 65 adults).
Heil Valley Ranch	Blank	I fully support class 1 bikes on this singletrack, but prefer nothing with a throttle.
Lagerman Agricultural Preserve	Strongly Oppose	Bikes need to be educated on trail etiquette.
Lagerman Agricultural Preserve	Strongly Oppose	Danger to runners, walkers.
Lagerman Agricultural Preserve	Strongly Oppose	Dangerous, especially unregulated drivers
Lagerman Agricultural Preserve	Strongly Oppose	Don't think e-bikes are bikes, they are OHVs.
Lagerman Agricultural Preserve	Strongly Oppose	E-bikes should be limited to select trails.
Lagerman Agricultural Preserve	Strongly Oppose	E-bikes should not be allowed on trails. E-bikes should only be allowed on public roads.
Lagerman Agricultural Preserve	Strongly Oppose	Have found e-bike[r]s to be inconsiderate around Longmont.
Lagerman Agricultural Preserve	Strongly Oppose	Heil and Betasso are natural experiences and pace of e-bikes doesn't seem to match.
Lagerman Agricultural Preserve	Strongly Oppose	I don't want to be run over.
Lagerman Agricultural Preserve	Strongly Oppose	I run here and I suggest make the 5-mile loop designated running days and other designated bike days (like Betasso).
Lagerman Agricultural Preserve	Strongly Oppose	I run on county trails frequently and most e-bikes do not slow down and don't announce they are coming up behind you. Should be banned from trails; people are going to get injured by them.
Lagerman Agricultural Preserve	Strongly Oppose	It is not safe.

Lagerman Agricultural Preserve	Strongly Oppose	Motor vehicles have no place on parks and trails. Safety is a huge concern.
Lagerman Agricultural Preserve	Strongly Oppose	No motorized vehicles on trails I'm on
Lagerman Agricultural Preserve	Strongly Oppose	People abuse the trails and dig them up.
Lagerman Agricultural Preserve	Strongly Oppose	Potential for collision, crashing, hitting the trails, etc. Would definitely like to see elimination of "powered" bikes from this trail and St. Vrain bikeway due to [illegible text omitted] and dangers.
Lagerman Agricultural Preserve	Strongly Oppose	Riders not paying attention to walkers, runners.
Lagerman Agricultural Preserve	Strongly Oppose	Ruins the peace and quiet. Too fast.
Lagerman Agricultural Preserve	Strongly Oppose	Speed and crowding.
Lagerman Agricultural Preserve	Strongly Oppose	There are already issues with too many mountain bikes. Allowing e-bikes would make matters worse.
Lagerman Agricultural Preserve	Strongly Oppose	They don't acknowledge trail presence.
Lagerman Agricultural Preserve	Strongly Oppose	They go too fast and are an accident waiting to happen
Lagerman Agricultural Preserve	Strongly Oppose	They go too fast.
Lagerman Agricultural Preserve	Strongly Oppose	They go too fast. Hard for them to manage, especially if inexperienced.
Lagerman Agricultural Preserve	Strongly Oppose	To[o] many of the e-bikes I see around this area are e-dirt bikes (look and are designed more like the ICE dirt bikes and exceed the speed limits even for the class 3 e-bikes). Without a plan to monitor and enforce the limits, I would be opposed.
Lagerman Agricultural Preserve	Strongly Oppose	Trails are hard to navigate with runners, dogs, and mountain bikes. Works well as is. Faster bikes make me nervous.
Lagerman Agricultural Preserve	Strongly Oppose	Wouldn't work here during busy times.
Lagerman Agricultural Preserve	Oppose	Can be inexperienced bike handlers.
Lagerman Agricultural Preserve	Oppose	For me, e-bikes are great for accessibility needs, but everyone else is too fast or aggressive. Too powerful and people break the 20-mph rule.
Lagerman Agricultural Preserve	Oppose	I think many e-bike riders do not know how to safely ride a bike, so they are dangerous and should have to pass a bicycle safety course.

Lagerman Agricultural Preserve	Oppose	I'm worried they're too fast and will lead to collisions
Lagerman Agricultural Preserve	Oppose	It is difficult enough to share the trail with bicycles when hiking. E-bike users often go to[o] fast and are a hazard.
Lagerman Agricultural Preserve	Oppose	Kids go too fast.
Lagerman Agricultural Preserve	Oppose	Like speedy bikers, they may not be aware of how to share a trail. (I don't know...)
Lagerman Agricultural Preserve	Oppose	Mixed — I get accessibility issues. But bikers almost never yield to hikers. In many, many years of hiking, I've had it one time. Limit bikes (all bikes) to more like 10 mph.
Lagerman Agricultural Preserve	Oppose	No enforcement over 20 mph.
Lagerman Agricultural Preserve	Oppose	Seldom pedaling and going too fast.
Lagerman Agricultural Preserve	Oppose	There are winding curves on the trail that are difficult to see around, making higher speeds more dangerous for hikers and runners.
Lagerman Agricultural Preserve	Oppose	They come up on you too quietly. Need a bell or something to let you know they are coming. Also, they go too fast. Can run over dog leash and scare my dog.
Lagerman Agricultural Preserve	Oppose	They should take a required skills course first.
Lagerman Agricultural Preserve	Oppose	They tend to be too fast
Lagerman Agricultural Preserve	Oppose	Too fast
Lagerman Agricultural Preserve	Oppose	Usually ridden by inexperienced riders.
Lagerman Agricultural Preserve	Neutral	As long as they are respectful.
Lagerman Agricultural Preserve	Neutral	E-bikes are great for some people.
Lagerman Agricultural Preserve	Neutral	I am an e-bike rider and I am very sensitive to other trail users, but there will be other riders that are not, and I would hate to ruin the trail access for regular mob riders. Also, the trail access in Boulder is limited, and it might not make sense to add a different type of trail users.
Lagerman Agricultural Preserve	Neutral	I don't mind the ones that don't have throttles. The bikes with throttles seem more like dirt bikes than mountain bikes

Lagerman Agricultural Preserve	Neutral	I don't mind them at all.
Lagerman Agricultural Preserve	Neutral	I don't understand using a device to not exercise on an exercise venue.
Lagerman Agricultural Preserve	Neutral	I support e-bikes as long as they are real bikes — that you have to pedal.
Lagerman Agricultural Preserve	Neutral	I think anything that gets people outside and active is a good thing.
Lagerman Agricultural Preserve	Neutral	I would not want e-bikes on smaller trails like singletrack but larger gravel trails are fine.
Lagerman Agricultural Preserve	Neutral	If they don't interfere and follow rules like everyone else.
Lagerman Agricultural Preserve	Neutral	If they follow rules, it's ok.
Lagerman Agricultural Preserve	Neutral	N/A
Lagerman Agricultural Preserve	Neutral	Safety
Lagerman Agricultural Preserve	Neutral	Some use e-bikes for recreational use and some out of necessity. Personally, I don't support e-bike use unless it's necessary (i.e., disability, age).
Lagerman Agricultural Preserve	Neutral	They also need to do their training.
Lagerman Agricultural Preserve	Neutral	They are a large presence on trails (negative) but I have friends that enjoy the outdoors on e-bikes.
Lagerman Agricultural Preserve	Neutral	They need somewhere to go. I'd rather here than other trails.
Lagerman Agricultural Preserve	Not Sure	I don't e-bike. Don't know enough to comment.
Lagerman Agricultural Preserve	Support	[They] get more people exercising.
Lagerman Agricultural Preserve	Support	Bikes are fine here, not too fast is best.
Lagerman Agricultural Preserve	Support	Don't like e-bikes on trails.
Lagerman Agricultural Preserve	Support	Easy way to enable more people to enjoy beautiful BoCo trails.
Lagerman Agricultural Preserve	Support	E-bikes allow folks who cannot bicycle on their own or are limited to use these trails. But non-class 2 or 3 must be prohibited and enforced
Lagerman Agricultural Preserve	Support	Everybody has the right to enjoy trails on bikes and some folks need e-bikes.
Lagerman Agricultural Preserve	Support	I do have an e-bike, but I don't feel it would hurt my lifestyle if I could not use it.

Lagerman Agricultural Preserve	Support	I don't care either way, it's mostly empty.
Lagerman Agricultural Preserve	Support	I support but I hike and run all these trail[s] -- Betasso not the right place for it. Selective when appropriate.
Lagerman Agricultural Preserve	Support	I support but would like the speed to be reduced. The kids just speed through
Lagerman Agricultural Preserve	Support	I support use of e-bikes, but feel they need to be under 15 mph.
Lagerman Agricultural Preserve	Support	In general, I prefer sharing existing trail[s]. But it only works if the rules are generally followed and enforced.
Lagerman Agricultural Preserve	Support	Older people can have more variety of trails.
Lagerman Agricultural Preserve	Support	Quiet. Makes it easier for older folks.
Lagerman Agricultural Preserve	Support	Up to 20 [mph] is fine, greater than 20 gets dicey.
Lagerman Agricultural Preserve	Support	Use is good
Lagerman Agricultural Preserve	Strongly Support	Accessibility to trail use is a win for all.
Lagerman Agricultural Preserve	Strongly Support	Because I have a class 2 e-bike and would like to go there too.
Lagerman Agricultural Preserve	Strongly Support	Because I have a pedal assist and they're limited on speed, and pros go faster than people on e-bikes, and the US is uniquely opposed to them while other countries welcome all people on almost any kind of bike.
Lagerman Agricultural Preserve	Strongly Support	E-bikes are great to get more people out more. Commuting miles.
Lagerman Agricultural Preserve	Strongly Support	E-bikes increase the number of people that can ride a bike.
Lagerman Agricultural Preserve	Strongly Support	I am old and ride slow, and can only use an e-bike, and trails are the only place where I can ride safely.
Lagerman Agricultural Preserve	Strongly Support	I ride a 20-mph max e-bike for just this purpose.
Lagerman Agricultural Preserve	Strongly Support	I ride an e-bike because of health issues and would love more places to ride. I ride responsibly and think e-bikes should be allowed everywhere. Set a speed limit if you're worried about fast riders and remember that plenty of fit people locally can go fast on a regular bike.
Lagerman Agricultural Preserve	Strongly Support	If people are responsible, e-bikes are fine. As we get older, we need e-bikes.
Lagerman Agricultural Preserve	Strongly Support	If we drive cars, then e-bikes are the least of your trail management issues. I think e-bikes are important for

		older trail riders and/or people with injuries or disabilities. As long as the trails are respected by all (wet conditions = no bikes), I don't see a difference between traditional bikes and e-bikes.
Lagerman Agricultural Preserve	Strongly Support	It allows elders to ride the trail that may not be able to do it on a regular bike, or someone with injuries.
Lagerman Agricultural Preserve	Strongly Support	It gets everyone a chance to experience the trails.
Lagerman Agricultural Preserve	Strongly Support	Love e-biking.
Lagerman Agricultural Preserve	Strongly Support	More inclusive for people that otherwise may not physically be able to use the trails.
Lagerman Agricultural Preserve	Strongly Support	My 74-year-old parents ride e-bikes on Boulder County soft surface plains trails. E-bikes have been transformative for their mobility and ability to enjoy more of the outdoors. I support additional, regulated access for class 1 e-bikes on foothills and mountain trails.
Lagerman Agricultural Preserve	Strongly Support	Same impact as normal, non-electric bikes. [It] helps disabled individuals gain better access.
Lagerman Agricultural Preserve	Strongly Support	They're already there anyway.
Lagerman Agricultural Preserve	Strongly Support	We are senior citizens and need e-bikes!
Lagerman Agricultural Preserve	Strongly Support	We just bought e-bikes and love how far we can go.
Lagerman Agricultural Preserve	Blank	Generally, oppose e-bikes unless you'r[e] super old.
Legion Park	Strongly Oppose	E-bike = motorized to me and should be treated as such.
Legion Park	Strongly Oppose	E-bike ability/behavior (social)
Legion Park	Strongly Oppose	I like e-bikes for a means of transportation, but not on trails—defeats the purpose.
Legion Park	Strongly Oppose	If they don't have the balls or the fitness to pedal their own bike, then they shouldn't be on trail.
Legion Park	Strongly Oppose	Too much other kind of traffic to navigate.
Legion Park	Oppose	Damage to trails - FIRE RISK
Legion Park	Oppose	Dangerous
Legion Park	Oppose	E-bikes typically travel at faster speeds than most bikes, which can be dangerous, especially with children present.
Legion Park	Oppose	Gotta work for the trail.
Legion Park	Oppose	I want to keep things safer, so less e-bikes.

Legion Park	Oppose	It can be dangerous to have e-bikes on hiking trails, especially if riders aren't considerate, but I think it's safe on paved paths with divided lanes
Legion Park	Oppose	It's a nature trail with dogs and such, motorized vehicles no matter what kind should NOT be allowed.
Legion Park	Oppose	People seem to speed more than they should.
Legion Park	Oppose	Supposed to be peaceful
Legion Park	Oppose	The people on the e-bikes haven't been taught the rules and are generally not polite. Most are tweens/teens.
Legion Park	Neutral	As long as the bike[s] stay on their bike trails, I'm happy either way.
Legion Park	Neutral	Don't want the trails to be trashed.
Legion Park	Neutral	E-bikes are commuter friendly.
Legion Park	Neutral	I don't bike but others do.
Legion Park	Neutral	I don't mind them.
Legion Park	Neutral	I just work down here, so I'm not very sure
Legion Park	Neutral	No opinion
Legion Park	Neutral	No preference
Legion Park	Neutral	No preference.
Legion Park	Not Sure	I don't know, I've never been here before.
Legion Park	Not Sure	I haven't been on the trail, so I didn't meet any bicycle[s], and I don't know if the trails are wide and/or appropriate for that.
Legion Park	Not Sure	I'll leave that for the locals.
Legion Park	Not Sure	No rules is best
Legion Park	Support	As long as it's select trails, I'd lean toward trying it
Legion Park	Support	Can be good for environment, encourages non-athletes to go outside.
Legion Park	Support	Diversity of use.
Legion Park	Support	E-bikes are cool
Legion Park	Support	I believe e-bikes have their place for people who might need assistance to ride the trail. I might recommend that they have their own dedicated trail for use though.
Legion Park	Support	I don't have an e-bike, but support almost anything that gets people outside.
Legion Park	Support	I have an e-bike and [it's] capped at 20 mph. I think it's fast enough.
Legion Park	Support	Some e-bikes can be good and it's good to test it out
Legion Park	Support	Sometimes e-bikes are the only way certain individuals can ride trails. Everyone should have the ability to enjoy all the trails as long as they are courteous.
Legion Park	Support	They aren't as bad

Legion Park	Support	Under 20 mph, very similar to [a] regular bike.
Legion Park	Strongly Support	E-bikes are only going to become more prevalent. If it gets people outside, I support it. Speed limits/enforcement of electric dirt bikes should be mandatory. The classification of e-bikes/ e-dirt bikes needs to be established more clearly
Legion Park	Strongly Support	I am older and e-bikes expand my outdoor opportunities.
Legion Park	Strongly Support	I have bad knees and can only ride an e-bike.
Legion Park	Strongly Support	I like e-bikes and would support more outdoor activities.
Legion Park	Strongly Support	I think e-bikes are a clean and quiet source of entertainment and transportation that we should encourage! They also reduce parking congestion and traffic.
Legion Park	Strongly Support	It['s] always cool to see people getting out.
Legion Park	Strongly Support	It's a modern way of transportation
Legion Park	Strongly Support	They are fun and it keeps them off the streets
Legion Park	Strongly Support	They should be able to ride trails.
Legion Park	Strongly Support	They're dangerous to pedestrians.
Legion Park	Blank	Do not want to hear motors. More concerned about dog waste than bikes—we have two dogs.
Mud Lake	Strongly Oppose	Because I mountain bike AND e-bike, and I only e-bike on city trails/roads, and mountain bike on trails.
Mud Lake	Strongly Oppose	Bicycles scare my dog.
Mud Lake	Strongly Oppose	Conflict
Mud Lake	Strongly Oppose	Cyclists need to learn and practice yielding.
Mud Lake	Strongly Oppose	Dangerous for hikers (especially kids and dogs).
Mud Lake	Strongly Oppose	E-bikes are for roads.
Mud Lake	Strongly Oppose	E-bikes can be fast and could hit hikers. Will also put more stress on local fire departments with more injuries.
Mud Lake	Strongly Oppose	I like the quiet.
Mud Lake	Strongly Oppose	I like to hike in peace, and not have to worry about getting run over.
Mud Lake	Strongly Oppose	I would like to keep motor vehicles outside of nature.
Mud Lake	Strongly Oppose	Incompatible with other users.
Mud Lake	Strongly Oppose	Motorized vehicles don't belong on already shared trails.
Mud Lake	Strongly Oppose	No need for that.
Mud Lake	Strongly Oppose	Noise, speed is not commensurate with other users. Accessibility is not typically the reason for e-bike use, and there are other places they can be used.
Mud Lake	Strongly Oppose	Not a big enough park to allow for.

Mud Lake	Strongly Oppose	Not a fan of e-bikes. I don't see them helping less-abled people, they just make normal bikers faster.
Mud Lake	Strongly Oppose	Potential danger for our kids.
Mud Lake	Strongly Oppose	Regular bikes are fine. E-bikes move too fast to share trail.
Mud Lake	Strongly Oppose	Ruin the peace
Mud Lake	Strongly Oppose	Should be motor free.
Mud Lake	Strongly Oppose	So distracting.
Mud Lake	Strongly Oppose	There needs to be special places like this for only walkers.
Mud Lake	Strongly Oppose	They are faster than me!
Mud Lake	Strongly Oppose	They don't obey this speed limit, almost been hurt by regular bikers.
Mud Lake	Strongly Oppose	They move too fast.
Mud Lake	Strongly Oppose	This is a kid-friendly park and e-bikes are super dangerous
Mud Lake	Strongly Oppose	Too distracting to the environment.
Mud Lake	Strongly Oppose	Too fast
Mud Lake	Strongly Oppose	Too fast for trails. Unpleasant experience.
Mud Lake	Strongly Oppose	Trails are for hiking; someone will definitely get hit.
Mud Lake	Strongly Oppose	Unsafe for pedestrians, dogs, horses. Impacts experience.
Mud Lake	Oppose	20 mph is quite fast for most trails.
Mud Lake	Oppose	As a fire fighter, I don't want to spend time rescuing them.
Mud Lake	Oppose	As a hiker, I don't enjoy having bikes on the same trails that I'm hiking.
Mud Lake	Oppose	Bikers tend to not abide [by] trail law.
Mud Lake	Oppose	Concerned that allowing e-bikes would increase overall number of bikers on the trail, making it difficult/dangerous to hike.
Mud Lake	Oppose	Concerns about increased bike traffic and inexperienced cyclist[s] on the trails.
Mud Lake	Oppose	Dangerous
Mud Lake	Oppose	E-bike riders are generally less skilled and ride too fast to make good judgement.
Mud Lake	Oppose	Especially on this calm, easy to navigate trail.
Mud Lake	Oppose	Feels dangerous to hikers.
Mud Lake	Oppose	Going too fast, potential for injury.
Mud Lake	Oppose	Hard with kids.
Mud Lake	Oppose	I feel these may be too fast to share the trail with hikers and children.
Mud Lake	Oppose	It can make hiking a little less relaxing having to watch out for fast bikes.
Mud Lake	Oppose	Keep it for walking purposes

Mud Lake	Oppose	Protect wildlife
Mud Lake	Oppose	Safety for people on foot.
Mud Lake	Oppose	The noise and speed!
Mud Lake	Oppose	They go too fast.
Mud Lake	Oppose	Too fast
Mud Lake	Oppose	Too fast
Mud Lake	Oppose	Too fast for comfortable hiking and dog walking.
Mud Lake	Oppose	Too many people going too fast on heavy and dangerous bikes and electric dirt-bikes.
Mud Lake	Oppose	TOO MANY PEOPLE OUT OF CONTROL!
Mud Lake	Oppose	Usually hiking
Mud Lake	Oppose	Want and need the quiet, slow tempo.
Mud Lake	Oppose	We live in Boulder and 20 mph on the paths is WAY TOO FAST.
Mud Lake	Neutral	[I'm] not entirely opposed, but [I'm] worried [that] more e-bikes would cause conflict with hikers.
Mud Lake	Neutral	Bikes are cool.
Mud Lake	Neutral	Depends on trails.
Mud Lake	Neutral	Great opportunity for those who need e-bikes for access, but can create more noise.
Mud Lake	Neutral	If everyone is respectful, it should be fine.
Mud Lake	Neutral	Indifferent
Mud Lake	Neutral	No opinion
Mud Lake	Neutral	Not familiar enough with mountain biking
Mud Lake	Neutral	Not familiar with them, but if they're quiet, seems fine.
Mud Lake	Neutral	Not sure
Mud Lake	Neutral	Pros and cons. Fun, but can be used dangerously.
Mud Lake	Neutral	So long as there are hiker-only trails also available.
Mud Lake	Neutral	There could be conflict with other trail users, but if implemented well, [that] could be avoided.
Mud Lake	Neutral	Too many other places for e-bikes that don't have people/dogs on foot.
Mud Lake	Neutral	Trails are a little narrow for both hikers and bikes.
Mud Lake	Neutral	Why not try it?
Mud Lake	Neutral	Would prefer no e-bikes, but I recognize that many people need them now.
Mud Lake	Not Sure	I've never experienced an encounter with an e-bike but I feel like it might be a conflict.
Mud Lake	Not Sure	Saw no bikes.
Mud Lake	Support	Allows access to broader pop.
Mud Lake	Support	As long as other bikes are allowed, why not? But I don't love being a hiker around bikes or e-bikes.
Mud Lake	Support	As long as riders and hikers are responsible, I see no issue. It could add an element of accessibility.

Mud Lake	Support	As long as they are on trails already dedicated to bike[s]
Mud Lake	Support	E-bikes open this space up to more people.
Mud Lake	Support	I have one. It's all about courtesy and right of way.
Mud Lake	Support	I like e-bikes with respectful owners.
Mud Lake	Support	I think if e-bikes have their own designated trails, it is okay.
Mud Lake	Support	Increased access!
Mud Lake	Support	Trial will determine rollout vs not.
Mud Lake	Strongly Support	I also ride bikes and an e-bike and wish there were more options to ride
Mud Lake	Strongly Support	I'm 78 years old! I have an e-bike. I actually know that the speed limit on the Boulder Creek Trail (in town) is 15 mph!
Mud Lake	Strongly Support	It's a bike, not an issue.
Mud Lake	Blank	ARE E-BIKES REALLY NECESSARY[?]
Mud Lake	Blank	Don't care. But on one hand, as a hiker, [it's] nice to just hike, but I also mountain bike and my girlfriend uses an e-bike, so I do support access.
Mud Lake	Blank	Strongly support e-bike use on less crowded/popular trails. It makes mountain biking more inclusive. Strongly oppose e-bikes on popular, high-use trails because it's too disruptive to other users. I mountain bike a lot, and [I'm] happy to pull over occasionally for e-bikes, but on the most popular trails it's dangerous and annoying.
Pella Crossing	Strongly Oppose	[I] would like paths just for walking.
Pella Crossing	Strongly Oppose	20 mph is too fast for these trails without interfering with the walkers/joggers.
Pella Crossing	Strongly Oppose	Annoying
Pella Crossing	Strongly Oppose	Because they are irresponsible [and] too fast. Even REGULAR bikes endanger old dogs and old people.
Pella Crossing	Strongly Oppose	Because they are taking over—too many kids use [them], and are not responsible.
Pella Crossing	Strongly Oppose	Bikes are frequently modified to exceed 20 miles per hour. There doesn't seem to be an effective enforcement tool for that.
Pella Crossing	Strongly Oppose	Careless drivers.
Pella Crossing	Strongly Oppose	Concerns for safety, and they steal the peacefulness.
Pella Crossing	Strongly Oppose	Danger
Pella Crossing	Strongly Oppose	Dangerous for us walkers and elderly
Pella Crossing	Strongly Oppose	Dangerous speeds
Pella Crossing	Strongly Oppose	Dangerous, shouldn't be where there are hikers.
Pella Crossing	Strongly Oppose	Disturbs the tranquility of the park.

Pella Crossing	Strongly Oppose	E-bikes are getting very heavy and very fast creating dangerous situations.
Pella Crossing	Strongly Oppose	E-BIKES ARE THREATENING TO WALKERS, DISRUPTING FLOW [OF] CONVERSATION. NO E-BIKES OR BIKES EVER, PLEASE.
Pella Crossing	Strongly Oppose	E-bikes are too unregulated and riders often imperil pedestrians. This is a flat trail. They can pedal by their own power.
Pella Crossing	Strongly Oppose	E-bikes emit harmful EMFs and promote disease. They are noisy and go too fast, and are disruptive to wildlife and trail goers. E-bikes should not be permitted off roads and paved sidewalks.
Pella Crossing	Strongly Oppose	E-bikes/bikes are not conducive with hikers.
Pella Crossing	Strongly Oppose	Have enough trails for bikes.
Pella Crossing	Strongly Oppose	I am here to walk and relax. With people on e-bikes, [I] constantly have to be aware of "on your right."
Pella Crossing	Strongly Oppose	I come to nature for peace
Pella Crossing	Strongly Oppose	I think most people walk and bird watch. E-bikes would interfere with the peaceful feeling of the trail.
Pella Crossing	Strongly Oppose	I think that the bikes and riders are too much for this set of trails (Pella), but appropriate for other trails where there is more room.
Pella Crossing	Strongly Oppose	I'm a cyclist myself, and bikes don't belong on this trail. They have plenty of other places to go!
Pella Crossing	Strongly Oppose	Incompatible with hikers.
Pella Crossing	Strongly Oppose	It's the drivers/riders; they are aggressive and there are certainly bikes on every trail in Boulder County that exceed the 20-mph limit, and are basically motorbikes.
Pella Crossing	Strongly Oppose	Just no. Where will we draw the line? Boundaries are ok. Please, no.
Pella Crossing	Strongly Oppose	Keep the park for hikers. Older people especially, can feel intimidated.
Pella Crossing	Strongly Oppose	Noise! And speed. Dislike bikes on walking paths. No one ever says, "on your right, or left" anymore!!
Pella Crossing	Strongly Oppose	Noise, aggressive drivers.
Pella Crossing	Strongly Oppose	Noise, damage to trails, courtesy
Pella Crossing	Strongly Oppose	Noise, speed, visual
Pella Crossing	Strongly Oppose	Non-motorized is best.
Pella Crossing	Strongly Oppose	Often, the bikes have no respect for pedestrians. It doesn't work with pedestrians, kids, dogs.
Pella Crossing	Strongly Oppose	Pedaling is exercise, motoring is not.
Pella Crossing	Strongly Oppose	Pella has a nice slow energy to it. Those bikes would change that.

Pella Crossing	Strongly Oppose	People need physical activity. E-bike for handicapped maybe.
Pella Crossing	Strongly Oppose	Please do not allow e-bikes. They're noisy and riders have not been great at sharing trails.
Pella Crossing	Strongly Oppose	Tend to go too fast.
Pella Crossing	Strongly Oppose	The drivers can't be trusted to not speed. It's a recipe for disaster with leashed dogs, in my opinion.
Pella Crossing	Strongly Oppose	There are too many bikes and overcrowding up there, the last thing we need is more bikes with people that can't currently make it up there. It would be a horrible mistake.
Pella Crossing	Strongly Oppose	They are dangerous for everyone around them! Aren't considerate of others.
Pella Crossing	Strongly Oppose	They are dangerous to everyone around.
Pella Crossing	Strongly Oppose	They are too large and go too fast
Pella Crossing	Strongly Oppose	They create trail overcrowding and diminish the experience
Pella Crossing	Strongly Oppose	They think they own the walkway.
Pella Crossing	Strongly Oppose	This area and the wildlife are at greater risk.
Pella Crossing	Strongly Oppose	Too fast/obstruct nature.
Pella Crossing	Strongly Oppose	Too reckless, no etiquette, too fast
Pella Crossing	Strongly Oppose	We come for a quiet, slower experience, and fast bikes electric or not, are a danger and nuisance to walkers and hikers.
Pella Crossing	Strongly Oppose	Will be disruptive - too fast - want nature only
Pella Crossing	Strongly Oppose	Will make things too crowded, not trusting that I'd be safe.
Pella Crossing	Oppose	[A] hike gives [me the] opportunity to relax [and] get calm. Watching for motorized vehicles destroys that opportunity. [There are] so few places to walk safely away from cars.
Pella Crossing	Oppose	[I] do not believe it to be safe.
Pella Crossing	Oppose	Bikers often act like they have the right of way. They are also often in packs. Being passed by fast bikes is annoying.
Pella Crossing	Oppose	Bikes and walking on similar trails can be challenging.
Pella Crossing	Oppose	Cause[s] issues with pedestrians.
Pella Crossing	Oppose	Damage to the trails
Pella Crossing	Oppose	Dangerous
Pella Crossing	Oppose	Dangerous disparity in speed
Pella Crossing	Oppose	Do not include Ron Stewart trails, road okay, bikes okay, no e-bikes
Pella Crossing	Oppose	Dog gets scared
Pella Crossing	Oppose	Don't want the noise and speed when I'm walking.

Pella Crossing	Oppose	E bikes should stay on the road. Too much aggression could ensue.
Pella Crossing	Oppose	E-bikes are too fast for trails.
Pella Crossing	Oppose	Horses are on trail.
Pella Crossing	Oppose	I don't think motors have any business out there. I want quiet and not motorized.
Pella Crossing	Oppose	I feel like they would be distracting. They are distracting in other places where I encounter them.
Pella Crossing	Oppose	It just creates [a] more stressful atmosphere. If biking, just bike!
Pella Crossing	Oppose	Keep nature friendly.
Pella Crossing	Oppose	More of a walk trail
Pella Crossing	Oppose	Most trails are not really fit for motorized bikes — motorized bikes would ruin the experience of those of us who hike
Pella Crossing	Oppose	Noise, speed, attitude
Pella Crossing	Oppose	Not enough room here
Pella Crossing	Oppose	Opportunity to speed.
Pella Crossing	Oppose	Prone to accidents for those that can't hear.
Pella Crossing	Oppose	Safety for walkers/hikers.
Pella Crossing	Oppose	Safety of people, and e-bike[s] tend to speed.
Pella Crossing	Oppose	Safety/noise
Pella Crossing	Oppose	Some trails should be preserved for foot traffic only, especially when walking dogs. They aren't wide enough for bikes and pedestrians.
Pella Crossing	Oppose	The speeds they can go are incompatible with hikers and dogs.
Pella Crossing	Oppose	There are better trails for walking and slow bikes.
Pella Crossing	Oppose	There are enough trails for that.
Pella Crossing	Oppose	They are not always polite to walkers.
Pella Crossing	Oppose	They go too fast.
Pella Crossing	Oppose	Too fast
Pella Crossing	Oppose	Too fast.
Pella Crossing	Oppose	Too much speed and noise— this is a quiet getaway, please keep it that way.
Pella Crossing	Oppose	Would make trails more crowded.
Pella Crossing	Neutral	[I] would want to understand costs and effects better.
Pella Crossing	Neutral	Already avoid trails with bikes. Too many close calls as a hiker.
Pella Crossing	Neutral	As long as it is done safely
Pella Crossing	Neutral	As long as it's done respectfully and safely, I don't have a problem with it
Pella Crossing	Neutral	As long as they are respectful.
Pella Crossing	Neutral	Don't have an opinion.
Pella Crossing	Neutral	I am not experienced in that.

Pella Crossing	Neutral	I am not going to ride one. I want people to [be] safe
Pella Crossing	Neutral	I don't mind
Pella Crossing	Neutral	I don't mind [e-bikes] on some trails, and it's nice to have trails without [them].
Pella Crossing	Neutral	I don't mind it.
Pella Crossing	Neutral	I think if they aren't loud and disruptive, they are very helpful for some people.
Pella Crossing	Neutral	I think it's nice as long as they're courteous to other visitors while passing.
Pella Crossing	Neutral	I've never had a bad interaction with an e-bike rider.
Pella Crossing	Neutral	I'd rather not have e-bikes, but I'm in support of people getting out in nature, and don't want to interfere with that.
Pella Crossing	Neutral	If bikes are allowed, I don't see why not e-bikes.
Pella Crossing	Neutral	If it's already a bike trail, [I'm] ok with e-bikes.
Pella Crossing	Neutral	If they pedal, it's ok—NO MOTORS.
Pella Crossing	Neutral	I'm honestly not too sure. I think a trial run would be efficient
Pella Crossing	Neutral	It's hard to listen out for bikers with my dog
Pella Crossing	Neutral	Not keen hiking on bike paths, but if there are separate trails, I am fine with e-bikes.
Pella Crossing	Neutral	Not very familiar with e-bikes.
Pella Crossing	Neutral	People that hot rod around, or come close to people ruin it— I've been nearly hit before. On the other hand, that is the only way that some people can get on trails if they can't walk far.
Pella Crossing	Neutral	Plenty of other private running trails
Pella Crossing	Neutral	Prefer horses 😊
Pella Crossing	Neutral	Seem[s] ok for now.
Pella Crossing	Neutral	Worry about safety, but also am never opposed to trialing things out and changing based on data.
Pella Crossing	Not Sure	I'm not sure whether that would change the walking experience.
Pella Crossing	Not Sure	I've never been on one
Pella Crossing	Support	Access for more people
Pella Crossing	Support	As long as the rider is respectful of walking people.
Pella Crossing	Support	Bikes are fun
Pella Crossing	Support	Hate them on walking trails -- separate trails only.
Pella Crossing	Support	Helps those that can't cover ground do so.
Pella Crossing	Support	I have an e-bike
Pella Crossing	Support	I have family/friends who aren't mobile enough to walk [around the] lakes. One would love to find more easy trails for her e-bike.

Pella Crossing	Support	I ride MTB at these trails and don't see this being a problem on those trails. Not sure [if] I would welcome them at Pella though.
Pella Crossing	Support	I think it should be trail-specific. Pella isn't a good fit because it is too short and most people are walking dogs.
Pella Crossing	Support	I'll need an e-bike someday and will want access to my favorite trails
Pella Crossing	Support	I'm conflicted since I've been a cyclist most of my life.
Pella Crossing	Support	Increases access
Pella Crossing	Support	Limited amount
Pella Crossing	Support	People can exercise how they want, who am I to dictate?
Pella Crossing	Support	We have an e-bike and would love to use [it] here.
Pella Crossing	Strongly Support	People can use them, which may have mobility problems, to experience the area.
Pella Crossing	Strongly Support	Accessibility is good for everyone. E-bikes can help people get out more and enjoy the parks.
Pella Crossing	Strongly Support	E-bike[s] are fine on trails.
Pella Crossing	Strongly Support	E-bikes improve accessibility for cyclists of all abilities
Pella Crossing	Strongly Support	I don't have any problem with people having fun as long as it's safe
Pella Crossing	Strongly Support	I love e-bikes.
Pella Crossing	Strongly Support	I ride an e-bike and want to ride the trails. I am more careful and polite than many of the bikers not on e-bikes!
Pella Crossing	Strongly Support	I use an e-bike and ride horses here a lot. It's more the individual person or personality.
Pella Crossing	Strongly Support	I'd prefer people to be outdoors, so [if] e-bikes are the way, then so be it. Most e-bikers give [a] signal to passerby[s] ahead of them.
Pella Crossing	Strongly Support	It allows people such as seniors and those with some disabilities who need assistance in order to ride their bike. This would be a nice place for them.
Pella Crossing	Strongly Support	It would allow less mobile people to access the park.
Pella Crossing	Strongly Support	Just got an e-bike and would love to ride it here :)
Pella Crossing	Strongly Support	No throttle e-bikes; pedal assist [is] ok.
Pella Crossing	Strongly Support	Regular bikes go fast too.
Pella Crossing	Strongly Support	They are great.
Pella Crossing	Strongly Support	Unless [there's] too many, then, may need to regulate a bit. For now, [it's] fine! Met two e-bikers this AM—very polite.
Pella Crossing	Strongly Support	We love our e-bikes.
Pella Crossing	Blank	It can be dangerous

Rabbit Mountain	Strongly Oppose	Because as a runner, I'm not expecting bikes or e-bikes on most of the trails.
Rabbit Mountain	Strongly Oppose	Bikes tear up the trail enough. Extra weight of e-bikes will tear things up worse
Rabbit Mountain	Strongly Oppose	Conflict with goals.
Rabbit Mountain	Strongly Oppose	Dangerous
Rabbit Mountain	Strongly Oppose	Don't want to hear the noise.
Rabbit Mountain	Strongly Oppose	E-bike riders tend to be inexperienced and rude. More about doing something cool than experiencing nature.
Rabbit Mountain	Strongly Oppose	E-bikes ARE motorized vehicles and are very heavy, fast, and dangerous and I've seen them impact wildlife -- turkey
Rabbit Mountain	Strongly Oppose	E-bikes are ok on roads, but not trails.
Rabbit Mountain	Strongly Oppose	E-bikes are too fast and I feel they damage trails more than human-powered bikes
Rabbit Mountain	Strongly Oppose	E-bikes go too fast and increase crowds on trails.
Rabbit Mountain	Strongly Oppose	Foot traffic helps keep the trails in better condition and more pleasant.
Rabbit Mountain	Strongly Oppose	For Rabbit Mountain, trails are too narrow, too hilly, etc., to safely accommodate e-bikes.
Rabbit Mountain	Strongly Oppose	I don't think these trails would accommodate bikes well.
Rabbit Mountain	Strongly Oppose	I think it would make the trail crowded.
Rabbit Mountain	Strongly Oppose	Increased injuries due to e-bikers to themselves and others.
Rabbit Mountain	Strongly Oppose	Interferes with natural experience and safety. Not necessary. People can enjoy the natural environment at whatever physical ability they have.
Rabbit Mountain	Strongly Oppose	It should remain mostly hiking.
Rabbit Mountain	Strongly Oppose	More enforcement would be necessary.
Rabbit Mountain	Strongly Oppose	No e-bikes here! That would be huge conflict. The minimal pedal bikes are a blessing for hikers here
Rabbit Mountain	Strongly Oppose	No need
Rabbit Mountain	Strongly Oppose	Opposed to e-bikes in general due to disposal pollution.
Rabbit Mountain	Strongly Oppose	Parks should be for exercise.
Rabbit Mountain	Strongly Oppose	Quiet
Rabbit Mountain	Strongly Oppose	Reckless
Rabbit Mountain	Strongly Oppose	Speed x noise x safety x —> they're for streets; hike/park = nature experiences
Rabbit Mountain	Strongly Oppose	That is a terrible idea. All hiking trails that allow bikes are my last choice for hiking. Too many bikes at Hall with bikes flying downhill [illegible text omitted] on multi-use trail. E-bikes would make things WAY

		WORSE! Can't we have any open space that is just hiking???
Rabbit Mountain	Strongly Oppose	The trail is too narrow to accommodate both hikers and bikes. Hikers would be hindered having to stop all the time.
Rabbit Mountain	Strongly Oppose	There are enough pathways for motorized vehicles, trails should remain quiet spaces.
Rabbit Mountain	Strongly Oppose	They go too fast.
Rabbit Mountain	Strongly Oppose	They're dangerous to hikers!!
Rabbit Mountain	Strongly Oppose	Too dangerous
Rabbit Mountain	Strongly Oppose	Too dangerous for both.
Rabbit Mountain	Strongly Oppose	Too fast
Rabbit Mountain	Strongly Oppose	Too fast for hikers to move out of the way.
Rabbit Mountain	Strongly Oppose	Too many bikes on trails that allow them. I spend significant time yielding to them. [It's] scary when they come racing down hills with blind corners.
Rabbit Mountain	Strongly Oppose	Trail is narrow, normal bikes come down trail fast already.
Rabbit Mountain	Strongly Oppose	Trails are too narrow—nowhere to stop off because of ticks, snacks, etc.
Rabbit Mountain	Strongly Oppose	Trails for human power.
Rabbit Mountain	Strongly Oppose	Unsafe, destructive, unsafe for older people and anyone with mobility impairment to share trails with e-bikes
Rabbit Mountain	Strongly Oppose	Would contribute to trail crowding and conflicts.
Rabbit Mountain	Oppose	[It] will attract too many people, [and] overcrowd/ruin the "natural experience."
Rabbit Mountain	Oppose	20 mph is too fast to mix with walkers on singletrack.
Rabbit Mountain	Oppose	Can be a hazard. Injuries to hikers and bikers could occur.
Rabbit Mountain	Oppose	Conflict with others.
Rabbit Mountain	Oppose	Could add too much traffic to the trail.
Rabbit Mountain	Oppose	Could be dangerous.
Rabbit Mountain	Oppose	Dangerous
Rabbit Mountain	Oppose	Depends on the trail.
Rabbit Mountain	Oppose	Disruptive
Rabbit Mountain	Oppose	Do not feel the need for motorized vehicles.
Rabbit Mountain	Oppose	Don't see the need
Rabbit Mountain	Oppose	Don't enjoy e-bikes.
Rabbit Mountain	Oppose	Easy for walking.
Rabbit Mountain	Oppose	E-bikes have the potential to [go] very fast, in a way not limited to the rider's endurance, strength, etc. Not sure how well the 20-mph rule could be enforced, and I fear they pose a safety risk to other trail users,

		including equestrians. [I] have already experienced one sketchy incident with an e-bike on a walking trail.
Rabbit Mountain	Oppose	E-bikes would make it hard to enjoy the trail. It's already tight.
Rabbit Mountain	Oppose	Enough locations for e-bikes already.
Rabbit Mountain	Oppose	Hikers only. Bikes cause more damage to trails than anyone else.
Rabbit Mountain	Oppose	I don't mind the activity, but it does tend to scare birds and wildlife away. Maybe on designated days/times only?
Rabbit Mountain	Oppose	I go to open spaces for nature, not machines
Rabbit Mountain	Oppose	I have not had positive experience[s] with e-bikes being respectful of others.
Rabbit Mountain	Oppose	I haven't had good experiences with e bikes in town, so I'd be nervous on a smaller trail.
Rabbit Mountain	Oppose	I think it's better to separate walkers from bikers.
Rabbit Mountain	Oppose	I think people should exercise more.
Rabbit Mountain	Oppose	I'd keep it no motorized vehicles.
Rabbit Mountain	Oppose	I'd like to see biking, hiking, and jogging able to be done without aggressive behavior from e-bike riders.
Rabbit Mountain	Oppose	If I had an e-bike, I might like to ride the trails, but as a hiker, bikes often feel dangerous. E-bikes are even more dangerous.
Rabbit Mountain	Oppose	Just the noise
Rabbit Mountain	Oppose	Leashed dogs and e-bikes seem dangerous around blind corners if someone is really ripping
Rabbit Mountain	Oppose	My family doesn't bike, so it's just personal for us that we might be worried to share a trail with them.
Rabbit Mountain	Oppose	No motorized
Rabbit Mountain	Oppose	Noise
Rabbit Mountain	Oppose	Not a fan of bikes on the trails.
Rabbit Mountain	Oppose	Only opposed if on trails that have sharp corners where it could be dangerous for hikers.
Rabbit Mountain	Oppose	People will go too fast on the gravel and dirt.
Rabbit Mountain	Oppose	Safer without bikes.
Rabbit Mountain	Oppose	Safety
Rabbit Mountain	Oppose	Should bike for exercise
Rabbit Mountain	Oppose	There would be conflicts for sure.
Rabbit Mountain	Oppose	They can use roads.
Rabbit Mountain	Oppose	They might be dangerous for kids.
Rabbit Mountain	Oppose	To keep it for any style, pace of hikers.
Rabbit Mountain	Oppose	Too fast
Rabbit Mountain	Oppose	Too much bike vs hike conflict already
Rabbit Mountain	Oppose	Trails are rough enough without making them rougher

Rabbit Mountain	Neutral	[It's] annoying to move over to let bikers pass, but that's not fair to the bikers.
Rabbit Mountain	Neutral	As long as the drivers are competent, it's ok.
Rabbit Mountain	Neutral	Could be dangerous to hikers; could be a great way to see more if mobility impaired.
Rabbit Mountain	Neutral	Could cause unnecessary accidents
Rabbit Mountain	Neutral	Don't love e-bikes on trails because I don't think they'll have enough control.
Rabbit Mountain	Neutral	E-bikes don't bother me as long as they follow the rules.
Rabbit Mountain	Neutral	Good for everyone's use.
Rabbit Mountain	Neutral	Have had bad experiences with riders of e-bikes who are inconsiderate of other users. It's not the bikes...it's the people.
Rabbit Mountain	Neutral	Haven't seen any.
Rabbit Mountain	Neutral	I am not against nor for because it doesn't cause conflict.
Rabbit Mountain	Neutral	I don't really have an opinion on them, I almost have never come in contact with them.
Rabbit Mountain	Neutral	I don't bike but I like hike only trails.
Rabbit Mountain	Neutral	I don't care as long as I'm not bothered.
Rabbit Mountain	Neutral	I don't have one, so I can't have an opinion about something that I don't have.
Rabbit Mountain	Neutral	I haven't had a bad experience at all.
Rabbit Mountain	Neutral	I personally have a class 2 bike and use it responsibly. People abusing trails must be held accountable like hunting and fishing.
Rabbit Mountain	Neutral	I think it could be nice for those with e-bikes, maybe dangerous for hikers.
Rabbit Mountain	Neutral	I want everyone to have access to nature, but I could imagine e-bikes being very disruptive and/or dangerous because they go so fast.
Rabbit Mountain	Neutral	If I had an e-bike, I would like to ride it here.
Rabbit Mountain	Neutral	If they are slow and aware of surroundings, I think it's fine.
Rabbit Mountain	Neutral	I'm open to e-bikes; [they] allow those who are physically limited to enjoy [the] outdoors.
Rabbit Mountain	Neutral	It would depend on how courteous they are in deferring to hikers and other users
Rabbit Mountain	Neutral	N/A
Rabbit Mountain	Neutral	N/A
Rabbit Mountain	Neutral	Never encountered any.
Rabbit Mountain	Neutral	No different than normal bikes.
Rabbit Mountain	Neutral	Not sure how I'd feel about e-bikes in nature.
Rabbit Mountain	Neutral	Seems fine

Rabbit Mountain	Neutral	Sharing the trail is good.
Rabbit Mountain	Neutral	Some people abuse "motorized" rules.
Rabbit Mountain	Neutral	They don't bother me.
Rabbit Mountain	Not Sure	I have had no personal experience of the use of an e-bike.
Rabbit Mountain	Not Sure	They pose a serious hazard, but make the trail more accessible to those unable to hike or bike normally.
Rabbit Mountain	Support	Allows more users access, as long as they are considerate.
Rabbit Mountain	Support	At 59 and a cyclist, [I] eventually might need to use one.
Rabbit Mountain	Support	Don't matter to me
Rabbit Mountain	Support	E-bike rider
Rabbit Mountain	Support	E-bikes allow more access for everyone but aren't likely to tear up trails
Rabbit Mountain	Support	Everyone should be allowed to try things out.
Rabbit Mountain	Support	Gets more people outside, especially older adults.
Rabbit Mountain	Support	I love people getting out on the trails.
Rabbit Mountain	Support	If it's already allowed, might as well continue it and expand it.
Rabbit Mountain	Support	It is a fun activity and would get more people interested.
Rabbit Mountain	Support	It would be great to try it out.
Rabbit Mountain	Support	Love making the outdoors more accessible.
Rabbit Mountain	Support	Makes the place more accessible to people who might not want to, [or] can't hike.
Rabbit Mountain	Support	May want to ride myself.
Rabbit Mountain	Support	Most e-biker[s] are respectful.
Rabbit Mountain	Support	Not allow access on all trails in any given park
Rabbit Mountain	Support	Older folks have an opportunity to continue mountain biking
Rabbit Mountain	Support	Select trails only. Some trails hike only.
Rabbit Mountain	Support	Should be for everyone who pays taxes.
Rabbit Mountain	Strongly Support	As long as everyone follows the rules.
Rabbit Mountain	Strongly Support	I don't mind expanding the trails here for those because it opens more options to do here.
Rabbit Mountain	Strongly Support	I feel like expanding use to e-bikes will reach more people. Many people won't mountain bike because pedaling uphill sucks.
Rabbit Mountain	Strongly Support	I love the idea of improving accessibility.
Rabbit Mountain	Strongly Support	I've never had an issue.
Rabbit Mountain	Strongly Support	Just purchased one.
Rabbit Mountain	Strongly Support	Like to ride e-bikes.
Rabbit Mountain	Strongly Support	Not intrusive on anyone else, only inclusive for older and less-abled people.

Rabbit Mountain	Blank	As long as it doesn't affect sound.
Walden Ponds Wildlife Habitat	Strongly Oppose	[I] encounter problems with their trail usage.
Walden Ponds Wildlife Habitat	Strongly Oppose	[I] would like trails to be quiet [and] unobtrusive with no motorized e-bikes. [It] interferes with the peaceful Zen of the place.
Walden Ponds Wildlife Habitat	Strongly Oppose	Absolutely NOT, no e-bikes
Walden Ponds Wildlife Habitat	Strongly Oppose	Bikes are ok, but e-bikes can go so much faster, and I feel they are ok on city roads/sidewalks, but even the kids on e-bikes are very irresponsible from what I've seen.
Walden Ponds Wildlife Habitat	Strongly Oppose	Bikes disrupt wildlife and the entire atmosphere and ecosystem of an otherwise lovely trail. Many of my favorite trails have been severely impacted by bikes being allowed. PLEASE don't add more, especially e-bikes. Mountain bikers in the last few years have gotten progressively more rude and disruptive than they were before. More trail etiquette education would be welcome. I'm not normally one to say this type of thing, but it's gotten to the point where it's necessary.
Walden Ponds Wildlife Habitat	Strongly Oppose	Bikes scare off wildlife measurably. There are already too many bikes on mountain parks trails. I no longer see the elk and deer that I used to before the Pit Viper mountain biking bro phenomenon.
Walden Ponds Wildlife Habitat	Strongly Oppose	Dangerous
Walden Ponds Wildlife Habitat	Strongly Oppose	Dangerous
Walden Ponds Wildlife Habitat	Strongly Oppose	Dangerous
Walden Ponds Wildlife Habitat	Strongly Oppose	Disrupts wildlife
Walden Ponds Wildlife Habitat	Strongly Oppose	Dogs react -- fast too for it.
Walden Ponds Wildlife Habitat	Strongly Oppose	E-bikes interfere with walkers and are often irresponsible
Walden Ponds Wildlife Habitat	Strongly Oppose	E-bikes do not belong on trails!!
Walden Ponds Wildlife Habitat	Strongly Oppose	E-bikes generally feel too fast and users don't have an appropriate skill level
Walden Ponds Wildlife Habitat	Strongly Oppose	E-bikes not appropriate in foothills/mountains.

Walden Ponds Wildlife Habitat	Strongly Oppose	I am afraid of being hit or fall/trip when the bikes come up fast behind me.
Walden Ponds Wildlife Habitat	Strongly Oppose	I feel bikes wouldn't make much sense in a wildlife area.
Walden Ponds Wildlife Habitat	Strongly Oppose	I own an e-bike -- just too many people going too fast.
Walden Ponds Wildlife Habitat	Strongly Oppose	I prefer no bikes, so I don't have to accommodate for faster moving vehicles.
Walden Ponds Wildlife Habitat	Strongly Oppose	I prefer parks to be for wildlife.
Walden Ponds Wildlife Habitat	Strongly Oppose	It will be dangerous for kids
Walden Ponds Wildlife Habitat	Strongly Oppose	It's a vehicle. Vehicles don't need to be on our trails.
Walden Ponds Wildlife Habitat	Strongly Oppose	I've had a lot of problems with e-bikes on city trails. There's no way to manage that. They go too fast. It's too dangerous.
Walden Ponds Wildlife Habitat	Strongly Oppose	Keep it natural
Walden Ponds Wildlife Habitat	Strongly Oppose	Keep motorized vehicles on the road!
Walden Ponds Wildlife Habitat	Strongly Oppose	Keep trails motor free
Walden Ponds Wildlife Habitat	Strongly Oppose	Lack of respect from bikers and e-bikers. The bikers come up on hikers/walkers too fast and it is dangerous, and they don't let us know [they're coming]. Stop with e-bikes. No to all e-bikes on trails.
Walden Ponds Wildlife Habitat	Strongly Oppose	Loud, unsupervised, fast, no respect, NO.
Walden Ponds Wildlife Habitat	Strongly Oppose	My wife has [a] disability and can't always hear bikes. The e-bikes come up too fast and are too quiet. We quit using any trails with e-bikes. It's very easy to disable the speed limitation and there is no enforcement. The e-bike decision drove us off some of our favorite trails.
Walden Ponds Wildlife Habitat	Strongly Oppose	Nature and motor should not mix in a place this small
Walden Ponds Wildlife Habitat	Strongly Oppose	No e-vehicles
Walden Ponds Wildlife Habitat	Strongly Oppose	No. Bad encounters too often. No way to manage on a regular basis.
Walden Ponds Wildlife Habitat	Strongly Oppose	Not all riders are safety conscious or courteous.
Walden Ponds Wildlife Habitat	Strongly Oppose	NOT SAFE!

Walden Ponds Wildlife Habitat	Strongly Oppose	Prefer trails be primarily [for] pedestrians.
Walden Ponds Wildlife Habitat	Strongly Oppose	Ruins the relaxing feel and energy that is so special and rare here.
Walden Ponds Wildlife Habitat	Strongly Oppose	They are concerning — going too fast for walking people with kids and dogs. They are entitled. The pedestrian is an obstacle.
Walden Ponds Wildlife Habitat	Strongly Oppose	They are dangerous and often can't be heard. They are driven recklessly and are basically motorcycles.
Walden Ponds Wildlife Habitat	Strongly Oppose	They go too fast. In so many places they don't slow down when approaching pedestrians. They don't announce themselves.
Walden Ponds Wildlife Habitat	Strongly Oppose	They interfere with wildlife on this trail. They should stick to paved trails.
Walden Ponds Wildlife Habitat	Strongly Oppose	This isn't the place for that kind of riding.
Walden Ponds Wildlife Habitat	Strongly Oppose	Too easy to hurt someone else. Nuisance for people walking
Walden Ponds Wildlife Habitat	Strongly Oppose	Too many people that are irresponsible with riding. Make a disability exception but don't allow general use.
Walden Ponds Wildlife Habitat	Strongly Oppose	Trails for walking only.
Walden Ponds Wildlife Habitat	Strongly Oppose	Vehicles will change the character [of] the ponds.
Walden Ponds Wildlife Habitat	Strongly Oppose	Very disruptive & makes my dog crazy
Walden Ponds Wildlife Habitat	Strongly Oppose	Walden and Sawhill Ponds are peaceful and motor-free...let's keep it that way.
Walden Ponds Wildlife Habitat	Strongly Oppose	Way too fast!!!
Walden Ponds Wildlife Habitat	Oppose	Don't like them
Walden Ponds Wildlife Habitat	Oppose	E-bikes are dangerous for walkers and dogs
Walden Ponds Wildlife Habitat	Oppose	Hiking and bicycling belong on different trails.
Walden Ponds Wildlife Habitat	Oppose	I even have a new e-bike, but when [I'm] here, I want the walking and pace to be slower, in sync with bird watching.
Walden Ponds Wildlife Habitat	Oppose	I just do not like the speed.
Walden Ponds Wildlife Habitat	Oppose	I like that it is just for walkers

Walden Ponds Wildlife Habitat	Oppose	I think it would change the experience — less serene and more dangerous.
Walden Ponds Wildlife Habitat	Oppose	Interference with wildlife and birds.
Walden Ponds Wildlife Habitat	Oppose	Isn't exercise the purpose of bicycling?
Walden Ponds Wildlife Habitat	Oppose	It's a quiet birding place with people walking or hiking. Too many e-bike[s] might make the place too crowded.
Walden Ponds Wildlife Habitat	Oppose	It's nice to just walk without looking behind or getting off trail.
Walden Ponds Wildlife Habitat	Oppose	Maybe limited to some paths, a problem of dog walking.
Walden Ponds Wildlife Habitat	Oppose	My general exposure to e-bike riders is those doing so unsafely. I have a hunch this will lead to more accidents unless they can be in their own area.
Walden Ponds Wildlife Habitat	Oppose	Nature areas should, in my opinion, be just for hiking.
Walden Ponds Wildlife Habitat	Oppose	Noise, distraction, disturbing wildlife.
Walden Ponds Wildlife Habitat	Oppose	Only class 1 with no throttle
Walden Ponds Wildlife Habitat	Oppose	Plenty of space for e-bikes already. Hard to monitor misuse of trails by e-bikes.
Walden Ponds Wildlife Habitat	Oppose	They are dangerous for my dog
Walden Ponds Wildlife Habitat	Oppose	They travel too fast.
Walden Ponds Wildlife Habitat	Oppose	This is a walking park in my opinion.
Walden Ponds Wildlife Habitat	Oppose	Too fast
Walden Ponds Wildlife Habitat	Oppose	Trail use and pathways should be limited to class 1 bikes.
Walden Ponds Wildlife Habitat	Neutral	1st time here, not enough info/knowledge.
Walden Ponds Wildlife Habitat	Neutral	Clean energy
Walden Ponds Wildlife Habitat	Neutral	Depends on the specific trail
Walden Ponds Wildlife Habitat	Neutral	Don't have much experience or knowledge about e-bikes.
Walden Ponds Wildlife Habitat	Neutral	E-bikes are the same as a regular bicycle.

Walden Ponds Wildlife Habitat	Neutral	I am not a fan, but also [an] e-bike is a nice way for some physical[ly] less able[d] people to enjoy things.
Walden Ponds Wildlife Habitat	Neutral	I don't use an e-bike.
Walden Ponds Wildlife Habitat	Neutral	I like e-bikes but I want them to be safe and courteous
Walden Ponds Wildlife Habitat	Neutral	I wouldn't mind
Walden Ponds Wildlife Habitat	Neutral	I've never encountered an e-biker, and if I have, I wasn't affected by it. So, I have no strong opinions currently. I think hav[ing] a speed limit would be beneficial.
Walden Ponds Wildlife Habitat	Neutral	It depends on how respectful the bikers are with the hikers.
Walden Ponds Wildlife Habitat	Neutral	Not enjoyable to be buzzed by them, but anything that gets people out in nature is positive for parks funding.
Walden Ponds Wildlife Habitat	Neutral	Not sure, 20 mph seems too fast.
Walden Ponds Wildlife Habitat	Neutral	They don't bother me one way or the other.
Walden Ponds Wildlife Habitat	Neutral	Try to be open to all
Walden Ponds Wildlife Habitat	Not Sure	I have not encountered any e-bikes recently.
Walden Ponds Wildlife Habitat	Not Sure	I'm not familiar with them. I'm from Boston.
Walden Ponds Wildlife Habitat	Not Sure	Need to know more -- do they make noise, age of people who are allowed to ride e-bikes, potential dangers.
Walden Ponds Wildlife Habitat	Support	Don't see any harm for trails already designated for bikes
Walden Ponds Wildlife Habitat	Support	Everyone should enjoy the trails.
Walden Ponds Wildlife Habitat	Support	Good
Walden Ponds Wildlife Habitat	Support	I support safe e-bike riding. No throttles, mandatory helmets. No greater than 15 mph.
Walden Ponds Wildlife Habitat	Support	I think it's a good initiative but I'm a little concerned about safety.
Walden Ponds Wildlife Habitat	Support	I think signage and enforcement could be more visible because lots of e-bikes are not paying attention to the rules about where to be; sadly
Walden Ponds Wildlife Habitat	Strongly Support	As long as it is limited to bikes that stop at 20 mph. I ride an e-bike. Would not be ABLE to enjoy many areas.

Walden Ponds Wildlife Habitat	Strongly Support	Everything seems fine to me.
Walden Ponds Wildlife Habitat	Strongly Support	I have an e-bike.
Walden Ponds Wildlife Habitat	Strongly Support	Particularly for people with mobility issues.
Walden Ponds Wildlife Habitat	Strongly Support	Worked in a bike shop selling e-bikes.
Walker Ranch	Strongly Oppose	Danger to themselves, others, and rescuers.
Walker Ranch	Strongly Oppose	Degrades trail faster.
Walker Ranch	Strongly Oppose	Don't want more bikes—hard enough with mountain bikers.
Walker Ranch	Strongly Oppose	Fast, reckless, don't obey the rules, can cause conflict.
Walker Ranch	Strongly Oppose	Feels dangerous for runners, walkers, dogs.
Walker Ranch	Strongly Oppose	I feel like the only issues I've had are with e-bikes.
Walker Ranch	Strongly Oppose	I feel that e-bike riders will not obey posted speed limits
Walker Ranch	Strongly Oppose	I support the use of e-bikes by recreational cyclists in principle, but there is a LARGE number of school-age bikers in town who are heedless of safety, traffic, speed, and pedestrians, so NO.
Walker Ranch	Strongly Oppose	I think it would be a detriment to the peace of the park.
Walker Ranch	Strongly Oppose	I think they aren't that safe when there are hikers and runners. They also make the outdoors less peaceful.
Walker Ranch	Strongly Oppose	If you are with a dog, fast bikes can be an issue.
Walker Ranch	Strongly Oppose	I'm here for slow pace and quietude
Walker Ranch	Strongly Oppose	More traffic and speed on extremely populated trails. Earn it! (Exceptions for senior citizens?)
Walker Ranch	Strongly Oppose	Motorcycles have the road. E-bikes can use dirt bike trails.
Walker Ranch	Strongly Oppose	Mountain bikers have been great in my experience -- so far -- but adding motors seems more hazardous. Maybe separate trails?
Walker Ranch	Strongly Oppose	NFW!!
Walker Ranch	Strongly Oppose	NO BIKES! People need bike-free walking trails to enjoy without having to be diligent all the time.
Walker Ranch	Strongly Oppose	No motorized anything should be allowed.
Walker Ranch	Strongly Oppose	No motors!
Walker Ranch	Strongly Oppose	No trail etiquette, noise, trail degradation.
Walker Ranch	Strongly Oppose	Not cautious, dangerous to hikers and runners.
Walker Ranch	Strongly Oppose	Not necessary.
Walker Ranch	Strongly Oppose	Not safe for hikers/runners.

Walker Ranch	Strongly Oppose	Older people are able to enjoy longer trails. "Bad knee," lower impact.
Walker Ranch	Strongly Oppose	People generally abuse and use higher motors.
Walker Ranch	Strongly Oppose	Prefer trails without e-bikes.
Walker Ranch	Strongly Oppose	Seriously please no, too many people here for that.
Walker Ranch	Strongly Oppose	Should be only for people with disabilities.
Walker Ranch	Strongly Oppose	There are enough conflicts with mountain bikers.
Walker Ranch	Strongly Oppose	They will go too fast and not yield. It will be dangerous for pedestrians, horses, dogs.
Walker Ranch	Strongly Oppose	This will cause overcrowding and accidents.
Walker Ranch	Strongly Oppose	This will create more conflict on the trails with the e-bikes going too fast and becoming hazardous. I have experienced this firsthand.
Walker Ranch	Strongly Oppose	Too fast, too loud, zero trail etiquette, too high of a potential for trail erosion.
Walker Ranch	Strongly Oppose	Too loud and noisy.
Walker Ranch	Strongly Oppose	Too much damage to the trails
Walker Ranch	Strongly Oppose	Too much erosion.
Walker Ranch	Strongly Oppose	Too much potential for conflict
Walker Ranch	Strongly Oppose	Trails will become overcrowded.
Walker Ranch	Strongly Oppose	Very dangerous if people are also on trail
Walker Ranch	Strongly Oppose	Very difficult to walk with fast bikes passing by.
Walker Ranch	Strongly Oppose	We love this as a walking trail, and do not want to dodge e-bikes.
Walker Ranch	Strongly Oppose	Wildlife disturbance including other users.
Walker Ranch	Oppose	As an equestrian (not today), bikers are often not educated in best practices for safely sharing trails.
Walker Ranch	Oppose	Because this is a place to work out and exercise.
Walker Ranch	Oppose	Bikers are often not considerate of walkers
Walker Ranch	Oppose	Bikes already are often dangerous from not yielding. I worry e-bikes would be worse.
Walker Ranch	Oppose	Bikes are already going pretty fast on trail.
Walker Ranch	Oppose	Can be very fast.
Walker Ranch	Oppose	Don't feel motorized vehicles are good with pedestrians.
Walker Ranch	Oppose	Don't like them.
Walker Ranch	Oppose	Don't want e-bikes.
Walker Ranch	Oppose	I don't ride an e-bike; no plans to.
Walker Ranch	Oppose	I feel like it'[s] cheating.
Walker Ranch	Oppose	I find that e-bikes over 20mph break the rules on trails with e-bikes allowed.
Walker Ranch	Oppose	I think they might mess up the trail.
Walker Ranch	Oppose	I'm a snob.

Walker Ranch	Oppose	It would interfere with the experience I look for on hikes. If it is the only way for someone to experience the hike, I wouldn't oppose it.
Walker Ranch	Oppose	More will come. The motors will go greater than 20 mph. More bikers will be a danger and [a] problem for hikers. No e-bikes, only human-powered.
Walker Ranch	Oppose	Not really a place I want to share with e-bikes.
Walker Ranch	Oppose	Opposed to any motorized vehicle on hiking trails -- it's potential for conflict, mechanical issues.
Walker Ranch	Oppose	Pedal!
Walker Ranch	Oppose	People on bikes [are] generally already not respectful; unsure how faster [e]-bikes would be.
Walker Ranch	Oppose	Prefer not to have e-bikes.
Walker Ranch	Oppose	Prefer not to have the trail wear from e-bikes
Walker Ranch	Oppose	Seems like it could be dangerous for hikers. Possibly people biking who aren't respectful.
Walker Ranch	Oppose	Seems more dangerous for multi-use.
Walker Ranch	Oppose	They go fast.
Walker Ranch	Oppose	They go to[o] fast.
Walker Ranch	Oppose	They move too fast, don't always see them coming.
Walker Ranch	Oppose	Too fast.
Walker Ranch	Oppose	Too many users and blind corners on trails that would make unsafe experiences/conditions.
Walker Ranch	Oppose	Trails are narrow in some areas.
Walker Ranch	Oppose	Unless you are handicapped!
Walker Ranch	Oppose	Worried about the speed of electric bikes with hikers and dog walkers.
Walker Ranch	Oppose	Worry it's fast and will impact safety of hikers and other bikers.
Walker Ranch	Oppose	Would not want collisions.
Walker Ranch	Neutral	As long as the speed is kept down, then ok.
Walker Ranch	Neutral	As long as they don't interfere, I don't see the issue.
Walker Ranch	Neutral	Do not know much about.
Walker Ranch	Neutral	Do not live here, feel as though locals should have say.
Walker Ranch	Neutral	Don't live in this area.
Walker Ranch	Neutral	E-bikes are a way to get people active.
Walker Ranch	Neutral	E-bikes can bring a different crowd to MTB trails, but also makes trails more accessible.
Walker Ranch	Neutral	Have not encountered any while hiking.
Walker Ranch	Neutral	Haven't thought about it. 😊
Walker Ranch	Neutral	I am not local.
Walker Ranch	Neutral	I don't mind e-bikes if they are courteous.

Walker Ranch	Neutral	I don't mind sharing hikes with bikes, but if they can go fast, it could be startling, have to move quick and noisy.
Walker Ranch	Neutral	I have no issue with that.
Walker Ranch	Neutral	I have to assume they'd be annoying but hey, whatever gets people outside.
Walker Ranch	Neutral	I like just people hiking trails, bikes are annoying and some are rude.
Walker Ranch	Neutral	I like that allowing e-bikes would give more people the opportunity to enjoy the trails. On the other hand, [it] could create some accidents?
Walker Ranch	Neutral	I support more ways/accessibility for people to access trails, but with more accessibility comes more people who are less aware of rules and courtesy.
Walker Ranch	Neutral	I think everyone should be able to enjoy nature. Even with e-bikes
Walker Ranch	Neutral	I worry that the limited visibility and narrowness of mountain trails would cause collisions, but I recognize that e-biking on these trails could be fun if it was safe.
Walker Ranch	Neutral	If e-bikes are allowed, I guess having them go at a conservative speed is ok.
Walker Ranch	Neutral	If that's how people want to use [the] trail, then okay.
Walker Ranch	Neutral	No strong feelings as long as it doesn't impact regular activity.
Walker Ranch	Neutral	Seems pretty fast, but I have not run into one, so I do not know for sure.
Walker Ranch	Neutral	They're basically mountain bikes
Walker Ranch	Neutral	Trails should be for everyone
Walker Ranch	Neutral	Worried about conflict between bikes and runners.
Walker Ranch	Neutral	Would prefer not to have e-bikes, but at the same [time], don't want to be exclusive.
Walker Ranch	Not Sure	I did not encounter bikes.
Walker Ranch	Not Sure	Never used one.
Walker Ranch	Support	Allow[s] older people to ride too.
Walker Ranch	Support	As long as limited/doesn't impact trail maintenance too much.
Walker Ranch	Support	As long as they're courteous of other bikers, hikers, and dogs, it should be fine.
Walker Ranch	Support	Bike person
Walker Ranch	Support	Don't seem to be an issue for me.
Walker Ranch	Support	Expands access
Walker Ranch	Support	Generally, don't like e-bikes, but know that for some that's the only way they get on the trail. If it gets them outside, then that's a win!

Walker Ranch	Support	Hopefully will make biking more accessible.
Walker Ranch	Support	I don't mind as long as they're used responsibly.
Walker Ranch	Support	I like the idea that older people with skills can continue to mtn bike — however — do not support 20 mph — too high! And inexperienced people need skills before adding a motor.
Walker Ranch	Support	I would support a trial if public feedback were part of the process.
Walker Ranch	Support	I'd like people to experience who may not otherwise be able to do it.
Walker Ranch	Support	If it's not a bother or a threat to the peace, let people use the trail as they enjoy.
Walker Ranch	Support	More people to view and enjoy nature!
Walker Ranch	Support	Not at Walker. There's too many trail users already.
Walker Ranch	Support	Not bothered
Walker Ranch	Support	People should enjoy what they want.
Walker Ranch	Support	Why not allow it?
Walker Ranch	Strongly Support	Allows for more people to enjoy the trail.
Walker Ranch	Strongly Support	E-bikes allow more people to recreate. I have knee issues and my e-bike has allowed me to go to places I never thought I could before and it's a bike that caps at 20 mph.
Walker Ranch	Strongly Support	E-bikes are wonderful ways for older people or people with disabilities to get out and enjoy nature; they deserve that opportunity like everyone else.
Walker Ranch	Strongly Support	I have a broken back and cannot pedal a standard mountain bike. An e-bike helps me still enjoy the trails.
Walker Ranch	Strongly Support	If there's a throttle, they should not be allowed. Pedal assist = yes!!
Walker Ranch	Strongly Support	More accessible.
Walker Ranch	Strongly Support	Quiet, no pollution, and very fun.
Walker Ranch	Strongly Support	Separate bikers.
Walker Ranch	Blank	E-bikes can cram it with walnuts.
Walker Ranch	Blank	For anyone who needs the assistance to still be able to enjoy the park.
Walker Ranch	Blank	Honestly, it's about the person riding the bike, not necessarily the bike, so I'm in strong support, but also neutral-- hard to say

Caribou Ranch	A note: [the] roof of the porch is losing shingles. Had a great experience in the past; the artist in residence was a writer, sitting on a picnic table by the stream and she invited me and my sister to write poetry with others on the trail. It was a magical experience. Love the parks, love hiking.

Caribou Ranch	I hope our government does everything possible to protect our parks and open spaces. These open spaces are so important to our survival and those animals that call these spaces home.

Caribou Ranch	Please continue to allow spaces for off-leash dogs. Would LOVE to have bathrooms/porta potties at Dry Creek and Bobolink.
Caribou Ranch	Please make the Kinglet Trail more accessible. I am trying to hike all the county trails, and I cannot figure out how to access [the] trail without adding six more miles to the hike!
Caribou Ranch	Preserve and expand the open space, so there is enough for all to enjoy without overcrowding.
Caribou Ranch	Preserve calm, quiet places -- this means restricting use as our population grows. I am in agreement with days set aside for different use and trails specific to hiking. When bikes are there, they simply get right of way because -- I'm not going to make them stop for me when they go downhill. That makes no sense. I support their right to use trails but prefer not to mix with hiking and horses.
Caribou Ranch	Preserve nature. No more commercial development in the Front Range.
Caribou Ranch	Protect it
Caribou Ranch	Protect them.
Caribou Ranch	Protection of our parks and open spaces.

Caribou Ranch	We feel very fortunate to have what we do
Caribou Ranch	We love our parks. Just continue to maintain and expand when [you] can.
Caribou Ranch	We love the parks here! Keep up the good work! Maintenance on trails is always appreciated! 😊
Carolyn Holmberg Preserve at Rock Creek Farm	As bikes become better, more durable, have all systems link, so you can "create your own adventure" from county to county.
Carolyn Holmberg Preserve at Rock Creek Farm	Better connectivity! Things like the Rocky Flats connection are great. While agriculture is a "historic" use, I would prefer it to look more pre 1800s with more prescribed burns, more beavers, more native plants, and less cows!

Carolyn Holmberg Preserve at Rock Creek Farm	Native plants!
Carolyn Holmberg Preserve at Rock Creek Farm	Please be open to increasing e-bike access. It is a very important means of exercise for those [with] mild disabilities. Increase number of parking spaces — otherwise, the parks are great!!!!
Carolyn Holmberg Preserve at Rock Creek Farm	Please don't take any of the current open spaces away from us!
Carolyn Holmberg Preserve at Rock Creek Farm	Remain in place.
Carolyn Holmberg Preserve at Rock Creek Farm	Since I have lived here there has suddenly been a change to green space, or spaces I assumed were. I was so impressed when arriving to the vast number of them. I prefer they grow in number and never decline.

Hall Ranch Main Trailhead	Over the course of time, mountain bikers have added jumps and banking to Bitterbrush. I think this encourages too much speed. The answer is to either remove some of the ramps and jumps to slow bikes a bit. I think a bikes-only trail might be [a] good answer.

Mud Lake	I never vote to increase the open space tax. Boulder County own[s] and controls enough land, which is all closed to my preferred recreation — hunting and shooting. Get us a range!
Mud Lake	I would like to see more mountain trails allowing dogs, so they don't all end up at the same few places.

Pella Crossing	Looking forward to connecting these parks.
Pella Crossing	Lots of support for wildlife and people to be together.
Pella Crossing	Love all the parks. Want to keep them!
Pella Crossing	Love having so many options for walking. Do wish that Twin Lakes Trail had more rangers patrolling — too many irresponsible people have their dogs off leash.

Pella Crossing	N/A
Pella Crossing	Need to better manage the vegetation to control noxious weeds. There has been a terrible decline in native plant diversity and abundance in our open spaces over the past 30 years. This should involve herbicides as a part of integrated weed management. If we care about native ecosystems, we need to be proactive about this and listen to ecologists that know what they are talking about!
Pella Crossing	Open at night.

Pella Crossing	Park preservation
Pella Crossing	Please maintain open space! Don't let them build on EVERYTHING! Thank you for all you do!
Pella Crossing	Please protect the wild places from anything motorized. People don't respect guidelines, and abuse the privilege of having beautiful and protected places.
